Chinese Cook Made Big Kites; Helped Young Cody to Fly

(Special Correspondence.) OGDEN, Oct. 28.—From a boy's kite to what he claims is the most practical war aeroplane yet constructed is the record of Col. R. E. Cody the American who is teaching Englishmen how to fly, and who declares that one of these days he will make a flight from London to Manchester. And it may as well be said at the beginning that although he has been for some years in the service of the British war office, he has not hampered at every turn by British money and red tape, and almost when again he is in the hands of the British authorities and supplied to finish his work with industrial capital and under all sorts of difficulties.

Getting Ready for the Great Battle Which They Believe Is Coming When the Lords Throw Out the Budget And Force a General Election.

(Special Correspondence.) LONDON, Oct. 28.—Throughout the united kingdom politics are at the moment the absorbing attraction and to women they mean as much, if not more, than to men. That element of intrigue which they promise goes straight to the heart of ambitious women.

Germany Will Not Forgive Heine For His Caustic Wit

(Special Correspondence.) LONDON, Oct. 28.—What is to become of the statue of Heine which the German emperor proposed from the pedestal in the Corfu park purchased by him from the late empress of Austria?

English Society Women Preparing to Enter Political Arena.

(Special Correspondence.) LONDON, Oct. 28.—Throughout the united kingdom politics are at the moment the absorbing attraction and to women they mean as much, if not more, than to men.

Wife Will Decide.

Mrs. David Beatty (the late Marshall Field's daughter) does not intend to follow her husband to rest on his laurels as a defender of his country, but she has decided to enter the political arena and to give a succession of political lectures.

WOMEN WORKERS.

If the Liberal party is to return to power, it will be due to the exertions of the extraordinarily large number of beautiful and clever American women who are the wives of its leaders.

A CULTURED SPEAKER.

The duchess is a cultured speaker. She was one of the very first to go in for electioneering and she practiced speaking to imaginary audiences with all the splendor of a young clergyman.

MRS. WEST'S POWER.

It would pay any government to give Mrs. George Cornwallis West a permanent income to become its professional advocate. She has been known to turn rabid Tories into warm Whigs, rampant Unionists into genial home rulers, several of the present ministers are serving Mrs. West not

LANG'S OBJECTIONS.

Andrew Lang objects strenuously to the modern tendency to estimate intellect by taste. Of course we all have our little crystallized ideas with which to test an unsuspecting, unproved friend, but what Lang seems to repudiate is an individual's right to totally condemn the ungenial.

THE MANUFACTURE OF PINS.

Of course, iron and steel pins between fifteen and sixteen lines (2.250 pounds to a ton) are made each week in the United Kingdom. In view of the great differences in the size of the pins, which necessarily affects their weight, it is impossible to calculate how many millions of pins are represented in this output, but the number must be almost incalculable.

BILAHIE BELLOU, M. P.

Bilalhe Bellou, M. P., whose special subject is the iron and steel industry, was asked to give a specimen of his own work on the other day, but as a speaker, not as a writer, he was disappointed.

WHEN TROUBLE BEGAN.

Before he went to work seriously on the aeroplane Colonel Cody had a food that he had been developing in the British office balloons and he was chiefly by his expert work on the dirigibles proved successful as they have.
