W. H. Bryant, chairman of the
League for Honest Elections, made the
following statement today concerning
alleged frauds in Denver:

"The election in this county shows how the city is at the mercy of a criminal police department. In every precinct where gross frauds were committed the police were in control and the work was done by them or under their ted the police were in control and the work was done by them or under their supervision. A good illustration of this will be found in the second precinct of the Fourth ward. That was in charge of 'Billy' Green, of the police department, and under the eye of 'Mike' Delaney, police captain. At the charter election only six weeks ago the vote was a little more than 200. Yesterday it showed the remarkable result of 717 for Wilson, 9 for Campbell. Such a result is stamped fraudulent on its face. And yet we seem to have no remedy. The courts turn a dear ear; our officials of hearly all active participants in the fraud; the people seem content.

"The League, however, will continue its work. It wil collect and preserve its evidence—some day we will have a court honest and courageous enough to give us a grand jury; it wil perfect its organization and prepare for future elections."
