STOCKHOLDERS OF Salt Lake Railroad Company, see notice of annual meeting for the election of officers, April 5.

ABOUT SEWING MACHINES.—In the price of these valuable articles likely to be reduced?

The Howe's patent has led many persons to suppose that the price of sewing machines will be greatly reduced. All the leading machines have been greatly improved in the past few years. These improvements have been patented, which gives the companies absolute control of the improved machine, and any one at all conversant with the sewing machine business must know that the most skillful salesman could not induce the most ignorant to buy the old style machine at any price where the improved was offered for sale. Even if all the patents were removed we are confident no reduction would be made until the leading companies discontinue their present system, selling on trifling monthly instalments, and when it is taken into consideration the enormous expenses of the business, it will be seen that the profits are not greater on sewing machines than on many other kinds of machinery. All the leading companies have agents and canvassers in every city, town and village in the country—that they sell on the easiest possible terms, enabling the poorest to buy—the delivery of the machines to the customer's house, give his wife thorough instruction in the use of the same, keep it clean and in repair for a year or more, etc.

The agents of the leading machines—the Howe and Singer—are so confident that no reduction will be made that they are willing to sign a contract with their customers who may purchase machines from this date to refund whatever reduction may be made in the price during the next year. d&w

IMPORTANT TO THE TRAVELING PUBLIC.

It is the duty of all persons before starting on a journey to ascertain by what route they can reach their destination with the least trouble, and if there are two or more roads leading to the same point, to decide which is the safest and pleasantest to travel.

We take pleasure in stating, that the **CHICAGO & NORTH-WESTERN RAILWAY** is the oldest, and several miles the shortest, route between Omaha and Chicago. Within the past two years the road has been put in admirable condition, and almost the entire line has been laid with steel rails.

The Depot in Chicago is central ly located, and as their trains arrive there thirty minutes in advance of all other lines, passengers are always sure of making Eastern connections.

Close connections are made at Chicago with the Lake Shore & Michigan Southern, Michigan Central, Baltimore & Ohio, Pennsylvania, New York & Chicago, Kansas City Line and Pan Handle Routes, for all points EAST and SOUTH-EAST.

If you are going to Chicago, or East, you should, by all means, procure your tickets by the Old Pioneer Route.

Chicago and North-Western. You will find on all through trains Pullman Sleepers, new and

magnificent Day Coaches, and the best Smoking and Second Class Cars now on any road in the United States.

Particular information, with maps, time tables, etc., may be had at any of the Through Ticket Offices in the West, or upon personal or written application to J. W. Irons, Ticket Agent, Salt Lake City, A. H. Earl, Ticket Agent, Ogden, or to J. H. Mountain, Western Traveling Agent, Omaha, Neb., or to W. H. Stennett, General Passenger Agent, Chicago. d54

LEMON AND ORANGE.—Dr. Price's Flavorings of Lemon and Orange are made from the fruit, and give the grateful, agreeable taste without the turpentine odor which is observed in those extracts usually sold, made from poisonous oils, acids, and taste sharpened by essence pepper. We advise those who wish choice, pure extracts to buy Dr. Price's. They are, like his Cream Baking Powder, all that is represented, really good and alone in the market in these important respects.

AN AWFUL RESPONSIBILITY.—Everybody has something to say about consumption. We all deplore its terrible ravages, but only a few of us seem to have common sense enough to take the proper means of preventing it. It is a fact as easy of proof as that two and two are four, that HALE'S HONEY OF HOREHOUND AND TAR, taken as a remedy for cough, cold, difficult breathing, hoarseness or any other of the symptoms which, as it were, pave the way for that terrible destroyer, will effect a radical and rapid cure of the ailment, and avert all danger. Whoever, knowing this, neglects to resort to the true specific under such circumstances, assumes a fearful responsibility.

Pike's Tooth-Ache Drops.—Cure in one minute.

"STILL WATERS RUN DEEP," at the Theatre on Saturday evening.

For all Female Complaints.

In young or old, married or single, at the dawn of womanhood, or in change of life, Dr. Pierce's Favorite Prescription manifests such a positively remedial influence as to call forth the loudest praise from all who use it.

Mr. John A. Kinzey, druggist, of Knob Noster, Mo., writes as follows:

"Dr. Pierce, Buffalo, N. Y.: Dear Sir—Your medicine sold better than any other I keep, and gave universal satisfaction. The people are especially delighted with your Favorite Prescription, and it seems to be a favorite among all that have ever used it." It is sold by druggists and dealers in medicine.

Local and Other Matters.

THERMOMETER 44 degrees F. in the shade 1 p.m. to-day. Dull.

Sixteen Days Coming from Rockville.—A gentleman in this city received a letter, this morning, bearing the post mark of Rockville, Kan. Co., U. S., dated Feb. 22d, only sixteen days coming from that place to this. Who can speak in commendation of a postal service like that?

Information Wanted.—Mr. John Ray, agent for Colorado and Utah, for the sale of Fairbanks' scales, who is now in this city, and will remain for a week or two, wishes to see or hear from Mr. Wm. Matthews, or any member of his family. Mr. M. and family lived formerly at Carrollton, Ill.

President Young Released.—Between twelve and one o'clock to-day, the term of President Brigham Young's imprisonment, one day, to which he was sentenced yesterday, by James B. McKean, Chief Justice of Utah, for adjudged contempt of Court, having expired, deputy U. S. Marshal A. K. Smith went to the penitentiary and released him. The President was escorted home to this City by a few personal friends. He reached here at half past one o'clock.

The \$3,000, fees of opposing counsel, in the case of Young vs. McKean, which he was directed to pay, by the order of the Court, was paid yesterday.

Missionary Appointments.—We have been requested to republish the following missionary appointments for the City, for next Sunday evening, March 14th, it having been found necessary to make some changes from the list published in the early part of the week:

Second Ward—Elder S. Nealen, Fourth Ward—Elder S. B. Young.

Eighth Ward—Elder Isaac Groves, Tenth Ward—Elder G. Swan and D. A. Swan.

Twelfth Ward—Elder D. James, Thirteenth Ward—Elder T. Taylor.

Fourteenth Ward—Elder R. D. Woolley.

Sixteenth Ward—Elder R. F. Nealen.

Seventeenth Ward—Elder C. H. Wilkison and C. J. Thomas.

Nineteenth Ward—Elder G. Teasdale.

Twentieth Ward—N. H. Felt.

The "Great Jennings Property."—Remarkable discoveries and unsuspected lines of evidence (carried very far back) in this strange case, are being unearthed, being continually made. When it is remem-

bered that the enormous sum of two to seven millions is the estimate of the present value of the property, and that the rights to numerous estates on the part of seven or eight noble houses are disputed, the case, when set down for hearing in the Court of Chancery, will take place soon—will create great public curiosity. The case will involve the examination of a historical history more than a century and a half—*London Globe.*

Theatre.—To-morrow evening Mr. E. B. Marden will take his first benefit at the Theatre. The performance will commence with Tom Taylor's beautiful three-act comedy, "Still Waters Run Deep," Mr. Marden appearing as "John Midway," Mr. Lindsay as "Captain Hawkeye," Mr. Wilton as "Mr. Potter," Miss J. C. Walters as "Mrs. Heber Sternhold," and Miss D. Claverton as "Mrs. Midway."

The Fourteenth Infantry Band will give a number of choice selections, under the leadership of Prof. Le Mar.

The performance will conclude with the farce of "Betsy Baker," with Mr. Graham as "Sir Marmaduke Mousie," Mr. Marden as "Mr. Crumpley," Miss Walters as "Betsy Baker," and Mrs. Douglas as "Mrs. Mousie."

This is an excellent bill, and Mr. Marden is an old and popular actor, one of the most available, most useful, and most satisfactory in the company. It is anticipated that there will be a fine performance and a full house.

A Marine Picture.—Mr. Geo. M. Ottinger has just finished a very fine marine picture, in which branch of the art he is particularly good. It represents H. M. ship Amazon, of 23 guns, as she was struck by a sudden squall, which made her heel over. She had at the time, out of which ten were split. This occurred at the evening of March 30th, 1852, in lat 2 deg. N., long 21 deg. 40 min. W., and she was nearly becalmed at the time. She was on her passage from the Cape of Good Hope for England, and had on board fifty-eight officers, seamen, marines and boys, survivors of the ill-fated *Birkenhead*, wrecked on Bangor Point, with the loss of 480 men. Mr. John R. Howard, of this city, was one of the saved, and was one of those who was on the Amazon when she was struck by a squall. It was from his description that Mr. Ottinger got up his picture, which is well detailed and finished.

The Water Question.—Last Fall the citizens of the Twentieth Ward, in public meeting assembled, appointed a committee to get up and present to the City Council a petition, praying that honorable body to take measures to supply them with water, they being almost entirely destitute thereof for either culinary purposes or for irrigation, being thereby subjected to serious inconvenience, in many cases amounting to absolute suffering. The bench is very large, and contains many residents, some of whom are compelled to go perhaps half a mile or more, to obtain water from the nearest well or pump, for drinking and cooking. A petition, numerously signed, was presented by the committee referred to above to the City Council, by whom it was favorably received, and we believe, it was promised that measures should be taken at an early day to afford the relief prayed for. Spring is now fast approaching, and the water question will very soon force itself again upon the attention of the citizens residing upon the bench, and unless the relief necessary is obtained they will have another summer of inconvenience and loss. In order, however, to avoid this if possible, the committee appointed last fall will meet at the residence of Mr. S. W. Sears at half past seven o'clock this evening, to consider as to what further measures it may be necessary to take in relation to this matter.

With water for irrigating purposes the Twentieth Ward bench would soon be the most delightful portion of this very beautiful city. There is, we believe, abundance of water available, for all in every part of the city, for irrigation as well as other purposes; and the expense of constructing a reservoir, canal, or whatever might be needed to place it within the reach of the people residing north of the old wall of the city, though it should amount to twenty or thirty thousand dollars, would soon pay itself with interest, for there is no question that those asking the relief so necessary to their welfare would be very willing to pay for it.

Have We a Jennings Among Us?—This threatens to become a very important question financially, judging by a paragraph from the *London Globe*, republished elsewhere in to-day's News, concerning the contested "Great Jennings Property in England." There's millions in it.
