Bingham Con. The inspection is said to have been thorough and highly sat-isfactory and there seems little, if any, reasonable room for doubt but what the deal which brought Mr. Heinze to Salt Lake was consummated or shortly will

Today will be spent in an examina-tion of the Commercial mine which is generally considered one of the most generally considered one of the most valuable of the Bingham Consolidated group. Part of the day will be spent under ground and later a second visit will be paid to the Dalton and Lark properties. Should Mr. Heinze be found to be actually in control of the Bingham company, it will, in all prob-ability, make little or no difference in the official status of the concern. The management, from the presidency The management, from the presidency down, will remain unchanged for the down, will remain unchanged for the present at any rate and the only dif-ference noticeable will be in the rapid increase of development work on the properties. Mr. Heinze is one of the most prominent figures in western mining at present in this section of the country, if not the most prominent, he came to Butte p 1853 as a mining he came to Butte n 1889 as a mining engineer in the employ of the Boston & Montana Mining company, and began his career in the mining center by plunging into hard work below ground. He was in his twentieth year, having been born in Brooklyn, N. Y. Dec. 5, 1859. He is a son of Otto and Eliza Lacey Heinze, his father being a native of Germany and his mother of Connecticut. The father was an inporter of dry goods, and F. Augustus Heinze was given a thorough technical education in the School of Mines of education in the school of mines of Columbia university. In Butte he began to put his education to practical use by taking a position at the bottom with After he had spent two years in the underground workings of Butte, he fell heir to \$50,000, a legacy from his grandmother. He left Butte for a time, and spent two years studying engineering and metallurgy as a postgraduate in the schools of Germany. At the end of this time he returned to Butte and incorporated the Montana Ore Purchasing company. The new enterprise was capitalized at \$250,000, and within a short time constructed a smelter in Meaderville. It entered the and within a short the lit entered the smelter in Meaderville. It entered the field as a plant for custom smelting, but the field was speedily enlarged by the securing of mines under the con-trol of Mr. Heinze. Many of the properties which he se-cured had been abandoned by their locators as worthless, but in his work as a practical miner, the head of the as a practical miner, the head of the Montana Ore Purchasing company had become convinced of their value, and he plunged heavily on his judgment. His expert judgment is vouched for by the results; one of his biographers, in a popular magazine, asserts that witha popular magazine, asserts that with-in two years he developed mining claims which cost him \$1,500,000, into properties worth from \$20,000,000 to \$30, 000,000. Much Much of the property be-came involved in long litigation, which has been ended only by the big merger announced early this string. has been ended only by the big merger announced early this spring. With the profits of his first Butte enterprises Mr. Heinze invaded new fields, and for a time gave personal direction to development of Canadian mining fields. In the Kootenay mining country of British Columbia was the practically abandoned mining camp of Rossiand. The mines here had been talists, who had given them up as worthless. Mr. Heinze was convinced of their value after an examination, and he started doing things with char. acteristic boldness. He built at Trail, 18 miles distant from Rossland, the first smelter in Canada, in which to reduce the ores from properties on which he had secured options. To furnish transportation he built a railroad to this point The attitude of the powerful Cana-The attitude of the powerful Cana-dian Pacific railway was not altogether friendly, and they wereabout to start a campaign of discouragement, when they were brought face to face with the fact that Mr. Heinze had a project to extend his road up through British Columbia at a cost of some \$20,000,000. The inhabitants of the province were ready to welcome a competing line, and the young financier had a franchise that would be inviting to railroad-building capital. building capital. When the little matter of arbitration had bee effected Mr. Heinze was a mil-lion and a half dollars to the good on his deal, and his financial reputation was decidedly raised by the stroke. He returned to Butte and resumed the de-velopment of his properties. For the past decade he has been a foremost factor in the city and state. He has been a rolitical leader, and in commerheen a collitical leader, and in commer-cial fields he has extended his opera-tions not only in mining, but in banking and financial operations generally, In Butte he is identified with the In Butte he is identified with the Aetra. Silver Bow National and State Savings banks, and with other com-mercial enterprises. The concentrator at Basin was built after the fire de-stroved the old one adioning the smel-ter in Meaderville. The Basin property, it is announced is not included among those transferred. those transferred.

made to the men, and promises of a full investigation of the trouble given, but at 7 o'clock this morning practically not one of the furnace men put in an appearance. A spirit of general dissat-isfaction appears to have existed throughout the entire valley for some time past, the actual cause of which is hard to get at. Such labor trou-bles as have come up recently have been practically all amicably settled, and on the two or three former occabeen practically all amicably settled, and on the two or three former occa-sions when demands were made of the American Smelting & Refining com-pany an investigation showed the jus-tice of the men's claims, and in one case, their demands were avered to in full their demands were agreed to in full This indicates a spirit of justice on the of the company, in view of which it is difficult to understand an actic part of the men of so arbitrary nature

LITTLE BELL BONANZA MINE. Manager Spiro and Supt. Ketley of the

Silver King Amazed at Showing. Mr

Solon Spiro, manager of the Lit-Bell, has just returned from a visit to the company's property, and after spending a day underground, is more than ever convinced of the value of their holdings. Approximately 400 feet of development work has been done on the dip of the vein, and about 175 feet along its strike. Tests show the ledge to be permanent and very rich, and its value is no longer a matter of specula-

value is no longer a matter tion. Mr. Spiro was accompanied by J. H. Keetley, superintendent of the Silver King Consolidated, and the latter was so favorably impressed that he spent another day in the mine. Mr. Spiro states that both he and Mr. Keetley were amazed at the showing the mine had made.

of the most noted banking institutions in the west. The disaster will result a tremendous shrinkage in San ncisco realities, particularly along Market street where values have been so high, and it will probably be years before there is likely to be any ad-The Lehi Commercial club has now established reciprocal relations with most of the Commercial clubs of the state. At the club's meeting Friday night, the matter of getting free tele-phone service with Provo from the north and south end of the county, was taken up, and James M. Kirkham and G. N. Child were appointed a commit-tee to work with other committees of the county in regard to this matter, Lehi having taken the initiative. ance to speak of in local real estate. opinion of prominent Salt Lake banking men. RICH STRIKE ON BIG FOUR.

S. A. Higby, Lessee of Property, Sees Riches in Store.

Higby, lessee of the Big Four mine, arrived yesterday from State Line with a car of his ore for the Taylor & Brunton Sampling works. Mr. Higby recently made a valuable find, practic-ally on the surface, and is anxiously awaiting the result of the tests. The ore is divided into two lots, the first of which he avects is the first of which he expects to run from \$800 to \$900 in gold, and about 1,000 ounces of will run about \$200 in gold and silver. Mr. Higby says the vein grows strong-er as it deepens, and he is confident that he has a property which will compare favorably with anything in the state.

Tendered Elder and Mrs. C. A. Callis -Improved Railway Service.

Special Correspondence.

Coalville, Summit Co., April 19 .- The general meeting of the stake Priesthood and auxiliary organizations was held at Wanship, April 14, and was fairly attended.

Three ward conferences were held Sunday, April 15, in Coalville, Coalville East and Upton. One of the stake presidency, two high councilors and one officer of each stake organization were in attendance at each ward.

MISSIONARIES HONORED.

A dance was given in the Opera House Monday evening, April 16, for the benefit of Mr. and Mrs. C. A. Callis, who leaves on a mission to the Southern States in a day or two. Jackson-ville, Fla., will be their home for the present. Brother and Sister Callis hav presided over the Y. M. and Y. L. M. 1 associations for a number of years, and they leave with the best of wishes of

IMPROVED RAILWAY SERVICE.

Too mhuch praise cannot be said about the splendid service the O. S. L. allway gave the conférence people this time, and many availed themselves of this splendid opportunity in going right through without any waits or trans-ferring. That is the kind of service the people appreciate and causes a good feeling toward the Railway company. Many expressions of commendation are being made every day since the new service has been put on. May it con-tinue is the sentiment of one and all. Under the new railway service many of the people are receiving the "News" every evening deliverd at thir homes about 7 o'clock. This is a great con-venience, and much appreciated. TEACHERS' INSTITUTE.

Teachers' institute will be held at Park City Friday and Saturday. Many of the teachers from teis neighborhood vent up this evening on the Park City express.

The Summit Stake Academy Dra-matic association will play the "Oak arm," Saturday afternoon and evening

Ideal weather now prevails. The farmers are busily engaged in planting their grain. Prof. J. T. Miller was here last week

and gave two lectures in the stake tabernacle.
