DIVORCEES ARE REMARRIED.

William Hadley and Mrs. Orpha Hadley Tire of Single Blessedness Again Unite

THREE SUSPECTED PICKPOCKETS

Taken in by Police—Christopher Burton from Mission—Junction City News Briefs.

SPECIAL CORRESPONDENCE.

Ogden, May 6.—Six weeks of divorced separation has proven sufficient experience for William Hadley and Mrs. Orpha Hadley, and yesterday they appeared at the county clerk's office and secured a license to marry again. The bride is nearly 20 years his junior. On March 21, Judge Howell heard a divorce suit in which these two parties were the principals, the husband alleging adultery, indecency, throwing of dishes, and numerous other acts of cruelty, and the wife was filled with similar charges against her husband. The court, after hearing the evidence, decided that a divorce was necessary, and granted the suit, although they had only been married a little over two years. An endeavor was made before the divorce suit was commenced to effect a reconciliation between Mr. and Mrs. Hadley, but the efforts of their friends were of no avail. They had to air their difficulties in the courts, and be separated by the law before they realized that the follies of the past could be forgotten and forgiven and that life was not worth living if separated. Mrs. Hadley will make their home at West Weber, where they formerly lived.

SUSPECTED PICKPOCKETS ARRESTED.

Reports have been made to the police department during the past few days that a gang of pickpockets and graver robbers were working the trains between Ogden and Salt Lake and in this city. Their workings were done very smoothly and it was difficult for the police to get any trace of those doing the work. A gang of four men and a woman who had been rooming at the Verlin house, corner of Lincoln avenue and Twenty-fourth street, was suspected, and yesterday afternoon Detective Pender and Officer Trott visited the room, where they found one man in the act of packing his valise, but the others had flown the "coop." The one man, who gives his name as W. E. Goodman, was arrested under arrest and taken to the police station and booked on the charge of vagrancy, as the officers had no sufficient evidence to convict him on the other charges. He was wearing green gaiters as disguise. The local officers had telephoned the Salt Lake police to be on the watch for his wife, the train arrived, which they did, and placed under arrest the woman and her pal on the charge of vagrancy. The first members of the gang, it is expected, got out of town during the afternoon, as they have not been seen here since.

HOME FROM MISSION.

Christopher Burton, son of W. W. Burton, has returned from a 27 month mission in California. He has enjoyed his labors very much, and reports the mission work in that state to be progressing very favorably although in most parts of California he states there is an indifference on the part of many people towards religion of any kind, which makes it hard for the missionaries to make progress. Elder Burton is enjoying the best of health. After a few days visit here with his parents he is to start valley where he is interested in the mercantile business.

BRIEFS AND PERSONALS.

Judge Howell disposed of a large quantity of probate and small civil matters yesterday afternoon. Arthur Burton, the Star valley merchant is spending a few days in Ogden with relatives and transacting some business. Miss Clara O'Connell gave a most delightful piano recital last evening at the Sacred Heart academy where she graduated from the conservatory of music of Ogden. Mr. and Mrs. H. E. Warner of St. Paul, Minn., arrived in Ogden yesterday and will visit here the guests of Mr. and Mrs. Warren L. Watte. They are attending college at St. Paul. Mrs. William G. Hiddle has returned from a month's visit with relatives and friends at Logan. A delegation of 19 railway conductors arrived in Ogden yesterday and were the guests of the local O. R. in a drive up Ogden canyon and a picnic at the Oka. The motion of the defendant for a new trial in the case of the defendant J. H. Winslow, Jr., was denied by Judge Howell and defendant will appear for sentence May 11. The regular meeting of the board of education was held last night and consisted almost entirely with business of routine character.

A Good Family Linctent.

Every family should be supplied with a bottle of Chamberlain's Pain Balm. For colic, headache, neuralgia, and similar pains, there is nothing so good. It soothes the inflamed part, but causes no irritation. It is a one-thing remedy for all the usual ailments, and is an antidote for danger from blood-poisoning is avoided by all druggists.

PROVO.

The Daily News is delivered by carrier in Provo early every evening (Sunday) excepted on the same terms as in Salt Lake City. All communications, requests for changes of address and payment of accounts should be made to R. Dugdale, 22 North Street, Provo. Advertisements and orders for church works also received.

A PARTRIDGE CONVICTED.

Sheriff May Go After Wright if Identity is Inconveniently Certain.

Special Correspondence.
Provo, May 6.—Albert Partridge was convicted of felony yesterday in the Fourth district court. Sentence was set for Thursday. Partridge was arrested for the offense about March 20, and on the morning of the 23rd of March Minnie Nielsen, a 34-year-old girl whose home was in Provo, and who had been living here for about a year, and whom he had seduced, died from poison taken with suicidal intent. She explained that she had taken the poison, as she could not bear the disgrace that would follow a trial of Partridge, in which she would be called as a witness. No evidence was introduced for the defense in the trial in the district court. Objections were made by Attorney Whitehead for the defendant, to the admission of the confession of the crime, made by the defendant to Deputy Sheriff Barnett and County Attorney Angus. This confession was the strongest evidence against the defendant. An appeal will be taken to the supreme court on the ground that this evidence was improperly admitted.

In the case of Mary Cartwright et al vs the S. P. L. & S. R. Railway company, a judgment for plaintiff for \$1,500 was entered by stipulation. The suit was brought to obtain damages for the death of Wm. H. Cartwright, who was killed by a train on the defendant company's tracks in American Fork April 25, 1904.

MAY GO AFTER WRIGHT.

Sheriff Harmon has received a telegram from Detective Hyden of Williamson, W. Va., who thinks he has George H. Wright under arrest. Mr. Hyden says: "Wright refuses to have photograph taken at all. Said description by mail." If the description is such as to make it reasonably certain that man arrested is Wright, Sheriff Harmon will go after Wright. From Gov. Cutler, and go after Wright. It is probable he will take ex-Deputy Sheriff J. T. Williams with him to identify the prisoner. Wright rented a cabin from Mr. Williams, near the mouth of Spanish Fork canyon, and was living here at the time the Pelican Point murder was committed, and Mr. Williams helped Wright unload the wagon load of stuff he brought from the Hays ranch at Pelican Point after the murder.

GARDEN CITY NOTES.

Senator Smoot, Mayor Roylance, and Manager Turt of the Provo branch of Z. C. M. L., will go to Los Angeles via the Salt Lake Commercial club, over the Salt Lake Route this evening. A daughter has been born to Mr. and Mrs. Albert Jacobson; all well. Tomorrow Leland Graham will vacate his position as mailing clerk of the Provo postoffice to assume the duties of railway mail clerk, running from Salt Lake to Butte on the Oregon Short Line. John W. McAdams, who has heretofore made this run, will take Mr. Graham's place in the Provo office. Thursday evening a large number of the friends of Mr. and Mrs. O. W. Bailey gave a surprise party in honor of Mr. and Mrs. Bailey's thirteenth wedding anniversary, at their home in the Fifth ward. A very enjoyable social time was spent. Refreshments were served.

LOGAN.

The agent of the Deseret News in Logan is C. B. Robbins, 130 North Main street, whom all payments of accounts should be made to. Daily News is sent monthly. Subscriptions, changes of address, orders for advertisements and church works will be given prompt attention.

CACHE VALLEY L. D. S. HOSPITAL.

Formally Dedicated and Opened—A Praiseworthy Institution.

Special Correspondence.
Logan, Cache Co., May 5.—The Cache Valley L. D. S. hospital was formally opened last night. A large number of citizens, friends of the institution, and most of the members of the Logan choir were present. The meeting was called to order by Bishop Joseph E. Cardon, who gave a brief account of the objects and purposes of the institution and how it had been worked up by him. Dr. Parkinson and some others who desired a hospital where Latter-day Saints could be cared for by their friends. The committee had had obstacles to encounter, but they had overcome them. The company had been organized, the necessary funds raised and the building furnished, and now well equipped and ready for use. Dr. W. B. Parkinson made a few remarks on the necessity for and advantages of having a hospital in our city. He stated that the expense of sending the sick here instead of taking them to Salt Lake, as had been done, the hospital was well equipped with everything necessary for the well being and comfort of all who might require treatment. The rooms were comfortable and airy, and well adapted to the purpose. Fifty patients could be cared for at one time. He said the directors wished it understood that the hospital was free to all physicians to bring their patients there for treatment, and that rates charged patients would be within the reach of all.

Partridge Lorenzo H. Hatched offered the dedicatory prayer and asked the blessings of the Lord upon the physicians and nurses, and all who labored there and upon all who should be brought there for treatment and that the Spirit of God might be and abide within the building. The choir sang several selections during the evening. After the exercises the guests were shown over the building. There is a well equipped operating room, furnished with all modern appliances, about 10 rooms for patients, besides parlors, sitting rooms, kitchen, etc.

etc. The building has two bath rooms, toilet rooms, etc., and is supplied with hot and cold water in most of the rooms. The building is a credit for what they have accomplished; for the institution is certainly a great necessity and blessing to this country. Among the present directors are: Bishop E. R. Owen, Benjamin Bingham, Anna Merrill, Zina Y. Card and Lucy D. Cardon. Dr. W. B. Parkinson is physician in charge, and Hannah J. Bailey is matron.

SMITHFIELD.

FUNERAL OF THOS. SMITH.

Close of a Brilliant Career of Unselfish Usefulness.

Special Correspondence.
Smithfield, Cache Co., May 4.—The funeral of Thomas Smith was held yesterday afternoon in the tabernacle. The speakers were E. R. Miles, Jr., Peter Peterson, Alfred C. Peterson, Daniel Nelson and J. S. Richardson. All of them bore testimony to the integrity of the deceased to the principles of life and devotion to his home and his worth as a citizen in the community in which he lived. The deceased was the son of Thomas Smith and Sarah Ann White. He was born at Newbury, England, April 19, 1826. He became a member of the Church of Jesus Christ of Latter-day Saints Feb. 1848. He labored 11 years as a missionary in his native land. The first two years of his ministry he baptized 160 persons, one of whom was the father of Dr. J. S. Richardson of Salt Lake City. While on his mission he married Sophia White, who died shortly after the birth of their first child. Later he married Emily Peacock and emigrated to Utah in 1861 and settled in Smithfield. He acted as cook to earn his passage across the ocean, and was chaplain of the company while crossing the plains. While living here he has been an active member of the choir, dramatic association and all religious associations of which he was a member. He was successful in a financial way, having accumulated sufficient of this world's goods to enable him to spend the closing years of his life at ease and studying the Scriptures. He died May 1, 1905. He leaves a wife, four sons and eight daughters, 18 grandchildren, four great-grandchildren. Together with great friends to cherish his memory and profit by his good example. E. R. Miles, who has been working in Logan for several months, moved back to Smithfield last week.

GARLAND.

BRASS BAND ORGANIZED.

Handsome Set of Instruments Arrive And Practice Begun.

Special Correspondence.
Garland, Boxelder Co., May 4.—The musical instruments for the Garland brass band arrived from the East Tuesday evening, and they are a handsome set. The members of the organization met after the arrival of the instruments in the hall and appointed a staff of officers to manage the affairs of the band organization for the present year. The following persons were voted upon and sustained by the entire body: Joseph H. Kirkham, musical director; Ira Taylor, manager; Joseph Wing, secretary and treasurer. After discussing and deciding various matters of minor importance, and affecting a permanent organization, the meeting was adjourned until the band practice had, which as a starter was very gratifying indeed. The musical director, Mr. Joseph H. Kirkham, is a musician of high order, who has had years of experience as a director of music, and quite a number of the other members are old musicians, having been previously connected with the Lehi brass band. The boys have gone into this thing with a vim and with a determination to succeed, and it is now only a few weeks short time before Garland will have a brass band of which it may well be proud.

Mr. and Mrs. W. P. Eaton returned the Salt Lake Sunday afternoon from Salt Lake City, where they were married Wednesday, April 26. Owing to the stormy, disagreeable weather, the work of fencing the park Thursday was postponed until the weather is more favorable. Mr. David Hodges of Idaho Falls, Ida., Salt Lake to Butte on the Oregon Short Line. John W. McAdams, who has heretofore made this run, will take Mr. Graham's place in the Provo office. Thursday evening a large number of the friends of Mr. and Mrs. O. W. Bailey gave a surprise party in honor of Mr. and Mrs. Bailey's thirteenth wedding anniversary, at their home in the Fifth ward. A very enjoyable social time was spent. Refreshments were served.

LEHI.

ACTIVITY AT SUGAR FACTORY

Close of Successful School Year—Rival Students in Contests.

Special Correspondence.
Lehi, Utah Co., May 5.—The public schools are holding their closing exercises this week after a very successful school year, covering a period of 33 weeks. Certificates of promotion were given to the graduates of every grade and to morrow the grammar grades will receive their certificates. Commencement exercises will be held in the meeting house Saturday evening in honor of the Eighth grade and High school students, when an excellent program will be given by the students. Principal Child will grant certificates and an address will be addressed by President Geo. H. Brimhall. Those who have completed the work in their respective grades are: Eighth Grade—Inez Jackson, Grace Comer, Florence Dorton, Emma Gaster, Buella Gray, Maud Kirkham, Phoebe Louisa Gray, Alice Knudson, Mary Louise, Annie Loveland, Amelia Joseph, Martha Phillips, Florence McCandless, Mary Powell, Sadie Russell, Hazel May Powell, Sadie Russell, Evelyn Roberts, Edna Jones, John Sherry, Pearl Worthington, Emily Vanlanes, Amy Whipple, Sylvester Evans, Guy Evans, Clyde Fox, Daryl Fowler, Archie D. Gardner, Leo Gaster, John M. Jones, Edward J. Larson, Ole Peterson, Victor W. Mason, Harry Madison, Robert Sharp, Gerald Taylor, R. H. Worthington, Stanley Winn, Jr. M. Davis, Charles W. Wright, Silas Terry, High School, First Year—Basil M. Anderson, Delroy Yates, Mary Gray, Elsie Webb, Edna Dorton, Sylvia Bushman, Lizzie Norton, Max Jackson, Evelyn Kirkham, Abel Phillips.

TEA.

There is no nicer indulgence than tea; and there is no emptier humbug than tea. All turns on the tea.

In every package of Smithfield's Best Tea is a booklet How to Make Good Tea.

down at the sugar factory, preparing to take care of the immense tonnage of beets that will be harvested this fall. The mill is being put in first-class shape, under up fine redwood beams, and will be 64 feet wide and 800 feet long, with a 12x18 flume running through the middle to carry the water from the river to the mill. A great saving to the company and also the farmers in unloading beets. The two sides south of the factory for storing pulp will be 64 feet wide and 800 feet long, with a 12x18 flume running through the middle to carry the water from the river to the mill. A great saving to the company and also the farmers in unloading beets. The two sides south of the factory for storing pulp will be 64 feet wide and 800 feet long, with a 12x18 flume running through the middle to carry the water from the river to the mill. A great saving to the company and also the farmers in unloading beets. The two sides south of the factory for storing pulp will be 64 feet wide and 800 feet long, with a 12x18 flume running through the middle to carry the water from the river to the mill.
