Is Stronger Now Than it Was in 1892. WENT AFTER THE PRESIDENT. Criticised Him for Surrendering to the Trusts-Denounced Rottenness in P. O. Department. Washington, March 29 .- For the want of speakers, general debate on the undry civil appropriation bill in the house today was closed several hours before the time agreed on, and the bill was read for amendment. Seventyfive pages were disposed of, the only important amendment adopted being one providing for an initial appropria. tion of \$500,000 for the completion of

the capitol building according to the original design. Mr. Campbell of Kansas and Mr. Williams of Illinois were the principal speakers today, the former defending the protective tariff policy of the Republican party and the latter denounc-ing the Republicans for failing to in-vergate the postoffice department.

TARIFF REFORM

THE GREAT ISSUE.

Rep. Williams of Illinois Says it

Mr. Williams said that the scandals in that department will be an impor-tant issue in the coming campaign. He arraigned President Roosevelt and Atty-Gen. Knox regarding the trusts. Mr. Campbell said a protective tariff was the only means by which the money necessary for the support of he government could be raised. Many members of the Democratic ride interrupted Mr. Campbell with uestions regarding the upbuilding of

trusts through the operation of the protective tariff policy. He, however, mother of trusts, as repeatedly had

mother of trusts, as repeatedly had been charged by the Democrats. Mr. Williams (Ills.) criticised the Re-publican party for its failure to fuifill its platform promises. The issue of tariff reform, he maintained, was grouper now than in 1892. The president, he said, was too cowardly to even refer to the subject of the tariff in his last message, and the floor leader of the Republicans openly ad-mitted in the house that the Republican party dare not touch the tariff un-

il after the presidential election. Mr. Williams referred to the merger decision, and said that the president and attorney-general had been ex-changing congratulations upon the decision, and the attorney-general had rushed into print to assure the other trusts of the country that they should not be alarmed and were in no dan-ger 'so long as they 'stood pat' on the Republican party." If the Republi-cans were in earnest in prosecuting inust, he said, they should go on with while the court is with you and the people are with you, and if the law is not with you, amend the law before Congress adjourns and every ocrat will remain here to vote for

Man is a millionaire many times over in the possession of blood cells. Woman is not quite so rich, for scientists have proven that the normal number of red blood cells and a half million, to the square millimeter. The normal cell is not absolutely round in health, but, in disease, becomes ex-tremely irregular in shape. Every one can be in perfect health and possess the mil-lions of rich red blood corpuscles if they only know how to go about it. Dr. R. V. Pierce, consulting physician to the Inva-lids' Hotel and Surgical Institute, at Buf-falo, N. Y., advises every man and woman to prepare for a long life by observing na-ture's laws. In the first place, if your or at is not taken up by the blood and assim-ilated properly, you need a tonic and diges-tive corrector, something that will increase the red blood corpuscles; he believes in going about this in nature's own way. Years ago, in his active practice, he found that an alterative extract of certain herbs hold roots, put up without the use of alco-hol, would put the liver, lungs and heart into fuller and more complete action. This medicine he called Dr. Pierce's Golden Mod caten, it nourishes the blood, and, in-tead of the ill-shaped corpuscles, the per-blood corpuscles are more nearly round, Nervousness is only the cry of the starved the corpuscles are more nearly round. Nervousness is only the cry of the starved nerves for food, and when the nerves are fed on rich red blood the person loses those irritable feelings, sleeps well at night and feels refreshed in the morning.
