

# GOODBYE TAKES DUBOIS TO TASK.

Republican Candidate for Governor  
Answers His Challenge in Plain Terms

## SPEAKS OF CHURCH INFLUENCE.

Shows Where Dubois Stood on the Mormon Question a Year Ago—Statement of Facts.

A special to the Boise Statesman from Council Bluffs, Iowa, Oct. 3, says: "Hon. Frank R. Gooding, the Republican candidate for governor, opened the campaign for his party in Kootenai county last evening in the opera house. The house was packed to the doors, over 800 being present. After discussing national issues and after paying a glowing tribute to the resources of Idaho, Mr. Gooding took up the Dubois-Mormon question. He stated that when he stepped on the stage he had been handed a list of questions that Senator Dubois wanted him to answer so that he might know the speaker's position on the 'Mormon' question. Mr. Gooding said he would try to make his position and that of the Republican party very plain. Continuing, he said: 'I understand that Senator Dubois stated from this platform a few days ago that there was no law on our statute books against bigamy, polygamy or unlawful cohabitation.' 'The speaker then read sections of the Idaho statutes defining the crimes of bigamy and illegal cohabitation and prescribing punishment for such offenses. He asked: 'Will you take Senator Dubois' word for it or the statutes of our own state?' 'WHAT DUBOIS SAID LAST YEAR.

The speaker stated that if the laws now on the statute books were enforced, he said he desired to call attention to the position taken by Senator Dubois in the discussion relative to the admission of Arizona and New Mexico to statehood last year. He quoted the senator's words at that time (Feb. 5, 1903, in the United States senate) as follows: 'I live among those people and so far, as I know in Idaho there has not been a polygamous marriage celebrated since that manifesto was issued, and I have yet to find a man in Idaho or anywhere else who will say that a polygamous marriage has been celebrated anywhere since the issuance of that manifesto.' 'Then Senator Hale said: 'Then it must follow as the years go by and as the older people disappear, polygamy as practiced will be practically removed.' 'Dubois replied: 'There is no question about it.'

DUBOIS CALLED UPON TO ACT. Continuing, Mr. Gooding said: 'I wish to say, ladies and gentlemen, that there is no one in Idaho more anxious to protect the morals and fair fame of this state than myself. As I have said to you, there are among us on our statute books for punishment of all crimes connected with sex relationship except adultery. If elected governor I shall try to see that such a law is placed on the statute book.

The Republican party takes the claim that Dubois did over a year ago that no polygamy exists in Idaho, and that no new marriages have been contracted. 'If polygamous marriages have been contracted, as Dubois claims, it is his duty to file information against the offenders and have them punished for bigamy. Mormons may not be all angels. Some of them may and have undoubtedly committed crimes, but how often do we hear of some good man or woman going wrong in our own community? I do not think our church should be held responsible for the acts of individual members more than other churches do.'

QUESTION OF CHURCH INFLUENCE. 'Now we will talk about Church influence. In regard to any influence in Idaho, there must be results or it doesn't count. There is something to show for it. The question is whether you are going to take Dubois' statements or the official vote of the state. I have here a list of the percentage of each county in Idaho for the Republican party in each county in Idaho at the election two years ago over the vote of four years ago.'

Mr. Gooding then made a comparison of gains in 'Mormon' counties as compared with those in Gentile counties, showing that the gains where the Mormons make up a large percentage of the population were less than those in Gentile counties. He said: 'What is the matter with Kootenai county which made a greater gain two years ago than any Mormon county? Was this caused by Mormon influence?'

Figures were submitted that show a gain in Kootenai county in the Republican vote of 20 per cent, while in one of Idaho's strongest 'Mormon' coun-

ties, 20 or 25 per cent of the people there being 'Mormons,' the party only gained 15 per cent.

DUBOIS AS A PARTY DISTURBER. 'One-half the Democratic papers in southern Idaho are not supporting Mr. Dubois in his issue. The principal Democratic paper of the north is not supporting him. Could name hundreds of good loyal Democrats all over the state who are not supporting him, to some of whom Idaho owes much. 'Dubois is only a politician in the sense that he has no other occupation. He came to Idaho holding a federal position and has held office ever since. He is now seeking to disrupt the Democratic and Republican parties and form a new party on the Mormon question in the hope of being returned to the United States senate.'

Mr. Gooding's statements on the 'Mormon' question were received with loud and continued applause. After the meeting a large number of those who had heard him said that his statements in regard to the 'Mormon' issue constituted a complete refutation of all Dubois' claims.

## DR. BOWER HOME.

Salt Lake Physician Returns From a Trip to Europe.

Dr. A. S. Bower has returned from his three months' European trip. He visited all the scenes of special interest to the tourist, and says that what impressed him most was the cleanliness of European cities, and the economical administration of public affairs. Berlin is a model of cleanliness, and even Milan is fairly clean. No rubbish is permitted in public thoroughfares, and even in the country districts perfect order is evident. Farm work is more thorough than in this country. Vast tracts of land are given over to agriculture, some having been planted 500 or 600 years ago. Public school teachers in Germany are well paid, many receiving as high as \$3,000 a year, and are pensioned when old or disabled. School discipline is strict. Dr. Bower's wife and two sons accompanied him abroad, and are remaining in Bower's where the boys are attending school. Mrs. Bower will remain through the winter, and then return to Salt Lake.

## SOME SEASONABLE ADVICE.

It may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before winter is over, and much more prompt and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy at hand. This remedy is so widely known and so altogether good that no one should hesitate about buying it in preference to any other. It is for sale by all druggists.

## INSPECTED HOSPITAL.

First Presidency Paid a Visit to New L. D. S. Institution.

President Joseph F. Smith, President Anton H. Lund and President John R. Winder of the First Presidency, accompanied by Bishops Robert T. Burton, O. P. Miller and O. F. Whitney, yesterday paid a visit of inspection to the new Grove's Latter-day Saints' Hospital on C street between Eighth and Ninth streets.

The party went through all the rooms of the new hospital, and examined carefully the furnishings being moved in, as well as the construction work. At the conclusion of the inspection President Smith said: 'I am very pleased with the work so far as it has gone. The equipment seems as complete as could be desired. Not long ago a gentleman who visited Salt Lake on his way around the world—Dr. Mayo, by private charge of the largest private hospital in the United States, located at Rochester, N. Y., said, after looking over the hospital, that in its equipment and conveniences, it surpassed anything he had ever seen.'

The work of grading the grounds is now in progress, while the tiling and linoleum carpets are being laid on the second, third and fourth floors, which are to be opened upon the return of Dr. Richards, the head of the medical staff, from the east.

**BOWERS RE-ARRESTED.**  
Man Wanted in Iowa is Once More Behind the Bars.

Released under a writ of habeas corpus and re-arrested before he got outside of the city and county building, is the experience of William Bowers, who is wanted in Iowa for burglary. Bowers and a companion hired some negroes to rob chicken coops at Mt. Pleasant, Ia., and they shipped the spoils out as fast as they were supplied. When arraigned for the crime he pleaded guilty, and was released on his own recognizance, awaiting time for sentence. During this time he left Iowa and came to this city, where he was arrested and held for the Iowa authorities. Habeas corpus proceedings were instituted in his behalf by Attorney James F. Smith. Judge Lewis yesterday afternoon decided that there had been no citation issued for Bowers to appear before the court for sentence, and no bench warrant had been issued for him, hence he was not a fugitive from justice. He was accordingly discharged. Chief of Police Lynch had tried to law yesterday whether or not a bench warrant had been issued, and the reply came just a few minutes after Bowers' release. Chief Lynch and Sheriff Campbell of Mt. Pleasant, Ia., met Bowers at the north entrance of the city and county building just as he was leaving, and placed him under arrest. Bowers protested against his arrest, but to no avail. He was landed in the city jail and it is thought that the officials will have no trouble in holding him this time and returning him to Iowa.

## PROMINENT MEN WILL BE PRESENT.

Great Session of Transmississippi Commercial Congress the Last Week in October.

## PREST. ROOSEVELT IS INVITED.

Speakers Will Include President Diaz, John Hays Hammond and Prof. F. H. Newell.

The Fifteenth session of the Transmississippi Commercial congress will meet at St. Louis, October 25 to 29, inclusive, the congress to convene in Convention hall, on the world's fair ground, Tuesday at 10 a. m.

This organization has been a great factor in the commercial advancement of the western states and territories, being a systematic movement to influence national legislation, wherever legislation was required in the deepening and improvement of harbors, the equalization of transportation rates of interstate commerce, the reclamation of the semiarid regions and the construction of public works, the encouragement of reciprocity in the commercial relations between this country and Canada, Mexico, the Central and South American republics; the construction of the isthmian canal, improved navigation, the improvement of the Pacific cable, improved consular service, fostering of maritime trade, in fact every plan for the betterment of commercial conditions in the Transmississippi region received at its hands cordial endorsement and effective legislative aid. Among its many achievements for the past 15 years may be mentioned the passage of the irrigation act, the creating of a department of commerce, deep water for Galveston, Houston, New Orleans and improved harbor facilities for other large cities in the Mississippi valley, the construction of irrigation reservoirs and canals, more equitable transportation rates on railroads, and numerous other enterprises have been fostered in various parts of the western country, where the reputation of the congress stands high for its unselfish devotion to public interest. It is for this reason that annual sessions of the congress are always well attended, and that its delegations comprise the very best and most influential men from the Transmississippi country.

## PROMINENT SPEAKERS.

The coming session at St. Louis will be no exception to this. The indications are that there will be upwards of 2,000 delegates in attendance. The congress will present a program in which the whole country will take deep interest, as much because of the topics to be discussed as from the high character of the speakers who will participate in the program. Among those who are expected to be present is President Diaz of Mexico, who will make his first tour of the United States in the interest of a closer commercial union between the two republics. President Roosevelt has been invited and may attend, and in the event of his being present, James R. Garfield, of the department of commerce, will be present as the personal representative of John Hays Hammond, the eminent mining engineer, has been invited to address the congress upon the necessity of governmental supervision of the mining industry and the creation of a department of mines and mining with its head a member of the cabinet. Among other speakers may be mentioned Charles Jerome Bonaparte, president of the national municipal reform association. Mr. F. H. Newell, chief of the reclamation service of the department of the interior, will be present. Mr. Clifford Pinchot, chief of the bureau of forestry and the most distinguished expert in forestry in America, and although a rich man devoting his entire time to this pursuit, Mr. W. E. Curtis, dean of the Washington correspondence will discuss 'Irrigation in India.'

## "THE AMERICAN BOY."

Hon. Charles Arthur Carlisle will deliver a paper under the title of 'The American Boy' or the process by which the American boy may be transplanted from the city to the farm. The Lewis and Clark centennial exposition and oriental fair management will send the very best speaker obtainable to discuss expositions and their influence upon the country's advancement. Hon. F. J. Hagenbach, president of the American Live Stock association.

## FEEDING A DOCTOR.

His Body Changed By Change in Food.

A convincing bit of testimony to show what a simple change of food can sometimes do to end apparently incurable disease is told in the following article by a Chicago physician.

'The case is this: I had been suffering for more than 25 years with nervous dyspepsia, insomnia, occasional kidney trouble, and general disturbance of my whole system. My appetite was affected and so I lost weight and strength, but the worst of all was the gradual failure of my memory, proving that my brain and nerves were not getting the proper food any more than the rest of my body.

'Three times I made the journey to Carlsbad, and spent a fortune consulting famous physicians and specialists in this country and Europe but never got any permanent results. All the medicines known to science failed to give me even temporary relief in spite of the fact that I was always exceedingly careful in my diet. I was on the verge of despair and never looked forward to being well again.

'One day about two years ago I was staying at a hotel in Minneapolis accompanied by a famous European physician, Dr. Warner, of Berlin, and there we noticed a new food on the menu called Grape-Nuts. Having a little desire to eat I ordered some just to see what it looked like and then was persuaded to try it.

'What I experienced was not short of wonderful. 'Not only did the new food taste so good I relished it, but for the first time in many years I felt entirely free from the terrible pressure on the stomach which I had always suffered even after the most careful diet. In my return to Chicago my very first act was to order Grape-Nuts sent to my home where the whole family relish it so they use it daily with out any urging, and we expect to do so as long as we live.

'As a result of this change of food to Grape-Nuts the awful disease which I suffered with for more than 25 years disappeared entirely in about three weeks. I have regained my health, strength and vigor and about 22 pounds in weight. All of this is due only to the thoroughly nourishing and completely digestible character of this food—Grape-Nuts.'
