

LOCAL AND OTHER MATTERS.

Correspondents writing for publication are requested to write on one side of the paper only. No notes can be taken of anonymous communications. Correspondents' names must in every instance accompany their communications, notwithstanding the publication, but not as a guarantee of reliability.

THEATRICAL.—Notwithstanding the very unfavorable character of the weather yesterday and last evening, there was a large audience present at great Madame Scheller on her first appearance. Fame has not done the lady more than justice. She is a most natural actress, whose art so consummately simulates nature that it seems perfectly artless, judging from her impersonation of the "Pearl of Savoy" last night. She has a good figure, a pleasant face, and a voice bubbling over with sweetness and music when she speaks. As a lyrist she possesses abilities of a very high order; and her vocal powers combine sweetness and strength, polished by artistic training. She was applauded "to the echo" many a time and oft, last night, yet she obtained a tribute to her success even more gratifying to the true artist—an audience strung to the highest tension during her scenes. It would be a genuine pleasure to criticise her Marie, and to point out its beauties, had we space. She was well supported by the company, and the piece was put on the stage in excellent style.

To-morrow night she appears in a character entirely different to the pure, simple minded Savoyard Girl. "Mathilde" is a drama of powerful construction; and although the plot is simple, the incidents in the play serve the author to work up the most intensely exciting situations. "Mathilde" is a refined lady, of the world, the daughter of wealth and culture, and the character gives great scope for acting. It is well cast. The farce of "Love in Liveray" will follow and make mirth for the evening.

CENTRAL PACIFIC RAILROAD.—We learn from the S. F. Times that forty-five miles of track of the Central Pacific Railroad are in operation east of the Sierra Nevada; but there is still a gap on the summit to be filled up, and it is not expected that cars will be run through from Sacramento to Reno, Nevada, before the 10th or 15th of June. Reno is in the Truckee Meadows, and distant from Virginia City but fifteen or twenty miles in a direct line. From Reno eastward, when connection is made, the work of constructing the road will go ahead with "unexampled rapidity." The new track layer will be employed, as it is said to be working successfully on the Vallecito road; and as the amount of grading to be done is comparatively insignificant, "we are quite prepared," says the *Times*, to believe the assertion that the iron will be put down with a speed unexampled in the history of railroading."

PROSPECTS AT MANTI.—By letter from M. D. Hamblton, Esq., of Manti, under date of the 17th instant, we learn that the Indians are beginning to make their appearance in the foot hills there, in myriads; but, up to the time of writing, there were only a few on the farming land. The crop never looked better at the season of the year than they did at the above date. They were having rains almost every day, and a great quantity of wheat and oats were being put in and would be put in for two weeks more.

UNION PACIFIC RAILROAD.—A new special freight tariff has been established on the Union Pacific Railroad from Omaha to all points between Omaha and the Rocky Mountains. A copy of the new rates has been placed in the hands of the editor of the *Omaha Herald*. They went into effect on Monday, May 11th. They are a reduction from former rates of twenty-five per cent on all classes of merchandise, *The Herald* says:

"Whereas under the old rates all First Class merchandise to Cheyenne was \$1.00; Second Class, \$1.20; Third Class, \$1.50, we find on the New Special Tariff, on the First, \$0.80; on the Second, \$1.15, and on the Third, \$1.30."

The *Herald* thinks the change thus announced indicates the purpose of the Union Pacific management to furnish neither occasion nor excuse for complaint against the terms on which they are hereafter to do the carrying trade of the West, *etc.*

TEMPERANCE AND LATTER-DAY SAINTS.—They have had a Temperance meeting in San Francisco, which was well attended. It was held on the evening of the 11th instant, the speaker being E. Z. C. Judson, better known as "Ned Bustline." Dr. Gibbons, in introducing the subject of the evening, said: "He hoped the large crowd of temperance men Bustline would fight down the rum-sellers, and those doing the work of Satan himself." After speaking about the Methodists and Quakers, he said "the Latter-day Saints had nothing to say about." The inference to be drawn in sight of the rummuses "surely" might be understood, but the Latter-day Saints would not be. A very correct idea of preaching temperance, virtue and every other good thing, however much it may injure some churches, can not but do good to the Latter-day Saints and facilitate their labors.

ARIZONA DELEGATE.—A delegate to the Forty-first Congress of the United States is to be elected in Arizona on the 3rd of June next. The *Miner* says "there are four political parties in Arizona—the Democratic, the Republican, His Excellency the Governor, Richard C. McCormick, and Samuel Adams." The Miner has the name of John A. Bush at the head of its columns as Democratic nominee for Delegate.

INDIAN AFFAIRS.—The Cheyenne Leader of the 13th inst. has some interesting items about Indian matters. It states that at Fort Laramie, a treaty had been concluded by Generals Sherman, Augur, Terry and Tappan, with the Crow, Sioux, Northern Cheyenne and Arapahoe, all agreeing to settle upon reservations. Generals Harney and Sanborn remain at Laramie to meet a man-afraid-of-his-horses. A large band was expected at Laramie on the 13th. Arrangements were being made at that place for the removal of a large party to their reservations on the Missouri river. A party of about 100 Sioux—the same that lately committed the depredations on the Railroad, are still on the war path.

Red Cloud states that as soon as the troops leave he will come in, meet the commissioners and make peace. Gen. Augur will meet the Snakes at Bridger. Gens. Sherman and Tappan go to North Mexico to meet the Navajos. As the Indians arrive from Larimer & Forts Hinsdale and Sully they will be located on reservations by Gen. Terry, who has gone there for that purpose. No more trouble is apprehended from the Minnemahs, Joes and Badgers, who have been committing depredations on the roads. The *Miner* says the Indians will not be disturbed but the soldiers will be sent to the mountains.

GUYOT'S
GEOGRAPHICAL
TEXT-BOOKS.

A large number of school books
in English for young children
Upwards of 250,000 copies already sold!

The Standard Geographical
Text-Books of America!

TEACHERS

Desiring to examine these Text-Books, can procure them from the Publishers, through the un-designed, at the following Reduced Prices:

Guyot's Introduction to the Study of Geography. \$1.20

Guyot's Elementary Geography for Primary Classes. \$0.85

Guyot's Intermediate Geography. \$1.75

Guyot's Common-School Geography. \$2.25

FELTER'S SERIES OF
ARITHMETICAL TEXT-BOOKS.

FOR TEACHERS:

FELTER'S MANUAL OF ARITHMETIC.

COMPOSITION, RHETORIC AND LOGIC.

VALUABLE TEXT-BOOKS,

By Prof. HENRY R. DAY, of New Haven, Conn.

The Art of English Composition. One vol. 12mo. Price. \$1.50

The Art of Discourse. One vol. 12mo. Price.

Elements of Logic. One vol. Price. \$1.50

TENNEY'S

TEXT-BOOKS ON NATURAL HISTORY.

The most Superbly Illustrated Books on the subject ever Published.

TENNEY'S GENERAL NATURAL HISTORY. Price. \$1.50

Tenney's Manual of Zoology. Library Edition. Price. \$1.50

Tenney's Natural History of Animals, for Beginners. \$1.00

Tenney's Natural History Tables, for Schools. Plain, \$1.00; Colored. \$1.50

Over 500 Accurate Engravings

Are contained in each of these volumes. They are just the books for the School-room, and for general reading; for the Farmer who wishes to learn about grain and herbage; for every boy who wants to learn about the birds and quadrupeds of North America, and for family reading.

TO SETTLE DISPUTES

PROF. E. A. SHELDON'S

Standard Works on Object-Teaching.

Manual of Elementary Education; containing a Graduated Course of Object Lessons for Training the Senses and Developing the Faculties of Childhood. One vol. 12mo. Price. \$1.50

Phonic Reading-Charts. Eighteen in a Set. Mounted on Roller. \$1.50
