Ogden, Jan. 2.—A stabbing affray between two boys named John Peterson and Willie Brooks aged 14 years, was the principal occurrence to mar the peace of Ogden yesterday. The boys were playmates, and yesterday afternoon were enjoying New Year's together. They had been playing around for some time in the snow, and then engaged in a friendly snow ball game, but they soon began to throw the snow balls faster and harder at each other, until they began to quarrel and exchange blows, the Peterson boy, who was larger than the Brooks boy, seemed to be getting the better of the fight, when to the astonishment of the other boys, Brooks pulled his pocket knife and stabbed Peterson in the hip, cutting a deep wound, from which the blood flowed freely. The boys went home and reported the unfortunate occurrence to their parents, who in turn notified the police and juvenile officer H. C. Jacobs was detailed to investigate the case. Peterson is suffering considerably from the wound.

REPORT ON WATERWORKS.

Council Receives Reports of Various Committees and Winds up Affairs.

Special Correspondence.
Provo, Jan. 2.—The city council met Saturday afternoon to complete unfinished business.

The following reports of committees were adopted:

By the committee on license, recommending that the license fee on dance halls be reduced to \$25 a year, and that a license fee be not charged for dances given by religious and educational institutions.

By the committee on right of way for the waterworks pipe line in Provo canyon on the disbursement of \$50 for procuring rights of way from various parties.

By the committee on license recommending the drafting of an ordinance providing for the appointment of an electrical inspector, and requiring persons doing electric wiring to take out a license.

By the committee on license reporting that it had been unable to devise any satisfactory way of dealing with the question of licensing the saloons at the Provo lake resort, and leaving the question to be settled by the incoming council.

By the committee appointed to confer with Manager Nunn of the Telluride Power company on the matter of an agreement to be entered into by the city and the Telluride company in the event of the city purchasing the distribution system of the electric company.

The committee reported its inability to see Mr. Nunn, and that, from information obtained from the attorney of the Telluride company, it did not believe an agreement, such as the city desired, could be obtained. The report recommended that the matter be left to the incoming council.

As the option to purchase the electric company's distribution system expires Jan. 1, the whole matter of such purchase, the enactment of an ordinance for the issue of bonds for a municipal lighting system and waterworks, and the establishment of a municipal lighting plant, will have to be acted upon by the next administration.

WATERWORKS COMMITTEE REPORT.

The committee on waterworks reported to the council the present condition of the waterworks extension as follows:

All of the vitrified pipe that the plans call for has been laid, which brings the pipe line to a point just below Spring-Jelly, same being completed and ready to receive the water. At this point there is to be a weir house built, and we have the iron casting parts of the weir house on hand. From this point the plans call for wooden stave pipe to a point on the Bench, just opposite the present intake, where we expect temporarily to put the spring water into the present basin, and run it through the present intake.

But in order to complete the plans as laid out at this time the line should be run to a point about a mile north of the State Mental hospital, using the vitrified pipe, and then be spilled into a cement basin and then put under pressure from the basin to our present city mains, which will require iron or some other strong pipe to stand the pressure.

It will be necessary to do this in order to be able to use the amount of water we have collected, the present system being too small to take the water.

These are the plans as laid out by our consulting engineer, E. C. Kelsey, and approved by the council.

It will be necessary for an air valve or air pipe to be placed at a point just east of the railroad track on the Spring Dell river crossing, to remove the air from the pipe adjoining the river, and we also consider it necessary to have heavy wire screens placed over the opening of the weir house,

able to fill the place with the same degree of ability as had been shown by his predecessor.

INVITED TO BANQUET.

At this juncture Max Davidson, one of the retiring members of the council, invited the members-elect to meet at the Reed hotel cafe at 1:30, there to partake of a banquet arranged in their honor. The invitation was accepted, after which the council adjourned till Monday next at 3 p. m.

where the water comes out, to prevent a possibility of any one getting into the weir house through this opening.

The South Guard Quarters water has not been put into the pipe yet, and the city may not need it for some years; however, we think it would be a good thing for the city to collect this in a pipe and put it into the main line to save any difficulty that might arise in the future as to the ownership of same.

The waterworks extension has cost the city up to this date \$34,236.38, of this amount \$3,800 has been expended on the dugways in the canyon. Provo City has an agreement with Utah county, whereby Utah county will pay 50 percent of the expense of the excavating and back filling of the trench in which will be put our wooden stave pipe on these dugways.

Respectfully submitted,
C. F. DECKER,
NIELS JOHNSON,
MORRIS SNOW.

Extraordinary Keeper Loveless reported 114 head of sheep impounded during the year, and the sum of \$152.25 collected.

BEET GROWERS FAVOR ORGANIZATION.

The beet growers of the Provo district met Saturday in an adjourned meeting. Chairman Holdaway reported that the petition to the Utah Sugar company for an advance in the price of beets, which had been circulated by the committee had been generally signed by beet growers. The committee was instructed to forward the petition to the Sugar company as soon as possible.

J. W. Bates and Francis Peay spoke in favor of a farmer's organization, for the purpose of bringing about better methods of production and obtaining better prices for their products. Joel A. Johnson stated that a meeting would be held in the Timpanogos ward house Saturday for the purpose of effecting an organization, and another meeting would be held in the court house on the 14th for a similar purpose to which he invited.

Andrew N. Holdaway, P. H. Bullock, F. C. Johnson, Herman Knudsen and others spoke in favor of organization. Mr. Johnson read a letter from Secretary Miller of the Bear River Valley Farmers' Protective association, who had read an account of the Provo beet growers' formation.

In which a state organization of beet growers was advocated.

Andrew N. Holdaway moved that a branch of the American Society of Equity be organized and explained its operations, which was to regulate prices. Mr. Holdaway explained that he was not particular as to the organizing under the American Society of Equity, but made the motion to get the matter before the meeting. If the farmers decided to organize as an independent society, that was acceptable to him. The motion was discussed by Walter Scott and others, and it was finally decided to defer action till Jan. 15, when a larger number of farmers are expected to be in attendance. It was decided not to enter into contracts with the Utah Sugar company till the company has acted on the petition of the beet growers for an advance in the price of beets.

Millionaire's Poor Stomach.
The worn-out stomach, of the over-fed millionaire is often paraded in the public prints as a horrible example of the evils attendant on the possession of great wealth. But millionaires are not the only ones who are afflicted with bad stomachs. This proportion is far greater among the toilers. Dyspepsia and indigestion are rampant among these people, and they suffer far worse tortures than the millionaire unless they avail themselves of a standard medicine like Green's August Flower, which has been a favorite household remedy for all stomach troubles for over thirty-five years. August Flower cures the torpid liver, thus creating appetite and insuring perfect digestion. It tones and vitalizes the entire system and makes life worth living, no matter what your station. Trial bottles, 25c; regular size, 50c. At all druggists.
