

PARENT SCHOOL.

THE Parent School commenced on Monday Nov. 11th, at Mrs. Packs' house, 17th ward, under the direction and supervision of Professor Orson Spencer. The board of regents, have employed Dr. Collins, A. M., for the present, who will instruct in all branches taught in high schools. The prospect is favorable for a rapid advancement in the sciences.

Terms, for one quarter, \$8, half in advance.

Samuel W. Richards, has been appointed committee to make preparation and give any information necessary regarding this department.

W. Woodruff has a large and well selected assortment of school books; the different wards would do well to procure a supply that their children may be rapidly advanced in the various branches which will be taught the present winter

GIVE ATTENTION IN TIME
TO SAVE COST.

BY an unanimous vote of the people assembled at the Bowery, it was decided that the Red Butte Canyon should be given to Knowlton & Co., in consideration of their engaging in the business of lime burning, and furnishing lime for the public.

Now it may be possible that some people are not acquainted with these facts, and that may be the reason why they insist upon trespassing upon our rights.—We have therefore thought proper to give this public notice to all, that we expect to abide by the requirements made of us, and we also expect that others will do the same. This being the case, it will not be expected that we will be run over with impunity any longer.
