A Conflict Between Deputy Sheriffs
and an Armed Mob.

RESULT OF A VOLLEY OF SHOTS.

State Troops Ordered in the Scene of
Disturbance.—More Trouble
Expected.

LEWISTON, Wyo., June 9.—Deputy sheriffs, with Winchester rifles and an armed mob of strikers met at Lewistown today and the first week of the strike in the quarries and the discharge canal along with copious shedding of blood. The conflict came this afternoon and as the result of a volley of shots one man was killed outright, two have since died, two others are reported to have fallen into the canal after receiving mortal wounds, and fourteen others were wounded, three fatally.

Early this morning the men began to gather in the streets to discuss the situation. As the morning wore on the crowd increased. At 10 o'clock they turned a procession and began to march. About half a mile out of town near Smith & Jackson's camp the men took the canal along the canal, and marched by two. Along this route they were met by a line of men from the sheriff's office. The men from the sheriff's office fired first, but there is no question that the strikers were badly wounded. When these were killed or wounded to flight they were in the wildest confusion. As they ran to rescue themselves behind trees and in thickets, they carried away of their wounded with them, but others were left behind. One of the leaders among the strikers was left lying where he fell with a bullet hole in his temple. It is said by some that he was not a striker, but a section head on the Idaho railway who was killed by a stray bullet. He has not yet been identified.

The feeling in Lewistown tonight was that the day's work was a dead blow to the strike. The strikers expected more trouble. The strikers do not talk of revenge. They say that they were armed, though the camp men say the strikers fired first. Their strikers were arrested by deputy sheriff and sent to jail.

State Troops Ordered Out.

SHERBOURNE, Ill., June 9.—Governor Altgeld, having been advised by the sheriff of Cook and Will counties as to the situation at Lewistown and the possibility of securing a sufficient posse of deputies, at midnight ordered out the first and second regiments of state troops. They began to assemble shortly after, and as soon as possible will proceed to the scene of the disturbance.

CHICAGO, June 9.—At a late hour tonight the officers of the second regiment are hurrying around gathering up men for an early start on their way to Lewistown. The regiment mustered nearly 1,200 men. The latest advice states that two strikers were killed, twenty wounded and thirty taken prisoner.
