

## POWER PLANT AT WILLARD

M. S. and J. M. Browning Secure  
Site for Electrical Enterprise  
In Boxelder County.

Ogden, March 7.—The waters of Willard canyon, about 15 miles north of Ogden, which are considered valuable for power purposes, have been purchased by M. S. Browning and J. M. Browning. What was paid for the water rights has not been made public. These gentlemen contemplate the expenditure of about \$50,000 in bringing all the waters into one stream and the erecting of a power plant on the property to be equipped with the most modern machinery for the generating of electricity, which will be transmitted to Ogden City for lighting and power purposes. Those interested in the scheme are assured of patronage, as many of the citizens feel that the sales being charged by the present lighting system are excessive, and competition is sure to bring them down. The people of Ogden will therefore welcome the project and give it their support. Whether or not the Brownings have acquired the site in the canyon purchased for \$5,000 by Ogden City, is not given out.

### CONTAGION INCREASING.

On Feb. 14 there were 10 cases; Feb. 23, 29; March 6, 338. Of this number there are 22 cases of scarlet fever and a number of cases of diphtheria. The majority of cases are measles. The sanitary department is very busy at this time, and is fumigating, having two extra men at work. There have been but few deaths from contagious diseases. In some cases the families are not as careful as they should be and the quarantine regulations are not lived up to as the law requires.

### SCHOOL FIRE DRILL.

Supt. Allison reported having made tests of the fire drill in all the schools of the city, and found the pupils able to clear any building in less than three minutes even with 500 or 600 pupils. Also that the doors on all the school buildings open to the outside and are never locked during school hours. Three new teachers were employed and the salaries of several others increased.

### INDUSTRIAL SCHOOL.

State Institution Has Room for Nevada Incorrigibles—Girls' Ward.

The State industrial school board held its regular monthly meeting, disposing of considerable business. It was decided that as the state of Nevada has no industrial school, and as more inmates can be taken care of at the Ogden school than are now confined there, to submit to Governor Sparks a proposition to care for the Nevada incorrigibles at a reasonable cost to the state, and by thus doing the expenses of the local school can be lessened on Utah.

Emma Knight, Mary McClain, Joseph Boone, Thomas Corbett and Laxative Hattman were paroled on merits; Joseph Perkins and John Powell were ordered transferred to the Canyon Creek ranch in Davis county.

Supt. Thomas was given a month's leave of absence to go east and visit similar institutions and secure data for the erection of a separate school for girls.

The enrollment at the institution includes 102 boys and 19 girls. The board ordered a weekly fire drill held.

Resolutions of respect to the late President N. C. Flygare were adopted and spread upon the minutes, and a copy ordered sent to the family.

### WILL BE BURIED IN OGDEN.

The testimony showed that the girl was passenger on a train last September and was alighting from the train at Bountiful, Davis county, when it gave a sudden jerk, slamming

the car down on her fingers, terribly crushing the same. The jury was only out a short time.

### CHATHAM DIVORCE SUIT.

Divorce suit has been filed in the Second district court by Mrs. Meriah Chatham against Thomas C. Chatham. They were married at Ogden City in 1897, and have three minor children. The wife charges the husband with having an ungovernable temper, of having been cruel to her, and has been in the habit of cursing her, sometimes before their children. Plaintiff alleges that defendant has a home and considerable money in the bank, which property the court restrained him from disposing of during the pendency of this suit. A decree of divorce, custody of the three children, and a portion of the money and other property is prayed for. N. J. Harris represents plaintiff.

UTAH MAN WINS HONORS AT PENN.

Dale Howard Parke, '09 L., Captain of Pennsylvania Debate Team vs Columbia 1907.

### Special Correspondence.

Philadelphia, Pa., March 2.—Dale Howard Parke, who graduated from the University of Utah in 1906, has made a remarkable record since entering the University of Pennsylvania law school. Last year he was captain of the debating team which defeated Columbia and again, just the other night, he led the Penn debaters on to victory, against Cornell. And it is not easy to make a team here, let alone champion one, for nearly 50 men compete in the preliminaries. This keen competition has increased Penn's efficiency to such a degree that the victory against Cornell was the eleventh successive triumph. On Jan. 16 Parke won the Frazier debate prize and the individual debate championship of the university, one of the greatest honors a man can win in college. Last year he stood among the five highest in his class, and was accordingly ranked as an honor man. He is a member of the board of editors of the "American Law Register," a member of the James Wilson Law club, and of the Delta Sigma Ithi, an honorary fraternity, and belongs to the Delta Chi secret fraternity.
