The cattle weighed out about 1,000 pounds each, and the men and the horses were entirely willing to go with most of the Utah cattle this year. They have had too much rain and the grass is rank, so that the cattle are not in the best condition, but we are not. The season is looking unusually fair for this reason of the year and the output from their

sheep of the country will be fully as great as that of last year and very little need be expected.
