AMERICAN.

THE PRESIDENT'S CONDITION

No Improvement—Blaine to Lowell.

LONG BRANCH, 7.—The President has not gained in the last 24 hours. His fever has increased considerably during the afternoon, temperature reaching 101. He takes food without nausea, but without an appetite, and has not improved in strength. The day is said to be as hot as was ever known at Long Branch. Cooler weather is reported from the west, and with cooler temperature the relief of the President is looked for tomorrow.

Pulse a Little Lower.

ELBERON, N. J., 7, 6 p.m.—Notwithstanding the exceptional heat of the weather, the thermometer in his bedroom rose to 94° at 3.30 this afternoon. There was a breeze most of the day, so the President was comparatively comfortable. He has taken his nourishment regularly, and has slept at intervals during the day. At 12.15 p.m. his pulse was 114, temperature 98.4, respiration 18. Since then there has been some rise of temperature, though less than yesterday, and the pulse has somewhat diminished in frequency. At the evening dressing the appearance of the wound was favorable. At present his pulse is 108, temperature 101; respiration 18.

No Marked Change.

LONG BRANCH, 7.—After the issuance of the evening bulletin several attending surgeons left Franklyn Cottage for dinner. Dr. Hamilton stated the exceedingly hot day was somewhat unfavorable to the progress of the President.

Well, as to his comfort?

The evening bulletin was a concise and correct statement of the situation to-night. He had an exceedingly favorable outlook.

Dr. Bliss said to-night the President is better in more than one respect.

Has there been any marked change? was asked.

I do not pretend to say there has yet.

When do you expect a marked change for the better?

Oh, in the course of a few days.

Have you any reason for expecting such good result?

Indications are favorable; the wound and gland are both doing well, and the only troublesome feature is the extreme weakness of the President. This extreme hot weather is no better for him than for you and me. When we get a sea breeze, I expect a more favorable change. The patient is comfortable to-night. There are no unfavorable symptoms now whatever.

Dr. Barnes expressed the opinion that notwithstanding the extreme heat the President was better off here than he would be in Washington.

Dr. Woodward said he thought it was probable that the President would be better than he is if the weather was cooler. He did not wish to be understood as saying that he was dissatisfied with the progress made to-night, however.

Late to-night Reyburn said, in substance: While the President had not gained a great deal of ground today, he had certainly held his own and had entirely recovered from the effects of his journey. There was no reason for believing that the journey injured him in any manner whatsoever, and to-night's fever was attributable to the usual febrile rise and the almost unbearable heat of the day. While the President did not exactly suffer from heat, he kept looking out on the ocean as if patiently waiting cooler breezes. If cool weather should set in, the improvement will in all probability be most rapid and the case more encouraging generally. This improvement will not naturally occur until the patient becomes thoroughly acclimated.

Incidents at the Cottage.

Long Branch, 7.—To-day was the warmest ever experienced at Long Branch. The thermometer ranged between 94 and 100 The little land breeze from the south was scarcely bearable. Every one suffered extremely, and remained as quiet as possible in shady places. In the immediate vicinity of the President's cottage, everything was quiet, with the view of preserving perfect quiet. All persons were prevented going beyond a given point, some distance from the cottage. Attendants and others with the presidential party, excepting Mrs. Garfield, Mollie and Mr. and Mrs. Rockwell, take their meals at the Elberon Hotel. Gen. Swain said this afternoon that the President is getting on finely, and is undoubtedly better now than this morning. The gland was dressed at noon, and is growing better all the time. I think this air will benefit the President after we get a sea breeze." The President himself says he notices the air is pure, and enjoys the ocean scene very much. The President rallying so soon from the fatigue of yesterday's trip is a very favorable indication. It shows that there is considerable of Garfield left there yet. The expected good result from the change will begin to develop, I should judge, in a day or two. Mrs. Garfield is rested and feels quite well again.

Dr. Boynton says he thinks the President is doing admirably. The reporter asked: "Was the President made any remarks that would indicate that he feels any benefit from the change of air?"

Boynton answered: "He did so today. Warren Young, of private secretary Brown's office, came into the room with some mail matter. Seeing him the President held out his hand, with the remark, 'Warren, don't you think I look better to-day?' Mr. Young responded in the affirmative, and the President then added, with emphasis, and I feel better; this is good air.'"

How long should it be, doctor, before the patient should commence to gain some strength, provided the sea agrees with him.

From forty-five to sixty hours.

Dr. Boynton remarked, as he was leaving the reporter, we will have good news for you in a day or so I think.

Colonel Corbin considers the President somewhat stronger.

Mirage—Darkness.

NEW YORK, 7.—At Long Branch a remarkable mirage occurred just as the President arrived, it showed sixty-five vessels going up and down the New Jersey coast.

HARTFORD, Conn., 7.—This city shared in the darkness of other points in New England to day. Gas had to be used everywhere, and the gaslight was as white as the electric light.

Stock Gambling.

NEW YORK, 7.

The Hannibal and St. Joe common corner still exists, and the stock bounded from 135 to 200 today, the last sale being at the highest point. Preferred fell 4 and reached 172. No failures are announced. One large speculator is reported to have settled by paying a clique $70,000. The losses fall where they can be afforded. The shorts will be rendered timid by this corner.

Resolutions of Sympathy.

The Democratic State Committee had a full meeting and adopted the following:

Resolved, That the people's right to be represented in the Executive office of the United States by a chief magistrate of their own choice has now again been imperiled. This right of the people in a representative republic is the fundamental principle of self-government. Whether this right be imperilled as in 1876 by a conspiracy of force and fraud among the office holders of the party in power aiming to nullify the people's verdict or as now by the bullet of the assassin, whatever his motive might be, should awaken in every patriotic heart not only respectful sympathy of freemen with the victim of such villainy, but also the patriotic vigilance which is the cost of maintaining the safeguard of civil liberty.

Resolved, That the members of the Democratic State Convention, in their first meeting since the attack upon the President of the United States, take occasion to record their indignation and horror at the infamous deed, and to express their grateful sympathy with the distinguished sufferer and his stricken family in their affliction, with the earnest hope that the labors of love for the restoration of the Chief Magistrate to health and to the full exercise of the constitutional functions of his office, may be soon crowned with complete success.

Harrisburg, 5.—The county democratic convention denounced by unanimous vote the shooting of the President and expressed sympathy with the President and hope for his early recovery.

Collision.

WHEELING, 7.—There was a terrible collision at Thornton between the Cumberland accommodation and the Chicago express train on the Baltimore and Ohio railroad. Both trains were going the same way. The Chicago express was making up time at great speed. Nobody was killed outright and no injuries to the Chicago train, except a severe shaking. The accommodation train passengers were badly injured. Nellie White had both legs and her left arm broken and inhaled steam. She has since died.

The Dilapidated White House.

WASHINGTON, 7.—At the request of Col. A. F. Rockwell, in charge of public buildings and grounds, examination has been made by Geo. E. Waring, junior, sanitary engineer of Newport, Rhode Island, of the drainage and sanitary condition of the Executive Mansion. Colonel Waring says examination indicates a very much less dangerous condition than current reports would lead one to expect. So far as exposed to view, the workmanship and plumbing in the house seemed to be reasonably good. The engagement of various soil pipes and waste pipes is such as is usual where the construction has been added to from time to time, as occasion required, and as different plumbers suggested it. Much of it is defective, and not a little of it radically. He considered, as a whole, that while they are free from some defects often found in better classhouses, the plumbing appurtences of the Executive Mansion do not conform to what are now accepted as the necessary sanitary requirements of a safe dwelling house. Colonel Waring then gives in detail his recommendation for such improvements as seem to him necessary, stating the Drainage Construction Company whose consulting engineer he is, will undertake it at actual cost and without compensation. It is considered quite certain Colonel Rockwell will approve of the recommendation of Colonel Waring and the improvements will be commenced at an early day.

General Outbreak.

The official reports of General Carr, in his recent fight with the Apaches, has been received at the War Department, having been forwarded by General McDowell, who telegraphs the outbreak in Arizona appears very general. Hostilities are reported along the route of the Southern Pacific from Wilna to Bowie, a distance of 100 miles. They pursued a west bound train near Bowie the same night. The railroad employees at Bowie have been removed and wont return until they are armed. The officials are earnestly asking for a loan of arms and ammunition, with which to protect their trains and stations. This request is respectfully referred to the Secretary of War.

Called Bonds.

Up to the close of business to-day, $6,131,900 in 5 per cent. coupon bonds, under the 103d call, and $13,630,000 in registered 5 per cent. bonds under the 104th call was received at the Treasury Department for payment.

Heat in Washington.

Heat intense. Thermometer at 4 p.m, 102. Hotter at the White House.

Ordered to Duty.

Several officers on leave of absence have been ordered to their regiments in Arizona at once.

Revenue Gauger.

Geo. W. Wilson has been appointed Internal Revenue Gauger for the First District of California.

Political.

SAN FRANCISCO, 7.—The city election to day. The campaign has been brisk and abusive. The main issues were rate of taxation and water rates. The republican ticket on the whole is composed of better material, while the democratic platform and pledges imposed upon the candidates are more explicit on the points above mentioned. The election h s been very quiet, and a light vote polled, an i estimated not to exceed 30,000. A great deal of scratching and the result will not be obtained before to-morrow evening. The democrats are very confident tonight, claiming the election of their entire ticket. In sporting circles even bets are offered that the democratic ticket, with the exception of the coroner is elected. The republicans profess corrfidence of the success of their candidates for mayor, sheriff and auditor, on which offices the sharpest fight has been made.

Shot for Shot.

PETERSBURG, Va., 7.—Brown Davis and a party of men quarrelled yesterday, in Greenville County. J. W. Saunders, magistrate, soon appeared and had some words with Davis, who shot him, inflicting probably fatal wounds. Saunders immediately shot Davis dead.

Prominent Catholic Dead.

MILWAUKEE, Wis., 7. — John Martin Henni, Archbishop of Milwaukee, died to-day. He was the upbuilder of the Catholic Church in the Northwest.

Darkness.

PROVIDENCE, 9. — The day has been excessively dark and sultry. The gas failed at about three o'clock owing to faulty machinery.

FOREIGN.

Law Wallace.

CONSTANTINOPLE, 7.—Gen. Lew Wallace, in presenting his credentials yesterday as United States Minister to this court, said the relations between Turkey and the United States had been amicable from the commencement, and he would endeavor by all means in his power to make them, if possible, more intimate. The Sultan formally received his credentials with friendly assurances. He afterwards conversed with General Wallace, and inquired with solicitude concerning President Garfield, and asked his assurances of sympathy be communicated to the President.

Gambetta.

PARIS, 7.—Gambetta, speaking at the banquet at Honfleur, said: My convictions have not changed. You are strong and ingenious enough to sustain competition with other nations. In conclusion he expressed the wish that the treaties concerning free trade might be speedily concluded. The speech was received with loud and prolonged cheering.

Accounts from the provinces show Gambetta's speech at Newburg was received by a crowd of sympathizers. At all the railway stations en route to Honfleur, the people even assembling along the line of railway in spite of the rainfall. The elections show the Bonapartists have gained Bastia, which is now their only seat in Corsica.

Famine.

The attention of the government is called to the possibility of a famine in Algeria. The military occupation of the city of Tunis and some other points has become necessary. Rouslau recommends such force in the regency being raised to 120,000.

Plots and Panics.

BERLIN, 7.—The issue of the nihilist newspaper *Will of the People*, is convincing proof that during the summer the nihilists carry on propagandism in the interior, and only recommence activity in the winter. It seems therefore no doubt that the coming winter will bring more plots and panics in spite of the success of authorities in arresting them.

German Iron-Clads.

The German iron-clad fleet abruptly terminated its maneuvre off Eckern Ford, and sailed for Kiel, whence it will go to Dantzic to salute the foreign monarch.

Irish Riots.

DUBLIN, 7.—A serious riot took place near Michellstown to-day, between two rival factions, owing, as is supposed, to a dispute about a farm from which tenants had been evicted. The soldiers charged the mob, who pelted them with stones. An attack was commenced on the barracks, but the police sallied out and charged the assailants, capturing seven.

Vindictive.

A herdsman in the employ of Capt. O'Callaghan, at Zulla, County Clare, shot a fortnight ago, has died. The vindictiveness of the persons concerned in the murder is shown by their posting notices, warning the people against attending the funeral.

Canada Fires.

ALVINSTON, Ont., 7.—Bush fires are raging 30 miles west of here. One hundred cords of wood belonging to the Canada Southern Railroad is burned. The west bound trains stop here, the track being burned.

BRIEF TELEGRAMS.

Hanlan will retire from boat racing.

Cholera has appeared at Aden, Arabia.

Fires and drouth are still reported in Canada.

The *Bothnia* yesterday brought $154,300 in gold.

Boston had the hottest day of the season yesterday.

Raining and brush fires extinguished near Ottawa.

The heat in New York is intense, going to 94 in the shade.

The darkness yesterday stopped the game of base ball in Boston.

The arrival of immigrants in New York last month footed up 33,840.

The census of India, just completed, shows a population of 252,000,900.

J. O. Sefton, a well-known Detroit actor, died yesterday morning, aged 65.

The Governor of Michigan proclaims a day of prayer for Thursday.

The White House looks dreary and deserted, and no callers are admitted.

In New York there will be no stock market to-day. It is a day of prayer.

The Lawrence worsted mills corporation, Mass., have made an assignment.

The White House is almost deserted and looks dreary. No callers admitted.

The night preceding the President's removal was clear and free from malaria.

Fare from St. Louis to Cincinnati, $3; to New York, $15; the same as from Chicago.

Fredk. Toone drove the new express wagon containing the President to the depot.

At Sheep Head Bay, the mile heat race was won by Bounce in two straight heats; time, 1 42, 41½.

Hostilities are reported along the Southern Pacific from Wilna to Bowie, a distance of 100 miles.

Gen. McDowell telegraphs to the War Department that the outbreak in Arizona appears very general.

The arrival of immigrants last month was 33,840. Since January 1st, 310,475. Same period last year, 228,000.

In the service at Augusta, Ga., the ministers said the wounding of the President had cemented all sections together as one people.

At Des Moines, last night, lightning killed Mrs. Rogers and stunned her husband who was in a wagon with her, and killed the horse.

The London Union Mail Steamship Company estimate the total loss of life by the foundering of the *Teuton*, Cape Good Hope, at 236.

Squirrels in Arkansas are said to be eating cotton seeds and scattering the cotton balls. Their usual food, nuts and acorns, were failures this year.

The Governor of New Jersey has appointed Thursday as a day for prayer for the President. The Governor of Massachusetts has also named Thursday, the 8th inst.

A letter from Munster, Ireland, declares that all law ceased there and the people evidently feel that they have only to continue the system of terrorism to obtain further concession.

The veterinary surgeon of the Department of Agriculture, sent to England in June last to investigate the question of pleuro-pneumonia among American cattle, reports that discussion has largely dissipated the prejudice against western cattle on account of supposed diseases.

Vanderbilt roads will, to-morrow, begin selling tickets from Chicago to New York at 10.25; to Boston direct, $11.25; to Boston via New York, $16. They claim the Pennsylvania Central has been cutting on agreed rate to Boston, and this is retaliatory measure. Tickets will be limited. This is a cut of about $5.

A Woman Writing Another Bible

Among those gathered on the grounds of the spiritualists here is a woman who believes herself entrusted with the writing of a new Bible, and who has already published three volumes of the work. She claims it to be inspirational, and composed by herself while in a trance. The book is called the "New Revelation," and its writer says its object is to lay the foundation for a new church, without creeds, open and free to all. She considers it a revelation of God concerning the education of the min l here on earth by the angel world and giving notice that God is to send to earth a second Son in this generation. The first volume of this strange work was began in Chicago in 1871. It took five months to produce it, and it was first placed in the hands of S. S. Jones for publication; but being warned in a trance that Chicago would soon burn, the writer and her husband fled from the wrath that was to come, taking with them the precious manuscript. This was in June, 1871, and on the 9th of October Chicago was burned and their publishing house was destroyed. The remaining books were written in various towns, as the spirits directed, the writer holding interviews, as she says, with Christ and his apostles, who have filled her book with inspiring prophecies. The woman is evidently demented. She pretends to be controlled by an Indian spirit, and will go into a trance on the hotel stairs or anywhere else, and start off on a pointless harangue.—*Boston Herald.*
