The day's trading on the exchange closed with the sale of 35,603 shares. Several stocks showed phenomenal activity today, but Ajax was easily the most interesting feature of the call. After opening at \$5 the stock declined to \$3, but immediately gathered fresh strength and steadily elimbed to 88½ on the closing sale. Some 9,500 shares changed hands during the call. Con. Mercur was traded in at \$3.00 flat, while Daly-West opened at \$29.50, and after declining to \$29.45 moved up to \$29.57%. Lower Mammoth was also in good demand though prices showed a softening tendency. The stock was traded in at the outset at \$3.75 and after selling down to \$3.65, it moved up to \$3,73% on the closing sale. Mammoth was quite firm around \$2.28, while May Day opened with the sale of 200 shares at 35 and after selling up to 38, weakened to 36% on the closing sale. Star Con. was in good form today as the result of a rumored strike. though the opening prices were not well sustained. It weakened from 88 on the first sale to 83 on the last, which was higher than Staurday's exchange quotation. Northern Light opened with the sale of 12,000 shares at 51/2 and immediately moved up to 5%, at which figure 2,000 shares changed hands.

Ben Butler advanced to 31%, while Manhattan opened at % and closed with % paid for 1,000. Yankee Con. was quite firm at 11%.

### -Lower Mammoth Meeting-Mining Notes.

The extension of the Mammoth shaft to the 2,000-foot level, which will be completed in the near future, necessitates the installation of two or three additional bollers at the mine. Manager McIntyre has decided to put in two 150-horse power boilers for the pany's debts. two isoenorse power bollers for the managing Director O. E. Weller, of the Bingham Copper and Gold com-probabilities of the near future. The same any, has arrived in the city for the winze from the 1900 is now down almost to the 2.000 level, and as it is in ore all the way, it has been thought advisable to secure more power to handle the increased tonnage which the lower levels are disclosing. The hoist is good for 2,500 feet, so that no change is necessary there. With the boilers in place Mr. McIntyre says he will be able to take care of the ore on With the the 2000 and also on the 1,900, where he is running to catch the big gold hub caronaed on the 1,800 level. This chute exposed on the 1,800 level. This chute, which presents a big body of fine milling ore on the 1,800, with some fine milling ore on the 1,800, with some shipping ore, is now 20 feet between walls, and is too strong, Mr. McIntyre says, to out off before reaching the 1,900. Mr, McIntyre feels much en-cournged over the outlook on those levels, and says if the situation gets no worse, a dividend for the first of the month is not unlikely.

Manager McFarlane Says Three More The Consequence Was that Prices Fell Away Leaching Tanks Will be Installed.

Manager James McFarlane of the Horse Shoe mine at Fay, Nevada, re-turned to town yesterday after inspect-ing operations at the mill. Mr. McFar-lane says that the company has de-Effort to Hold Up the Market With cided to install three new ninety-five-ton leaching tanks, which will increase the tonnage something like 10 per tent. Ernest Gayford, who is in charge of the mill, says that with the three ad-ditional tanks installed he will be able to leach the ore longer and thus excontrary directions of a few stocks gave tract 25 cents more per ton from the ore. The extraction now runs better the market a somewhat sensational and irregular appearance, the majority of than 90 per cent at times, but a still better record will be made when the new leaching tanks are completed.

Present a Demand That the Company Deems Units -A Second Demand-Wednesday to Answer-Immediate

### Strike Ordered.

[SPECIAL TO THE "NEWS."] Scofield, Utah, Jan. 14 .-- All employees of the Pleasant Valley Coal company, inside and outside of mines Nos. 1 and 4, are out on a strike this morning. Only the yard men of No. 1 mine, Itallans, went to work.

There seems to be very much dissatisfaction among the employes on account of not giving Mr. Sharp the time he asked to confer with the officials.

It was decided at a meeting of the It was decided at a meeting of the coal miners of the Winter Quarters Mine near Scofield yesterday to insti-tute a strike. About 400 men were prestute a strike. About 400 men were present. The committee appointed to wait upon the Pleasant Valley Coal company officials and present their claims made the following report:

To P. H. Wycherly, Chairman and Members of the Committee:

Answering your communication of the 7th inst., in which you advise us that the employes of the Winter Quarters mine ask for the following advance:

First-The company to take the 20 per cent off and pay 55 cents per ton of mine. This would be an advance of 31 per cent. Second-Fifty cents per yard advance

Some fine looking specimens of or from the New Sensation ground in Big Cottonwood were brought in this werk by a carrier on snowshoes, says the Park City Record. The rock has not yet been submitted to a test, but good or slxty days. Posted rates, 4.84 and judges of ore values say it is very rich in lead, with good gold values and some silver. The rock came from the 6414c Mexican dollars, 49%c. Government bonds, steady; refunding some silver. The rock came from the bottom of a winze about 140 feet down in which the vein has been cut in sev-eral places, and work is going right along. ### To Fit Coffee to a Sensitive Body. There are great numbers of highly or.

ganized people upon whom coffee acts as a clearly defined poison. In some extreme cases the poisonous effects will show in from three to five minutes, in Silver certificates, 5,000 ounces sold at other cases a long time is required, and other cases a long time is required, and in some cases the body can stand the effects for years, but the effects are very sure, and many times result in a fixed condition of organic disease that is difficult or impossible to be rid of. Mrs. J. W. Grant, of Deepwater, Mb.,

Mrs. J. W. Grant, of Deepwater, a.o., writes interestingly of her experience with coffee. "After using coffee a num-ber of years and gradually failing in health, I got so I could eat but very little breakfast at any time and many days could not eat at all. I would drink a cup of coffee and try to eat a but beread Chicago, Jan. 14.-May wheat opened t 77%, to 78, advanced to 78%, declined

I was greatly astonished to find that in a few days I had no more of the ner-vous spells at breakfast and began to eat food of most any and every kind, "I began to recover very quickly, but like lots of coffee and tobacco slaves. I thought I would like to try the coffee again so I started in on it and the old trouble came of. I stopped again and trouble came on. I stopped again and went to Postum and began to improve

went to Postum and began to improve in health. I did this foolish thing three different times and each time that I would go hack to coffee I would run down in health and was threatened with the same old troubles. "I finally learned how to make Pos-tum so well by letting it boll long enough that it tasted as good as fine Java coffee, and from that time on I have never had any desire to go back to coffee. I am now well, and there is no question but that my recovery is due entirely to the leaving off of coffee and entirely to the leaving off of coffee and using Postum Food coffee."
