## BLOCKING ENTRY OF INTERURBAN

Efforts of Rapid Transit and Other Interests to Keep Line Out of the City.

## WATERWORKS CO. SCORED.

In City Council Session—Board of Equalization Sittings—Criminal Record of a Day—Briefs.

Ogden, June 9.—Simon Bamberger, president of the Salt Lake & Ogden Railway company, has again been blocked in his efforts to enter the city of Ogden by steam traction.

Two petitions signed by 44 property owners from Healey and Carver avenues protesting against his entrance into the city under steam power over Healey avenue to Washington avenue were submitted to the city council at its session last night. In addition to this a large number of the signers were present and were allowed to address the council outlining the same ground of objections urged by Lincoln avenue residents several weeks ago.

It is also evident that the Ogden Rapid Transit company is doing all in its power to keep the interurban road out of the city as long as possible. A proposition was made by Bamberger to electrify Lincoln avenue up to his present terminus on Thirty-first street and the Rapid Transit company, the exclusive use of it for a year to handle its passengers. But the Rapid Transit company refused the proposition point blank on Monday.

After considerable discussion last night the petitions were filed, because contrary to the expectation there was no written request for any concession by the Bamberger interests. This leaves the question still unsettled.

## WATER COMPANY SCORED.

Speaking to a report of the water committee which has been investigating the refusal of the Ogden Waterworks company to extend its water mains to Thirty-second street, Atty. A. G. Horn representing the Stevens Investment company, which owns property on that thoroughfare between Washington and Adams avenues, flayed David Eccles and the waterworks company in unmistakable terms. He said that Ogden City had been shamed by the water company long enough and pleaded with the councilmen to make it conform to the provision of its franchise. Every inducement according to Mr. Horn, has been offered the waterworks company to extend its mains and a guarantee of 8 per cent interest has been offered on the investment but the extension has been flatly refused. Finally the question was referred back to the water committee for an additional report.

Mr. Horn pleaded with the council to grant the Lake View addition a franchise to lay its own water main, since the Ogden Waterworks company had refused to connect, promising to turn the pipe line over to the city at cost as soon as the work is completed. He urged that unless immediate action is taken, a \$100,000 investment in this property contemplated by eastern capi-

talists would be lost as no money would be placed in the project unless water connections were assured. The ordinance granting the franchise which was introduced some time ago passed to its second reading.

Chief of Police Browning requested the council to resume the old eight-hour system for payment as he believed better service could be maintained if this was done. The matter was referred to the police committee. F. N. Howard was appointed special policeman at Glenwood park until the recommendation of the chief of police.

## FIELDING'S MISDOINGS.

A complaint charging William F. Fielding with obtaining money by fraud was drawn by County Atty. Harris yesterday afternoon. It is signed by Charles Barton, cashier of the Ogden Savings bank, and alleges that Fielding received the sum of \$500 which was given upon a loan upon two promissory notes of \$500 each. It was after Fielding had departed that the officials of the bank found that both notes were forgeries and a search for Fielding was immediately instituted with the result that his trail from Ogden to Seattle, thence to Oakland, was taken up and his arrest in the latter place effected.

## STOLE A BICYCLE.

A young man by the name of Roy Biggs was arrested at Utah late yesterday afternoon, by a farmer by the name of R. F. Saunders, when the young man was trying to dispose of a bicycle which is alleged to have been stolen from an employee of the Utah National bank.

It was about noon yesterday that

the police were given a description of a bicycle stolen from in front of the bank. About four hours later, Saunders telephoned that a young man was trying to dispose of a wheel. He gave the officers the number of the bike and the make, and it was found to be the one stolen from the bank. Saunders was told to arrest the young man, which he did, and brought him to the city and turned him over to the police. The young man was booked on the charge of petit larceny.

## BOLD ROBBERY.

Last night about 11:30 o'clock, a couple of men entered the pawn shop of C. Sorenson and asked a boy who was left in charge of the store for a few minutes by Mr. Sorenson, to show them some rings. The men seemed to possess some money, and the boy naturally thought they intended to make a purchase. No sooner had the boy placed the tray of rings on the show than one of the men grabbed it up and the two darted out of the store. The boy gave the alarm as quickly as possible and the police were notified, but as the boy was unable to give a description of the men, the complaint of the boy is doubtful if any arrests will be made.

That is the one thing about Ivory Soap that is of paramount importance.

## FUNERAL OF D. D. MATHUR.

Last Saloon Closes in Dixie's Capital—Cool Weather.

Special Correspondence.

St. George, Wash. Co., June 5.—The funeral of Patriarch Daniel D. McArthur, who died here June 3, was held in the tabernacle yesterday, and was largely attended. Many speakers paid glowing tributes to his memory. The weather is exceedingly cool for the time of the year. The first crop of hay was accordingly very light. Peas, potatoes and other garden stuff are plentiful, but, as a rule, several weeks later than usual. Apples and peaches are ripening.

St. George had two saloons during the fall and winter; one went out of commission several weeks ago, and the last closed its doors last Tuesday. The people have declared for prohibition, and so the saloons will not likely reopen their doors.

Work on the St. George steel suspension bridge is progressing nicely. The St. George Commercial club is doing a good work in advancing the interests of Dixie.

## DEAFNESS CANNOT BE CURED.

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness caused by Catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo O.
