DESERET FVENING NEWS: FRIDAY, MARCH 14, 1902.

Patrons of the Salt Lake theater who follow the work of the orchestra. buminoid ammonia and nine parts of so long presided over by Prof. Willard Weihe, have noticed that he has been free aminonia per million parts-that absent from his post the last two or three nights. The reason developed at the theater this morning. In answer to inquiries, Manager Pyper stated that Mr. Weihe had tendered his resignation as leader of the orchestra, and that his resignation had been accepted. A dispatch had been sent to Arthur Shepherd at Boston, where he has been studying for the past eight months, tendering the him the position, and he had promptly accepted it, stating that he would leave for home today. It is expected that he will be here Monday or Tuesday, and in the meantime Mr. Youngdale, the first violinist of the orchestra, will officiate as leader.

Mr. Shepherd, though a very young man-he is only in his 22nd year-is recognized as one of the leaders among our planists and composers. He obtained his musical education at the New England Conservatory of Music, Boston, where he studied from the age of 12 til he was 17, and settling in Salt Lake, at once attained success as a teacher. He was the first accompanist of the Salt Lake Opera company, and prior to that had had some experience playing in the orchestra of the Castle Square Opera company, while he was a student in Boston. He left Salt Lake last August to re-visit Boston for the purpose of taking a course in composition. He would have finished in April, but the tender of the leadership of the theater orchestra hastened his decision to return. Mr. Shepherd's talents are of the highest order, and there is no doubt of his attaining success. The position is a very good one from a monetary standpoint, and in filling it Mr. Shepherd will not only be following his natural tastes, but he will be left opportunity both to write and teach if he so desires.

Mr. Weihe, who has led the orchestra for some years past, having succeeded Prof. Careless, it is understood, contemplates going east. His position as the foremost violinist of this region has long been established, and his many friends will hope sincerely that he will be able to maintain the proud position he has won.

A prominent grain handler in discus sing the home situation today said The great trouble with most Utah growers has been that they do not give enough back to the earth in the way of fertilizers for what they take out of it. After a man has grown grain several seasons from a tract o land and taken the nutriment out of it, is it to be wondered at that the grain becomes shrunken and irregular quality? You can take a handful o wheat grown in most Utah fields, and you will find that in the stone it will grind uneven, and the product will be as it grinds. Now take the northern grown wheat, where the growers are careful to manure their fields, and give back to nature the equivalent for all she gives to the grain, and notice how full and even the kernels are, and how satily and evenly the grain grinds. Such growers get from 40 to 43 pounds of good flour from a bushel of wheat, whereas many of our home growers who neglect to fertilize their fields do not realize over 36 pounds per bushel. And the same may be said of many Utah fruit growers. Go along Market Row and see how much of the fruit sold there came from Utah. If our fruit men will not give their orchards the attention they need, what else can they expect but poor, scrubby fruit, Lut fruit from adjoining states is get-ting the upper hand of the locally

grown products.' ZION'S SAVINGS BANK and Trust Co., the oldest and largest savings bank

The public grounds committee acted favorably upon the matter of band con-certs at Liberty park by Held's band during the coming season. The band is obliged to give at least eight concerts and must forfeit \$50 for each of the eight concerts it fails to give. The concerts will be given between 4 and o'clock on each Sunday afternoon.
