DESERET EVENING NEWS.

TRUTH AND LIBERTY.

VOL. VI. SALT LAKE CITY, UTAH TERRITORY, MONDAY EVENING, AUGUST 4, 1873. NO. 214

BY TELEGRAPH.

SPECIAL TO THE "DESERET NEWS," PER DESERET AND ATLANTIC AND PACIFIC TELEGRAPH LINE.

Last Night's Dispatches.

EASTERN.

ST. LOUIS, 2.—The mortuary report for the past week shows 121 deaths, 75 of which were from cholera.

Mrs. Alverge committed suicide yesterday, by cutting her throat with a buck saw.

JERSEY CITY, 2.—The indictment against certain members of the board of public works, fire commissioner and police commissioners, made about two years ago, for conspiracy to rob the city treasury, were quashed to-day in the Hudson County court. The indictment against Williams, ex-chief of police, was also quashed.

NEW YORK.—Money easy, three to four per cent. Short date mercantile paper, 5½ and 6½ per cent. Gold steady, dull 15⅜@ 15⅝, with rates for carrying from three per cent. to flat. Exchange inactive at 109@109½. Government's quiet. Stocks stronger, Pacific Mail, 38, Wells Fargo, 73, Quicksilver, 38½, do. p.f.d., 45. Specie shipments for the week, $719,442, including $573,442 in bars and $125,000 in gold coin. Imports merchandise for the week, $5,412,088.

WASHINGTON, 2.—South Carolinians who have been in Washington lately, give a fearful account of affairs in that State. They say the power of the State has literally fallen into the hands of bad negroes, and worse white men, who have used the blacks as stepping stones to political stations, for the sole purpose, apparently, of plundering the State. The most honest officials are said to be colored men. The State is so completely within radical clutches that some of the conservatives even are inclined to recommend that their own party take the most decent colored man they can find and run him for governor next year.

The administration seems to be doing its very best to get up a war with Mexico. Gen. Belknap, it is well known, would like to have it brought about. The administration organs try to fire the American heart by the publication of letters, professing to give correct accounts of raids upon American Territory by Mexican marauders, and of outrages on American citizens. By inquiry at the war department these reports are seldom verified. An administration paper, to-day, demands, almost savagely, that there be no further trifling with Mexico. The war department is ready any time to involve us in war, but the secretary desires first, by these publications, to endeavor to arouse public feeling that will sustain him.

The comptroller of the currency issued a circular to-day, informing the National Banking Association that they will be supplied with new ten dollar notes to take the place of those now successfully counterfeited, provided the banking associations will re-imburse the treasury with the cost of preparing the notes furnished.

ST. LOUIS, 2.—Governor Woodson of this State, General Jas. Craig and several other gentlemen of St. Joseph, Mo., went across the line into Kansas yesterday, to shoot prairie chickens, and were arrested and fined for violation of the Kansas game law. The affair caused a deal of merriment among the Governor's friends.

NEW YORK, 2.—In regard to the seizure by the sheriff of the two vessels belonging to the Pacific Mail Steamship Company, President Bradbury says that the attachment was either a mistake or a snap arranged for the purpose of influencing matters on the street. The amount claimed is $120,000, to secure which bonds will be given to-day. President Bradbury states that ex-President Stockwell should have paid these taxes, as he had the funds for that purpose. The matter, however, will be investigated, and as bonds have been given the departure of the company's vessels will not be delayed.

SARATOGA, 2.—The selling race for two year olds was won by "Crowmeat." The sequel, for three year olds, two mile, was won by "Breadalbane," a colt, time 3.40. In the three mile selling race for $1,000, Hubbard beat "Harry Bassett" and "Wanderer," time 5.34.

NEW YORK, 2.—A stay of proceedings has been granted in the case of Murphy, who was sentenced to be hanged on Friday next.

WASHINGTON, 2.—The report of the investigation of the Indian committee of the last House of Representatives into the extensive and fraudulent private contracts with various Indian tribes for the collection of annuities, negotiation of treaties and and other services in Washington, has just been published. The investigation extended over more than a year, making a volume of nearly eight hundred pages. The most wholesale and unprecedented frauds are proved, and a recommendation is made that the contracts be annulled, and suits for the recovery of the money be instituted, and that important general legislation, for the better protection of the Indians, be inaugurated. The committee announce, in large capitals, on the title page of their report, that they hope to do something to rid the Indians and the Indian service of the scoundrels who infest it. The report concludes with the statement of nineteen distinct measures upon which legislative and executive action is advised. The whole report is comprehensive and exhaustive, and by far the most thorough expose ever made of frauds by Indian attorneys and claim agents.

It is now definitely settled that the expectations of the advocates of the peace policy will be realized. The opinion that the war department would hereafter have control of affairs is incorrect. When Capt. Jack and his band of murderers have been disposed of, all its functions in that respect will cease, and that business will again revert to the bureau of Indian affairs in the department of the interior. Those who ought to know, insist that the President never contemplated any other course, and they say that control in regard to the Indians by the military, was never designed to extend further than the trial of the Modocs.

WASHINGTON, 2.—The Washington *Chronicle*, this morning, contains the following: "U. S. consul James Therrington, at Auckland, United States of Columbia, reached here this a.m., to lay before the State department the circumstances in the case of the *Virginius*. A protracted sitting was held with Assistant-secretary Hunter, who officially and warmly endorsed the course pursued by Mr. Therrington in the matter. Mr. Hunter stated that as this government had received no official notification of the state of war existing between Spain and Cuba, no such war could officially be supposed to exist, and it was the bounden duty of the consul to protect all the vessels coming upon to all seven though the charges made by the captain of the Spanish gunboat had been true in every particular. Under these existing circumstances, the case of the *Virginius* could not be held to be analagous, as has been claimed, to that of the Confederate vessels which entered the ports of Australia."

BOSTON, 2.—Gen. Butler will publish in a few days, an elaborate, legal and historical defense of the congressional back pay affair, in reply to a letter of a distinguished citizen of Lowell. Every point is fortified by numerous precedents, and it is said to be one of the ablest papers he has ever written. It opens with a defense of the increased pay of the President, whose salary was raised from $25,000 to $50,000 by a bill which simply equalizes the pay of members of both houses, something that never before existed. Under the old law each member received his five thousand salary, and six dollars for each twenty miles of distance from his residence to the seat of government, and members drew their milage whether they went home or not. Now each member receives seven thousand five hundred, and his actual personal travelling expenses to and from each session, so that the aggregate pay of members is but a little above what it was before, and, in proportion, not as much as at times in the past. The letter will also be severe on Minister Washburne and others in the employ of the government, who have had their pay raised, and ordered it claimed to "back the tiger" abroad. It is also severe on New England and other members who are now abusing the bill. The letter refers sarcastically to some of the clerks, who were upon the floor in the house when the bill giving them back pay was under consideration, lobbying furiously, and exhibiting the most nervous fears lest it should fail. The letter closes with an allusion to newspapers antagonistic to the increase of pay, and says that although by their columnies and slanders these newspapers have frightened a few men who mistake cowardice for conscience against their better judgment, for some of them voted and spoke for an increase of salary, into sending back their increased salary into the treasury.

The Hamilton Hall Republican committee held a meeting to-day, at which measures were adopted to prevent General Butler carrying the wards in Boston, in the coming primary meetings.

The recent action of the liquor commissioners in removing the constables, will, it is thought, do Governor Washburne more harm than good.

NEW YORK.—A counterfeit of the half eagle coinage of 1872 has appeared here, so closely resembling the genuine as almost to defy detection. It is composed of 848 thousandths of gold, mixed with copper, its intrinsic value being 470 thousandths. A reward of five thousand has been offered for information leading to the capture of the dies and the arrest and conviction of the counterfeiters.

A fatal case of cholera occurred at Pleasantville, West Chester County, yesterday.

This afternoon a building, 328 Fulton St., which was being repaired, suddenly gave way and fell with a crash, burying three laborers. The men were soon dug out. Two were slightly injured, the third was insensible, and his injuries will result fatally.

There were 889 deaths the past week.

WESTERN.

SAN FRANCISCO, 3.—Louis Ochman, a German, shot himself late last night, at the corner of Buchanan and Grove streets. The ball entered his right ear, and death was instantaneous. The deceased had been employed in the National brewery, from which he was discharged on Friday, and he had been on a spree since that time. He has a wife in Healdsburg.

The insurance on the property destroyed by the Portland fire is very light. The heaviest losers are the Liverpool, London & Globe Co., $35,000; the Firemak's Fund Co., of San Francisco, $20,000. The St. Charles hotel, the finest hotel in Portland, which was reported burned, was saved by the Salom firmen.

SAN FRANCISCO, 2.—The following is the latest from the Portland fire. The following brick buildings are destroyed: Moffet's levee building, Vaughan's mill, Moffet's First Street building, Walker's sash factory, Fryer's building, Weatherford's, Strawbridge's, Wakefield's, Rearne's and Poppleton's, and one or two others. Some of the wooden buildings consumed were of considerable value. It is impossible to give details of the losses yet, but the most reliable estimates place the amount from one million to one million two hundred thousand dollars. The amount of insurance, according to best information obtained, does not exceed $280,000. A very large proportion of the buildings burned were not insured. Many families are rendered homeless by the fire, and some have lost everything they had. Steps are being taken for the assistance of the sufferers. The mayor has called a meeting of prominent citizens, and is taking active measures to protect property. There is great excitement among the people, it being apparent that the fire is the result of an attempt to burn the city. During the progress of the conflagration the fire caught in divers places, in the city, all of them in such places as could not have caught from the fire already raging. Rumors are rife of incendiary attempts in every part of the city, and even more fires are expected to-night. These reports are doubtless exaggerated, but they are not without foundation in fact. Scarcely had the flames enveloped this building in which it first caught, when the flames were discovered issuing from about the centre of another block of wooden buildings, lying to the westward of that in which it was first seen. The flames spread with great rapidity among the wooden buildings, with which most of the burnt district was densely built, and in a few minutes it became apparent that it would require the utmost efforts to save any part of the business portion of the city. The weather had been dry and hot for some time, and the wind was blowing fresh from the north west at the time the fire caught, and it continued so during the entire time of the conflagration.

Everything between Fort Steele and the river from Morrison to Steele, on the south limit of the December fire, southerly to Clay street, is burned, excepting a few residences. The conflagration started on the south side of Clay, between Front and First streets. Everything is swept away from Yam hill to Clay street, except three small residences that stood between first and second. The conflagration extended from Columbia to Yam hill, leaving but a building standing. The whole number of buildings consumed is about 280, and the district swept clean embraces twenty-two entire blocks, and parts of two and three others. The city loses the engine house of the Protection company No. 4, and the Vigilance Hook and Ladder company's house. Among the establishments destroyed are one flowering mill, two sash and door factories, iron foundry, boat foundry, furniture and planing mill, wagon manufactory, besides a considerable number of small factories of various kinds.

— Frederick Douglass is said to talk in such exquisite English that he never tires of hearing himself. We have known of one or two similar instances of self-fascination.
