

LEON LING CAUGHT IN MANY PLACES

Rumors of His Capture in Almost Every Quarter of the United States Keep Coming In.

TWO LETTERS TO CHU GAIN

Chung Sin Identified Them—Threatened Kidnap and Show Motive for the Crime.

New York, June 24.—Rumors and conjectures as to the whereabouts of Leon Ling, the young Chinaman, who is sought by the detectives in charge of the Elsie Sigel case, continue in abundance today. There was also a fresh crop of theories as to the motives which prompted the crime and as to the exact manner of its commission; but in spite of almost hourly rumors of the capture of the missing Chinaman in almost every quarter of the United States, there was nothing tangible upon which to base a clew of use in trailing down the murderer.

The advanced state of decomposition of the body when found precluded any autopsy or examination to show what the cause of death had been.

The theory of Quon Yick Nam that the girl had died from an overdose of chloroform administered by Leon, cannot be confirmed, as the handkerchief which was found near the body, and which he saw over her mouth, has disappeared.

The finding of the two letters written by Leon to Chu Gai, whom he regarded as his rival in the affections of the Sigel girl, in which Leon threatened the life of both Chu and the young woman, is the evidence obtained yesterday to show the motive of the crime.

Both these letters which are in Chinese and signed "The Chief" were today shown to Chung Sin and readily identified by him as having been written by the fugitive. The text of these letters has not been revealed, but it is known that in them, Chu Gai is threatened with death unless he discontinues his attentions to Miss Sigel. Chu Gai has also said that his own brother brought him the letters, and that he, Leon, had seen them.

The two threatening letters received by Chu Gai, warning him to pay no attention to Elsie Sigel, on pain of death, were surrendered by Chu Gai to Asst. Dist. Atty. Ward today. The letters were signed "The Chief" and were written in Chinese characters. Other than that they contained threats against Chu Gai, their contents have not been made known.

The possibility that Leon Ling has fled to Cuba was brought to the attention of the police today by a white woman living in Chinatown. The woman told the police that she had heard two Chinamen discussing the Sigel case and heard them express the belief that Leon was now in Cuba.

IRRIGATION INVESTMENTS.

Interests Have Capital in Many Western Enterprises Which They Are Now Looking Over.

The train consists of seven Pullman sleeping cars, a diner, a buffet and baggage car, and carries a party of 154 bankers, capitalists and manufacturers from Chicago, Buffalo, and other eastern cities, who are traveling over the west to inspect irrigation and water power developments in Colorado, Utah, Idaho, Oregon and Wyoming.

The trip was planned by the firm of Trowbridge & Niver company, bankers of Chicago, and the train was furnished by them. This company has floated the bonds of many of the irrigation projects in the west. Representing Trowbridge, Niver & Co., and managing the party is R. D. Manson, secretary of the company, and under his direction the party is now in the west.

"There are more than 150 bankers on board the train," said Mr. Manson to a New representative this morning. "In the aggregate the party represents more than two billion dollars capital. They are simply making this western trip to inspect the irrigation projects existing here, and the wonderful possibilities of the arid sections when touched by the magic wand of water, which far as they are concerned, have enjoyed themselves immensely, and are much impressed with the west and its possibilities. Yesterday we spent the day at Palisades and on the great irrigation project near that place. We were to have spent the greater part of a day in Salt Lake, but I am sorry to say we were delayed by a heavy rain, which was a disappointment to the party."
