

LOCAL AND OTHER MATTERS.

FROM TUESDAY'S DAILY.

DEEP.—The Snow drift on the top of the mountains between Helena and Deer Lodge, Mo., is said to be thirty feet in depth.

GLENDAL.—R. B. Stewart, writing from Glendale, Kane Co., on the 6th inst., says:—"There is some sickness in our town; the measles being in several families. The rest of the people are in good health. We have had a fine shower lately, which is bringing up our wheat."

MORE STOCK COMING.—H. J. Faust, Esq., of this city, received the following telegram this morning:

"OMAHA, April 18th, 1871.

Stock started yesterday, and will be home on Thursday.

W. C. RYDALCH."

All persons interested in this stock should be promptly on hand to take charge of it. We understand that on its arrival here, parties who may wish to invest means in its purchase, will have an opportunity to do so, as there will be several thousand dollars worth for sale.

REDUCING ORES.—We had a call yesterday morning from C. W. Easton, Esq., of San Francisco, who has imported a mill to this Territory for the purpose of working Galena ores by the wet separating process, a process which is attended with the best results; being, according to Mr. Easton's statement, adopted for the separating of lead, silver, copper, and all metals at one operation. It answers admirably for ores which are of the value of forty or four hundred dollars per ton. He estimates that fifty per cent can be made on forty dollar ores, and the lead and silver be shipped in a pure condition. The difficulty of working ores under the old process is in smelting or separating them; and this will readily be perceived when it is understood that lead melts at 610 and silver at 1936. The heat necessary to melt the latter, of course, causes the former to pass off in vapor. By Mr. Easton's process he claims that this loss is avoided.

ANTI INCOME TAX ASSOCIATION.—We received by mail, this morning, a copy of a resolution and address of the lately organized Anti-Income Tax Association of New York. The resolution is as follows: "Resolved, That proceedings be taken to organize Associations in other cities and towns throughout the United States to co-operate with this Association in carrying out the objects for which it is organized, with the view of forming the different organizations into a United Anti-Income Tax Association. And that to carry this resolution into effect, an Address be issued, signed by this Committee, inviting individuals in all of the cities and towns in the United States to form an Association, and that this address be published in the newspapers of this city, and distributed to other cities and towns for insertion in local papers." By order of the Committee,
MIRON WINSLOW, Sec'y.

The address purports to show the unconstitutionality of the tax in question and gives a general invitation to individuals in all of the cities and towns in the United States to form an Association, as indicated in the resolution, to unite in having the burden removed. The address is dated April 8th and is signed by Nathaniel Sands, Benjamin B. Sherman, Paul N. Spofford, William H. Guion, and Anson P. Stokes, who constitute the executive committee; and by Miron Winslow, who is the Secretary.

FROM WEDNESDAY'S DAILY.

D. M. STUART.—By letter from Elder David M. Stuart, dated St. Louis, April 13th, we learn that he was enjoying good health and was prospering in his labors.

NORTHERN PACIFIC RAILROAD.—We learn, from an exchange, this road is now complete to Brainard, the crossing of the Mississippi River. The bridge across that river being now completed, track laying westward will progress rapidly. There are now nine engines and 156 cars in use. Four more engines and seventy cars are on their way to the road. Sixteen hundred men are employed.

LOOKS DISHONEST.—By perusal of the communication from "A. C." in another column, it will be observed that if a person were to conclude that the man from Logan had fallen among thieves, he would not be likely to shoot far from the mark. It is to be hoped that this little incident will have the effect of inducing the brethren who go to Corinne to trade to exercise caution.

THE CHURCH IN NEW ZEALAND.—We have received a letter from Elder Henry Allington, dated Karori, New Zealand, Feb. 27th, from which we extract the following:

"The work is moving on here slowly but steadily. Since my last letter to you we have baptized eleven adults, and others are enquiring the way to be saved. We held conference here on the 8th of last month, when a most refreshing time was enjoyed.

Brother Burnett, from Kararoi, was present and presided. Brother Beauchamp, in consequence of feeble health, was unable to attend, which was a great disappointment to the Saints.

The Saints of the Karori Branch are endeavoring to live their religion and save means to gather to the valleys of Utah. A few will leave this season with the company from Australia. Next year, if all goes well, I expect most, if not all, will be in a position to gather. We have established a Sunday school, which is of great benefit and is well attended. The Wellington Press (a copy of which I have forwarded to you) has been anxious to bring us into notoriety; It says: 'They (the Saints) have adopted an artful plan of proselytizing, by establishing a Sunday school, which children are invited to attend, and where the insidious poison of Mormon superstition is poured into their ears.' This with any amount of clap-trap of a like nature, has brought a hornet's nest about our ears, about which, however, we care but little. One person said he would donate five pounds toward having us all driven out of the district and another told me that he would like to take a part in the burning of the next Mormon humbug who might visit Karori.

"Brother Beauchamp is in Sidney, New South Wales. His health is very feeble but he manages to preach on Sundays and a little during the week. The work is progressing in the Australian Colonies, but more help is required. I think that if a few good missionaries were sent there, a good work would be accomplished."

"New Zealand is, at the present, almost in a state of bankruptcy. There is but little work, and very little money in circulation."

A JOYOUS WELCOME.—Elder George Nebeker writes as follows from Laie Oahu, Sandwich Islands, on March 23rd.

"I arrived here on the 26 of Feb., and found our brethren and sisters all well and in good spirits.

I had a very quick passage: eleven and a half days traveling time, and had good health all the way, except the usual sickness I experience at sea.

Bro. H. H. Cluff met me in Honolulu, with a horse and saddle, and we came out to Laie the same day—thirty-two miles. The native brethren and sisters seemed delighted to see me again on the plantation, and those who are not members of our Church seemed pleased also. They came en masse to welcome me back, and brought presents of fowls, fruit, fish, vegetables, etc., and many little children brought eggs to express their kind feelings, and some sat at my feet and wept, and all expressed *Nui Aloha*—much love.

I truly felt thankful to my Father in Heaven that I had been permitted to meet them again and receive such kind demonstrations of feeling.

I believe Bro. Cluff gave you the particulars of a very heavy shock of earthquake, which occurred Feb. 19. Since then several lighter shocks have been felt, and the volcano on the Island of Hawaii is reported as being very active.

Our plantations have suffered some, for the last ten months, from unfavorable weather. The last Summer was extremely dry, and this winter very heavy rains have fallen, which have done a great amount of damage. The weather is now more favorable and we hope soon to recover."

FROM THURSDAY'S DAILY.

REMAINS FOUND.—Mr. S. J. Brown, of the 5th Ward, called this morning and informed us that while a number of boys were hunting in a pasture, about a quarter of a mile south-west of Mr. John Van Cott's place, west of State road, they discovered the remains of a man, in a growth of rushes. It is presumed that the body must have lain there for a long time, being in such an advanced state of decomposition that, as it was approached, a slight ripple of the water, with which it was partially covered, caused portions of it to fall in pieces. The following is the description of the body as near as the boys could give it: A little over five feet in height, dark coat, light colored pants and narrow toed shoes.

CARELESS SHOOTING.—We are informed by an employe of this Office, who resides on the northern part of the bench north of the Twentieth Ward, that, last evening, when his wife was a short distance from the house, wheeling a perambulator with a child in it, a bullet came whizzing along and struck the ground not more than five yards in front of her. She happened to stop a few moments to adjust the perambulator, otherwise the result might have been fatal to herself or child. The bullet, which was afterwards picked up by our informant, must have been shot from a long range rifle, and it apparently came from the vicinity of Arsenal Hill, across City Creek Canyon. The evil of careless shooting has been frequently alluded to in our columns, and we trust that the first person caught, who thus endangers the persons and lives of his fellow beings, will be so severely dealt with that his case may be the means of deterring others from indulging in such an unmanly and criminal practice.

CURE FOR CANKER.—This disease is very prevalent in this region at certain seasons of the year, and often assumes a very virulent form, especially among children, many of whom die from this cause and its concomitants. It is very desirable therefore

that some effective remedy should be known and we believe we can recommend one which will answer the purpose. We have the testimony of a number of people who have tried it and who state that its effects are not only certain but speedy. The article alluded to is simply chloride of potash dissolved in water. This remedy has for some time been prescribed at the Z. C. M. I. for all who have applied for advice there regarding the disease alluded to.

SUMMONSES.—We are now prepared to supply Justices of the Peace with Blank forms of summonses. Other Blank forms also for sale at this Office. d58, s104 & w-117
