estholishments, cultivate her soil, and develop her mines. She offers superior inducements to immi-grants, and those who settle here will find themselves far better off in five years than those who seek hemes where the Pacific laves the western shores of the continent."

COST OF TRANSPORTATION. larged to accommodate the large

"Allow me to suppose that the people of Montaua annually import 2,000 tons of merchandise, machin-ery &c., at an average cost for transnumber of archbishops and bishop-expected and to give scope for a full observance of the entire cere-moulal. Admission to the cathe-dral will be by ticket only. A dispatch from London states that Chas. L. Laurence, an alleg-ed forger and a smuggler of silks, who was arrested at Queenstown while fleeing from this country, has been held for extradition; the silks that Laurence and his associ-ates smuggled are valued at over ery &c., at an average cost for trans-portation from Ogden. Utah, or from some point on the Missouri river, (the cost being equal beyond) of \$100 per ton. This would aggre gate \$200,000. With a railroad complete this would not exceed \$40,000, saving \$160,000. Suppose you export in ores and builion 2,000 tons, at average cost of \$30 per ton. A railroad cou d carry the same for oue-third and save \$20,000. Again, suppose you expend in through pas-

one-third and save \$20,000. Again, suppose you expend in through pas-seugers per annum \$50,000. A rail-road could carry the same passen-gers for one-third, saving \$33,334. These three items, evidently under-stated as to the amount of your traffic, would preduce with railroad transportation as against your pre-sent mode a net gain or saving of \$123,334. Now who pays these freight charges? I answer, the people of Montana Tarritary. The communant, whether they be minem or agricultural laborers. You, Mr. Editor, help to foot the bill on the month Local News. Brevities. Poetry.

or agricultural laborers. You, Mr. Editor, help to foot the bill on the cost of every sheet of paper upon which your issue appears and upon every pound of material used by ge, 15 cents.

yeu. There is not a pound of any-thing used in your Territory which has been imported that does not directly bear its portion of this direct tax; I say direct because it is collected daily.

direct tax; I say direct because it is collected daily. "Now suppose your people, under-standing the situation, determine through the Legislature to 'specu-late' by voting the issuance for railread subsidy purposes of \$3,000. 000 in Territorial bonds, bearing 7 per cent. interest per annum, or a sum of \$210,000 to be paid yearly from the unincreased present taxes of the people, now paid annually in the partially disguised form of ex-cessive freight rates. The specula-tion would aimply net them, if these figures be correct, \$13,334 per annum. As to the payment of the principal I need only say that the uncrease in the valuation of proper-ty *taxolic*, to say bothing of the mercense in that reg. rd to be had from the road itself, would in less than twenty years pay it three times over. In conclusion, permit me to state, without any fear of auroenful contradiction, that a three field to carry in the same length of time all the traffic that has ever passed over the U. F.

that has ever passed over the U. P. and C. P. Railroads and much more."
