

NEWS OF THE DAY.

It is now said that two-thirds of the telegraphic wires of the east, will be saved in Ohio.

Special orders have been given by the Pope in reference to the reception, at Rome, of Cardinal McClellan.

Italy is said to be excited over the municipal elections now in progress. Every municipality is over head and ears in debt, and tired of the administration of affairs by both Liberals and Moderates, the clerical party, for the first time since the union of 1859, are turning to power.

A large hardware establishment destroyed by fire, at Haverhill, N. S.

The revolutionists have been defeated in Southern California.

The president and leading officials of the Western Union Telegraph Company met yesterday and adopted a series of resolutions in honor of the late vice president Mumford, for copy of which see telegrams.

More failures are reported in today's telegraphic news.

Suits have been commenced at Omaha, by the U. S., against J. P. Barker, a defaulting Indian agent, also against R. M. Forbes for failure to fulfill a contract.

A dispatch from Tripoli, received by the Secretary of the Navy, states that the U. S. consul and his wife have been insulted by Tripolitan sailors. U. S. vessels of war have been ordered to investigate and demand reparations.

The Geographical Congress of Paris has decreed letters of distinction to the American navy department and signal bureau.

About fifty of the persons engaged in the Miguel massacre have been shot.

A terrible railway accident has happened in Chili—a whole train, except engine and tender, fell through a high bridge into a river, and about twenty-five persons were either crushed or burned to death or drowned.

By a railroad accident a few miles from Denver, yesterday, several persons were killed, and others badly injured.

The crops in Wisconsin are pronounced excellent, in some localities being better than ever known.

The miners are leaving the Black Hills.

A young man and woman drowned at Quebec.

The city council of Montreal assembled on Monday night to consider an ordinance to compel vaccination, but they were prevented from attending to their business, and were finally dispersed by a mob of citizens opposed to vaccination.

The Spanish government will order a levy for a hundred thousand men for the army, to be put on an end to the war.

A serious quarrel has taken place between Russian and Prussian guards on the frontier.

The cold has been so intense in one of the provinces of Chili, that four persons have been frozen to death.

The Turkish government is sending more troops to Herzegovina.

The situation at Memphis apparently is very critical, storms last night and this morning having caused the river to rise to within less than half an inch of the Springfield.

Cowboys, escaped from Sing Sing prison, N. Y., have been arrested in St. Louis.

It is said that families are leaving Williamson County, Ill., to escape the vengeance of outlaws, who reign there.

While a train was passing through Big Bend tunnel, on the Chesapeake & Ohio Railway, thirty feet of the roof fell in, killing the fireman, badly wounding the engineer, and doing other damage.

The President of the United States has pardoned Capt. Moody, undergoing a term of imprisonment at Baltimore, to which he had been sentenced upon a trial for cruelty to seamen.

that the Government has hitherto acted a cowardly and ignoble part in regard to this matter; that Congress has shirked the issue year after year, instead of meeting it manfully, and that it is now, in the utter failure of this trial; that the beginning of the end has been reached; that "public opinion once formed will insist that the dishonesty and dilatoriness of the Government shall not be allowed to serve them by baffling the administrators of the law;" that the church authorities in Utah are highly elated at the result of the trial; that no doubt they calculate that this movement, like all preceding ones, will prove but a "pious fraud," and that then all public interest in it will cease. The U. S., however, hopes that they will be mistaken, and that a gallows will yet be erected at Mountain Meadow for the special benefit of the investigators and perpetrators of that massacre.

While we believe that all good citizens of Utah would rejoice to see justice done in this matter, we must say that most of the assumptions of our excited Sacramento contemporaries are not in accordance with the facts in the case.

SCABIES PENDLETONIANA.

The New York World is exceedingly severe upon the Pendletonian Democrats, and after calling them names of a character anything but nice, it continues in the following strain—

"Now, Scodum might have been saved in just one month could have been found in it; but we never did hear of a great triumph party letting itself be led into outer darkness, where there shall be weeping and wailing and gnashing of teeth, for the pleasure of a few straggling others. We have heard of certain Russian nobles in whom the itch was hereditary and incurable, contending that the itch was a aristocratic vice and a proof of noble blood. The scabies Pendletoniana is a well known local affection caught from the over familiarity with the Ohio and Indiana Radicals, of which the Democratic party came near being sick unto death in 1858. But sanitary measures were prompt and effective, nearly all who caught the disease have completely recovered, without danger of a relapse or of a return of the malady; and it is surely the height of impudence for a party claiming to be a party of reform to wish to inoculate the whole party over again."

WAITING FOR A TRAGEDY.—A tragedy is reported imminent in Wyoming, Iowa. Miss Etta Green, a sixteen-year old girl of that town, affirms that the cabler of the bank there seduced her under promise of marriage, and now she swears she has devoted her life to taking his. She is reported to go armed and to be on the continual look out for the guilty gentleman who has deceived and betrayed her. The Monticello Express thus remarks—

"A man is employed to sit in front of the bank, and see that she does not gain admittance. When she is restrained, or Foulke leaves town, a tragedy seems probable. The sympathy of the citizens, as nearly as we can learn, seems to be mainly with the girl."

Letters of Distinction.

CENTRAL AMERICA.

Civil War Imminent.

PANAMA, I.—The electoral struggle for presidency of the U. S. of Columbia is over, and a general war, and a civil war of the country.

Victims Shot.

President Gonzalez, of Salvador, had about fifty of those engaged in the recent fanatical outbreaks, shot in squads in towns between San Miguel and the capital, causing the people who witnessed the scene to witness the executions. Many of these victims confessed that they were set on by the padres by telling them that they might rob the rich, provided they gave part to the church. Great sorrow and indignation are expressed throughout Central America at events in San Miguel, in which respectable clergymen join.

Monks Among the Rioters.

An inquiry into the latest revolutionary movement in Peru shows that at Arequipa the friars of the convent of Our Lady of Mercy were actively concerned in the revolt. Some forty conspirators were captured in the monastery, and the bishop of the diocese has been applied to to close the rebellious institution.

A Shocking Railway Accident—Frozen to Death.

On the night of the 6th, one of the most horrible railroad accidents that has ever happened in Chili occurred on the Santiago and Valparaiso railway. As a train from Valparaiso was passing over the bridge at Limache, that structure gave way, and with the exception of the engine and tender, the whole train, containing fifty persons, was precipitated into the river below; the lamps were broken in the fall, and the oil running out ignited and set fire to the larger part of the wreck. Fully one-half of the passengers were either crushed to death or perished by fire or water. An investigation went to show that the accident was caused by the dereliction of the bridge, which was condemned by an engineer as unsafe several months ago, without any measures being taken to remedy it.

The cold has been so intense in the province of Rancagua, Chili, that four persons have been frozen to death.

GREAT BRITAIN.

Carlist News.

LONDON, 10.—A dispatch from Miranda, Spain, says that all the Carlist villages on the plain of Alcala have submitted to the government of King Alfonso. The Carlist forces are concentrating in Navarre, on the frontier of Biscay. Don Carlos has been seen at Logrono, and the Duke of Dura says that a Carlist force of three thousand men, made up of day laborers from the Basque provinces, will open five thousand Carlists, under General Dorregaray, passed through Burgos yesterday, towards Orense, expecting to be met by the Duke of Dura, and to intercept a number of convoys.

Some battalions of the Carlist army of the north are also advancing on the frontier of Biscay. The Carlists at the latter place made a sortie yesterday, but were promptly repulsed by the Alfonsinos with numbers killed and wounded.

TO-DAY'S DISPATCHES.

EASTERN.

Meeting of Police Commissioners.—The Police Commissioners met yesterday for the purpose of discussing the proposed Municipal Elections in Italy.

New York, 11.—At a meeting of the police board yesterday the discussion of Saturday's riot, and the contemptuous attitude of the missionaries, was continued. A question of severity was raised between Commissioners Smith and Disbaker. Smith asserted that Disbaker offered to support his measures and to vote for him as president of the board if he would put a stop to the paper attacks on Disbaker. Commissioner Disbaker, however, said that he had said anything of the sort, and accused General Smith of disingenuousness in condemning the missionaries of the police force.

The decree in regard to the public sale of the property of the Northern Pacific railroad was so amended yesterday that the present, so much of the company's lands as consists of lands granted and conveyed to it by the government, and a large part of the lands have not been surveyed and cannot be distinguished from the public domain. No deed has been given the company for the part of the land which has been surveyed, and in case of a sale the company could not give a valid deed to the purchaser. It is said that the government refuses to give a deed to these lands, because the company declines to pay for the survey. The original decree, in regard to the sale of the lands, provided for the payment of all sums due for money borrowed by the company, and for the mortgage debt or to pay for the labor and materials for the repayment of which any former or present officer of the company, or any other person, had received or was to receive, not to exceed \$100,000 in the aggregate, to be paid *pro rata*. The amended decree directs this to be stricken out.

A letter from Rome says that the Pope has given special orders for preparations for the reception of the American Cardinal.

Another Italian paper states that no proclamation of unity, and that no sufficiency of political and administrative legislation can destroy the traditional and hereditary local interests, and that at the present moment Italy has resolved to maintain the independence of the provinces, and with the exception of the common points of interest the inhabitants of each state occupy themselves with the affairs of their own provinces, and are not less than with those of foreign countries. The news of the triumph of the clerical party in the elections of Florence, Genoa, and Verona has raised hopes in Italy, and indeed almost the only topic which interests all Italy at the present moment is precisely the municipal elections in Venice. The liberals allied themselves with the clerical party against the moderates, and succeeded, but in Florence and Genoa, especially the latter city, the clerical party allied themselves against the liberals and obtained a still more brilliant success, for out of 7,169 electors, 5,452 went for the clerical, and but 23 liberals were elected. The entire people are anxiously awaiting news of the Venetian election, but it is certain that the clerical party will carry the day, and for the first time since the year 1860 the moderates and clericals have openly and avowedly joined hands and formed an offensive and defensive alliance against the liberals, who have hitherto administered in the provinces. An explanation of this change is that nearly all the communes of Italy are now under the control of the clerical party, and the clerical party are looking out for new men, but they can have no other party recognized yesterday as their common foe.

Another Failure.

A London special says that Shaw & Thompson, engaged in the iron trade, have failed; their liabilities are estimated at £200,000 sterling. It is believed that the failure will not more than £50,000. The announcement of this failure may be taken as a sign of a dropping tendency to the market.

CROP PROSPECTS.

CINCINNATI, 11.—The Gazette special from a hundred and forty county seats, where the late frosts occurred, say that prospects are better than expected. Wheat and corn have suffered less from the frost of the former two-thirds of the crop will be saved; of the latter less than half the crop can be saved.

Bonds Rejected—Escaped Convicts Deported—Fugitives from Outlaws.

St. Louis, 11.—The surety bonds of M. A. Avery, indicted for the murder of a man, were rejected yesterday for complicity in the whiskey ring fraud, arrived yesterday from Washington, and being ordered to leave the city. Avery was indicted for the murder of a man, and was ordered to leave the city. Avery was indicted for the murder of a man, and was ordered to leave the city.

The Globe-Democrat learns that some twelve families have been forced to leave Williamson County, Ill., the past week, to escape the vengeance of outlaws who run that county, and are now busy arranging their business affairs preparatory to leaving.

Ordered to Panama—Yellow Fever.

WASHINGTON, 11.—U. S. war vessels have been ordered to Panama and Aspinwall, owing to political disturbances in the U. S. of Columbia.

In relation to the testimony of Col. Long before the Senate Committee on Indian Affairs, Assistant Secretary Cowan states that no floor has been paid for at Red Cloud agency by the Indian office, except that which had been paid for the purchase of goods.

The Surgeon-General has received the following dispatch:—

"St. Bernard, 11.—No new cases or deaths; every patient is convalescent."

B. R. Hall and T. W. Allen, "Peg Leg" Brown, recently arrested for complicity in the Treason.

any robbery, were brought before the police court this a.m.; each was examined, and in each case a \$400,000 bail each, were committed to jail.

Another Railway Accident.

BALTIMORE, 11.—A special from Staunton, Va., says that a freight train was passing through the Big Bend tunnel, on the Chesapeake and Ohio Railway, thirty feet of the roof fell in, killing the fireman, badly wounding the engineer, and doing other damage.

Another Railway Accident.
