ANOTHER "OPEN LETTER."

Dear Public:

We have often observed how naturally, when you wish to purchase any article of comfort or necessity, you endeavor to procure it at the lowest possible price, cheapness generally constituting the most important point in favor of buying. This frequently proves mistaken economy, because low-priced goods must be made of inferior materials, consequently such goods invariably fall to give satisfaction; in perhaps no branch of trade is this fact more apparent than in Boots and Shoes. We are not advocating high prices, however, but take great pleasure in stating that the policy we have adopted of using only the best materials, and making none but good, "honest" warranted Boots and Shoes, has gained us hosts of customers, who, as evidence they are satisfied that our goods are well made and truly cheep, always come again and send their friends. Any defect in workmanship is repaired free of charge. Old Boots and Shoes are made "amaist as guid as new."

In addition to the goods of our own make, we keep a choice assortment of the best qualities of imported Boots and Shoes, including Rubbers. etc., suitable for the season.
