WITCHES JEWELRY  
ABOUT three months ago all the watch-  
makers in this city agreed and sub-  
scribed to a certain price for the pur-  
pose of obtaining uniform  
rates. This agreement, how-  
ever, has already been broken by several  
watchmakers, who are underselling their  
competitors and thereby pro-  
voking the wrath of the public.  
In consequence of which, the undersigned  
has decided to sell his watches at a  
reduced price, and to give the public  
the best satisfaction.

EASTERN.  
METROPOLITAN MINUTELAND.  
General Stock Transactions.  
New York, 21.—The break in the Union Pacific was caused by an announcement that the Atchafalaya, Topeka & Santa Fe and the St. Louis and San Francisco roads had been sold to the Union Pacific. The marked decline in Erie was due largely to the report of negotiations with Vanderbilt by a syndicate representing the Wabash system of roads, for the purchase of 200,000 shares of his New York Central stock. That such negotiations have been going on is undoubtedly true, but it is also quite certain that they have been suspended temporarily, and are probably finally closed without result.  
The Graphic referring to this subject says: "The present bear campaign which looks near, if indeed has not already reached its culmination, has its origin strangely enough in a transaction destined to prove an important bull element in the stock market. This transaction is of a magnitude unprecedented, if approached in the air of the Stock Exchange. Now that confused and conflicting statements of the affair are rife, we present the following account of the transaction, which will, we are persuaded, prove to be correct."  
Some time ago a syndicate composed of some of the richest of our home bankers and American bankers residents in London, and a number of railway men proposed to buy from Vanderbilt 200,000 shares of the New York Central stock and place it upon the London Exchange, thereby, at the same time, agreed to turn an immense amount of traffic over the Central system of roads. This would of course benefit the Central system to the detriment of Erie. Thereupon a bear pool was formed to sell 10,000 shares of Erie. This pool it is thought, has demonstrated the whole market, except the Central system. The result of the determination to be carried out all the trunk lines would be benefited except Erie.  
In this connection, another financial writer says: "We learn from a source entitled to credit, that Gould's sole object in breaking the market was to get back a large line of stocks which he had sold at high figures. He was joined by John D. Rockefeller and Sage, both of whom are interested with him in western and southwestern properties. Yesterday Gould bought back 60,000 out of 100,000 shares of Erie which he had sold at a larger portion of other properties of which he was short. The understanding last evening was that Erie was the key to the market and that it would be further broken down in order to get the remaining 40,000 shares. While this was being done the market was left under control by a clique, and after all the Erie which Gould required would be carried upward."  
That there were no failures yesterday is due to the fact that the majority of brokers had been confining themselves to a legitimate commission business, and had no speculative interest in the market. The game in the market was left to Keene and Vanderbilt's following on the bull side, and Gould, Sage, Rockefeller, and their followers on the bear side.  
As the stock brokers say, the shower at the Stock Exchange is over and the umbrellas are returning in their cases. Yesterday means that the excitement in the stock market has waned; that the decline in stocks has been checked and prices are advancing. The fact that there was only one failure after the great decline, is spoken of as showing that the losses were in good part only the wiping out of profits on paper. The recent break was a case of large profits, and some of whom were heavily "short," of the entire list and some of whom were "short" only a moderate amount of general stocks, and was an opportunity to buy the stock which they had sold out, and which they needed in connection with their plans. Of the latter kind the Wabash stock may be said to have been chief. The speculators who wanted Wabash were also heavily short of coal stocks, and there was a general short interest in Erie.  
The Tribune says: It is now understood that there is an obstacle in the way of the completion of the arrangements for the sale of 200,000 shares of New York Central stock by Vanderbilt. The syndicate of buyers wishes to bind him not to sell any more of the stock for a year. Vanderbilt is reluctant to do this, and the condition is held to be untenable. The syndicate denies that he entertains the proposition.  
The stock market is strong and speculation very firm in tone, the Erie and Erie of yesterday being entirely disappeared. Prices advanced steadily from the opening till noon, when an improvement of from 1 to 7 1/2 per cent. had been established.  
The South American Sea light.  
A dispatch from Valparaiso of the 19th states that all the Peruvian ports, the blocks of which were raised about a month ago, have again been blockaded, and cut off from communication with the outside world.  
A letter from Antofagasta, in a supplement to the Star and Herald, Panama, giving details of the fight with the Peruvian iron-clad Esmeralda, says: "The scene on board the Esmeralda at the moment of her surrender, baffles description, and on seeing the wreck composed of pieces of thick iron, twisted into every conceivable shape, splinters of wood, broken rifles, swords, furniture, all mixed with fragments of flesh, the deck flowing in blood, one could only gaze in wonder at the deadly effects of modern arms. The cable of the commander was a fragment of part that could be found of the second commander was in a frightful condition. One of the large balls had struck him in the head, carrying the whole upper part away, and leaving only a fragment of the lower jaw with the beard attached. On the right leg were four wounds, the right arm and shoulder being completely smashed. According to the Esmeralda's roster, there were over 60 persons missing. These are accounted for by the statement that from the bursting of shells some of the crew were blown into

the sea, while others were torn into fragments. So rapid and fatal was the firing that the deck of the Esmeralda was completely cleared, and it was difficult to find any one to run the risk of coming up to lower the flag, four in succession having lost their lives in the attempt, until it was finally lowered by a negro. It is thought \$30,000 will make the Esmeralda fit for sea and fight again, although her whole upper works were knocked to pieces by the Chilean shells.  
The condition of affairs in Lima is anything but favorable. A ministerial crisis followed the capture of the Esmeralda, and a new ministry was not formed until Piérola, the great rival of Prado for the presidency, was called in. Prado has become unpopular, and no serious trouble would be expected in developing him unless his politics at Arica determine to sustain him.

Help for Ireland.  
A dispatch from Baltimore, Pa., says: There will be a general turning out of the Irish Nationalists throughout the State tomorrow. At a meeting of the Nationalists at Mahoney City it was resolved to take up the cause of Davitt, Kilken and Daly. In nearly every village, town and city in the country, the Irish are lodged in the Fenian Confederacy, and meetings of these organizations have been called for tomorrow. The leading officers of the Ancient Order of Hibernians say hundreds of members are anxious to depart immediately to Canada to invade British territory, and to support the cause of the Irish people.

Services in commemoration of the twenty-fifth anniversary of the consecration of Bishop Horatio Potter, of the Diocese of New York, were held in Trinity Church today. The seats in the nave were reserved for the clergy, who entered through the lower door on Broadway, the other entrance in the sanctuary entering through the side doors on Broadway. The sittings were soon occupied. A great number of clergymen were present and very many of the more distinguished laymen.

CAPIAL CHAPTER.  
The Central Pacific Makes Another Payment.  
WASHINGTON, 22.—The United States Auditor of Railroad Accounts has received a communication from the Central Pacific Railroad Company, enclosing a check for \$609,680.69, which, in connection with the amount due the company and the United States Treasury for Government transportation, (both on its subsidized and unsubsidized roads) between November 6th, 1869, and June 30th, 1878, fulfills the requirements of existing laws in regard to the payments to the Government of 5 per cent. of the company's net earnings during that entire period. The suspended until further instructions shall be received from the Supreme Court shall request such applications after being registered on pending applications will be received from the applicants. Trade marks will hereafter be registered on pending or further applications only in favor of those persons who with full knowledge of the decision of the Supreme Court shall request such registration. The fees heretofore paid in trade mark cases cannot be refunded without further legislation by Congress.

Trade Mark Circular.  
The Secretary of the Interior has issued the following: The Supreme Court of the United States having adjudged the act of July 8, 1876, relating to the registration of trade marks to be unconstitutional, action on pending applications will be received from the applicants. Trade marks will hereafter be registered on pending or further applications only in favor of those persons who with full knowledge of the decision of the Supreme Court shall request such registration. The fees heretofore paid in trade mark cases cannot be refunded without further legislation by Congress.

Wool Market.  
BOSTON, 22.—The wool market during the past week has been more excited than at any time this year. The news of the buoyant opening sales in London caused a rush of buyers here, but they found the most of desirable wool held at considerable advance; and the market fell to two or three cents higher than last week with a decided upward tendency.  
A Just Judgement.  
CHEYENNE, 22.—D. D. McCann, found guilty of disposing of government property while he was United States Indian contractor, was sentenced by the United States district judge, to-day, to a year and a half imprisonment in the penitentiary, to pay the cost of the suit and a fine of \$1,000, and to replace the property stolen.

NEWCASTLE, 22.—Five prisoners, two white, were whipped to-day, each receiving 20 lashes. All were convicted of larceny.  
A Brute.  
COVINGTON, Ky., 22.—Henry Percival, convicted of incest with his fifteen-year-old daughter, was sentenced to two years in the county jail.
