BY TELEGRAPH

PER WESTERN UNION TELEGRAPH LINE.

AMERICAN.

METROPOLITAN ITEMS.

Business Report.

NEW YORK, 5.—To-morrow's *Public* table will show that the Clearing House returns no longer give signs of unchecked activity. Several towns show serious losses for the first time, and at many other places an increase by no means so heavy as recently. Compared with the corresponding week last year, the following towns have lost:

San Francisco	14.0	Louisville	36.6
Milwaukee	39.6	Syracuse	8.0

The following have gained:

New York	27.5	Pittsburg	23.9
Boston	24.8	Providence	5.8
Philadelphia	26.7	Kansas City	58.1
Chicago	40.3	Indianapolis	32.7
Cincinnati	21.5	Cleveland	41.0
St. Louis	22.4	New Haven	34.3
Baltimore	5.9	Lowell	49.9
New Orleans	40.0		

Probably it would be a mistake to suppose that the improvement in business has now been permanently arrested, and yet it has evidently received a check until the unnatural advance in prices has been followed by a sufficient decline to invite liberal consumption, and to place our industries in a safe position. With respect to foreign competition, it must be expected that the increase in activity will not be large. The decline in prices have not yet reached that point in some important branches of trade, and the disposition of holders and producers to resist it as long as possible operates to prolong the unhealthy and comparatively stagnant condition of the markets. There is not a little uncertainty as to the future. Large crops here and in Europe at the same time would now be very disadvantageous to us, perhaps even more than a comparative failure of crops in this country, but the indications thus far are that the crops will be large both in this and other countries. Trade has been quite active and yet dealers begin to suspect that it may have been of such a character as to give little promise of continuance, for in some respects it has resembled the trade of the year 1866, when large purchases were made to replenish supplies which had been exhausted during the five years of the civil strife. Manufacturers have advanced the prices of many products so much as to check consumption, and so much as to encourage many strikes for higher wages. In short, the country has been trying to get rich too fast and a check has come. Whether it is to be lasting or brief, depends very much upon our promptness in adjusting business to natural conditions of supply and demand.

What Kalloch Deserves.

The *Herald* comments as follows: Kearney, having been safely provided for according to his political deserts, San Francisco is now devoting some long deserved attention to Mayor Kalloch, who might justly have claimed a prior right to the new spring suit which the State has presented to Kearney. The judiciary committee of the board of supervisors having reported that the Mayor has encouraged the lawless and discontented element and kept them in the humor for an outbreak should he want one; that he is unscrupulous and devoid of integrity and fidelity to the public interests and should be the subject of judicial inquiry, the board, with Kalloch in the chair, by a unanimous vote, adopted the committe's report, and ordered proceedings looking toward the mayor's removal from office. That he will be removed seems certain, but it is not so certain that the proceedings against him will then end. If he is guilty of the same offenses that Kearney committed, he is doubly deserving of punishment for all that is charged against him, which he has done from the highest official position in the city of San Francisco, through her good natured neglect, has done more than any city in the Union to encourage the most dangerous order of demagogues. She can never have a better opportunity for atonement than Kalloch's case supplies, and she should improve it.

No Money, No Court.

The United States marshal having notified Judge Shipman, who is now holding the United States District Court in this district, that he had no money with which to pay jurors and witnesses and officers of the court, his honor discharged all the jurors except those engaged in the trial of the kid glove reapportionment case, remarking that no cases could be tried until Congress made the requisite appropriation to carry on the courts. Considerable dissatisfaction was expressed at this state of affairs.

Cause of Mexican Opposition.

Gen. Escorbedo has arrived in New York. Speaking to a reporter, who asked him how the Panama canal would affect Mexican interests he said: "The only feeling of opposition to the project springs from the idea that the completion of the canal will injure the railroad between Tehauntepec and Mazatlan; but, in my opinion, there need be no anxiety on that account."

The Silver Question.

Edward Daniels addressed the Bullion Club last evening upon the present aspect of the silver question. He dwelt upon the demonetization of silver and its consequences, and what he claimed to be the advantages of a bi-metallic debt-paying money, as he expressed it, and predicted that soon there would be another panic.

Favorable to Government.

In the United States Circuit Court to-day, the jury, by direction of Judge Shipman, gave a verdict in favor of the government in the case of A. T. Stewart & Co., against F. A. Merritt, collector of the port, involving the question as to the validity of the reappraisement of kid gloves by the collector.

Fatal Gas Explosion.

A Lykers Pennsylvania dispatch states that an explosion of gas in Short Mountain colliery killed Geo. West, Simon Kneilly and Michael Douglas and probably fatally injured Thos. Evans and Robt. Thomas.

NEWS FROM THE WEST.

From China and Japan.

SAN FRANCISCO, 5.—The steamer *Gaelic*, from Hong Kong via Yokohama, has arrived with Hong Kong dates to April 7th.

Affairs between China and Russia are still threatening. Rumors are current of a conflict between the troops of the two nations on the Tli frontier and of the Chinese forces having crossed the Ametor River.

Chung How, late ambassador to Russia, and contractor of the treaty at Livadia, is under sentence of decapitation approved by the Emperor.

Li Yung Chol, leader of the Kwangsi revolt on the frontier of Anam, and some months ago reported captured and executed, is now said to be alive and at the head of forces in the mountains. The alleged execution was a fraud by the governor of Kwangsi. Some Coolie or unimportant officer of Lis' army was taken prisoner and said to have been made to personate him and beheaded in his stead.

The Chinese in Hong Kong have subscribed liberally to the Irish famine relief fund. A significant stipulation was made at a public meeting that a large amount should be forwarded to the mayor of Cork for distributing among the distressed in that district, the home of the governor, respect for whom is sincerely felt by the Chinese residents.

The chief justice of Hong Kong, in sentencing kidnappers, said that the servitude existing in the island is slavery, cruel and despotic, and expressed his belief that the governor would succeed in eradicating it. It was a violation of the English laws and he would severely punish all convicted before him.

Yokohama, April 16.—The continued depreciation in paper currency is ascribed to undue speculation in rice and paper, hence the exchanges are closed for a time for official examination of their affairs.

Regulations have been issued for the control of public meetings, in view of the agitation by some demagogues for the representative assembly.

The government is working gradually toward granting a constitution, which will arrive when the nation is ripe.

A Japanese man-of-war with a special envoy sailed to make a friendly visit to Persia, thence will proceed to the Mediterranean. Another will shortly visit the Pacific Coast.

An explosion occurred in the Lukasima coal mine near Magask. About fifty were killed and still more injured.

The chief mate of the *Centennial*, an American ship, was shot dead by the second mate at Kobe. The assassin is held for trial.

Death on the Bench.

William P. Daingerfield, presiding justice of the Superior Court, dropped dead on the bench at noon to-day. He was hearing a case when he suddenly threw up his hands, grasped once or twice and expired instantly. He has been in poor health for some months past. His death is attributed to heart disease. Deceased was a native of Virginia, aged 56, and was Judge of the Twelfth District Court previous to the reorganization of the judiciary under the new constitution. His body was laid out in the court room, pending the arrival of the coroner.

The death of Judge Daingerfield has called forth a general expression of regret. A meeting of the judges of the Superior Court was held this afternoon to draft and adopt resolutions of respect to the memory of their deceased president and to decide upon offering their services to the family as to the funeral. The members of the bar will meet to-morrow to take steps to properly honor the memory of the late judge.

THE NEW VICTOR.

SIMPLICITY SIMPLIFIED!

Improvements September, 1879.

Notwithstanding the VICTOR has long been the peer of any Sewing Machine in the market—a fact supported by a host of volunteer witnesses—we now confidently claim for it greater simplicity, a wonderful reduction of friction and a rare combination of desirable qualities. In short, it is a beautiful specimen of mechanism, and takes rank with the highest achievements of inventive genius. We—We do not lease or consign Machines, therefore, have no old ones to patch up and varnish for our customers.

We Sell New Machines Every Time.

Liberal terms to the trade. Don't buy
