

MINING, BUSINESS AND STOCKS.

DALY-WEST WAS ACTIVE TODAY.

Nearly 600 Shares Changed Hands On the Exchange.

UNCLE SAM REMAINS STEADY

Dexter Was Stronger—Tetra Firm—Sunbeam Weaker—Con. Mercur Sells at Lower Prices.

Business was much brisker on the mining exchange this morning owing principally to the heavy trading in Daly-West. Over 500 shares of stock changed hands, which represented a selling value of \$44,000. To this sum Daly-West contributed something over \$20,000, the proceeds of the sale of 676 shares, which changed hands at prices varying from \$29.60 to \$29 per share. Uncle Sam fluctuated between \$2.65 and \$2.10 per share, while Ajax sold as low as \$1.48, but closed a little stronger around \$1.50. Con. Mercur loosened up small lots at \$2.75 and \$2.78. Daly was active around \$2.25, while Dexter opened at \$2 and moved up to \$2.55. May Day opened at \$1.60 and weakened to \$1.50. Sacramento, sold down to \$0.40. South Swansea was weaker at \$3, while Sunbeam hung around \$7. Tesora loosened up a couple of hundred shares at \$1 and 95c. Valco dropped 100 at 20c, while Ben Butler opened at 20 and weakened to 20c. Boss Tweed loosened up 1,000 at 20c. Tetra was active at 18c while West Morning Glory led 2,000 shares at 6c.

UTAH, IDAHO, THE WORLD

Three new maps, just issued, Utah and Idaho on one side, the World on the reverse side, including population of counties and towns according to the 1900 census, with a brief sketch of every country in the world. Size 27 1/2 x 43 1/2 inches, value 15 cents; sent to any address for 25 cents. Address: The Deseret News.

For digestive weakness, nervousness, pains in the side, flatulence, dizziness, wakefulness, headache and other annoying accompaniments of constiveness, BEECHER'S is a prompt and unequalled remedy. Price, 50 cents. Z. C. M. I.

SHIPMENTS FROM UNCLE SAM

Mine is Sending Out a Car of First Class Ore Per Day.

DEXTER SHIPMENT ARRIVES

Paria Company's Copper Mine—South Swansea Will Ship Returns from Beaver County.

The Uncle Sam Consolidated marketed 5 cars of ore today, which netted the company \$5,520.25, or over \$1,100 a car. The assays showed the presence of 64.2 per cent lead, 31.6 ounces silver, and 90 cents gold per ton. Another lot of 5 cars is at the sampler and the loading of 6 more cars has begun at the mine. Manager David Evans said today that the company is now shipping about a car of ore daily which the company's gross receipts will run about \$30,000 per month. As the expense of operating the mine is about \$5,000 per month, it is evident that at the present rate of shipping the company can enter the dividend list with the payment of 4 cents per share and still leave a nice balance in the treasury.

DEXTER SHIPMENT.

Output for Latter Half of July Valued at Nearly \$8,000.

Secretary George Ains, of the Dexter-Tuscarora company, announced the arrival of the output for the latter half of last month. The shipment consisted of two bars of bullion valued at \$5,700 and a lot of cyanides, the estimated value of which is \$2,300. The value of the shipment is said to run close to \$8,000. The output for the first half of the month is said to be \$5,800. On this showing the company has received over \$14,000 as the result of its mill run for the past six months, which indicates a slight improvement in the grade of the ore milled, as the result of the management opening up the Tuscarora vein.

PARIA COMPANY'S ORE.

Found Northeast of Kanab and Runs as High as 60 Per Cent Copper.

Nephew Jennings of Levan, who is heavily interested in the Paria Mining company, reports a very encouraging showing at the property, which is located about 30 miles northeast from Kanab, Kane county. To a friend Mr. Jennings is reported to have said a few days ago that the group of five or six claims is showing every evidence of turning into a bonanza. A small force is steadily engaged in the development of the property, and some very rich grades of ore are being extracted. Samples sent today show from 50 to 60 per cent in the red metal. An assessment of 3 mills has just been collected, which turned \$1,500 into the company's treasury. It is the intention to continue the development of the group, although, as it is located about 120 miles from Belpah, the nearest railroad point, it is not likely that the company will be able to realize much without a smelter, to convert the ore into bullion. At the rate that ore is being opened up it is said that it will not be long before sufficient ore is developed to justify the erection of a small plant.

A SPECTACULAR SHOWING.

Mines of U. S. Distributed Nearly \$8,000,000 in Dividends in July.

The metal mines of the United States made a good showing during July, paying out \$7,800,000, the second largest distribution this year. Of the 59 companies in this group, three copper properties paid \$4,885,947, of which the Anaconda company alone contributed \$3,041,170, which was the first quarterly dividend of 2 per cent on its new issued capital of \$150,000,000. The next largest payers were the 42 gold, silver and lead companies, furnishing \$2,915,087, which was the biggest amount paid in any month this year. It is notable that three of the leading Cripple Creek, Colorado, gold properties increased their dividends during the month: Stratton's Independence, Limited, which is largely controlled by British capital, increased its annual rate from 15 per cent to 20 per cent, on a \$5,000,000 outstanding share-capital; the Victor company, which was the first quarterly dividend of 2 per cent on its issued share-capital of \$1,100,000; and the Mary McKinney came forward with an extra quarterly payment of 2 per cent on its \$2,000,000 share-capital. It is also worthy of remark that Dalton & Lark of Utah, distributed among its stockholders, \$25,725, or 10 1/2 cents per share as a clean-up dividend, as its properties have been transferred to a new company. The American Smelting and Refining company paid the first quarterly dividend of 1 1/2 per cent on its new preferred stock of \$5,000,000. Two California quicksilver properties have been transferred to a new company. The American Smelting and Refining company paid the first quarterly dividend of 1 1/2 per cent on its new preferred stock of \$5,000,000. Two California quicksilver properties have been transferred to a new company. The American Smelting and Refining company paid the first quarterly dividend of 1 1/2 per cent on its new preferred stock of \$5,000,000. Two California quicksilver properties have been transferred to a new company.

Will Resume Sinking Shortly.

The new station pump of the South Swansea is now being set in place, and as soon as it is accomplished J. M. Wheeler says sinking will be resumed. Drifting will also be resumed daily pushing south from the new shaft. This work has been greatly retarded owing to the flow of water encountered in that direction. Mr. Wheeler expects to see many of the strata of ore found on the 600 and 700 levels run together in the next 200 feet. On the 700 level a number of small stringers of ore lie in a 40-foot vein, but between these stringers is a good deal of waste. Should they come together at greater depth a fine showing will be made, especially if the ore maintains its usual character. At present, however, more iron seems to be entering into the ore on the lower level, while the silver and lead values are slightly less.

Returns from Beaver County.

W. C. B. Allen, who is well known in mining circles, has just returned from an extensive trip to Beaver county. Mr. Allen says he was surprised at the amount of development work being done in the Star and Price districts. He made a careful study of the surface showings and visited the Imperial and other properties and is convinced that Beaver county will produce some big mines in the near future.

side of the Horn Silver and other old producers. The Imperial company is driving a deep crosscut tunnel to cut a big copper-bearing dyke. Its bearing on the camp will be most important. The operations are the old Savage property which is being handled by the Majestic company, are also very encouraging. Taken as a whole the outlook for Beaver county is said to be very bright.

Copper King Changes Hands.

The Copper King group of six claims in Beaver county was today transferred from L. N. Morrison and A. J. Bottles, who have held an option on the property to the Blue Bird Copper company, represented by Dr. P. A. H. Franklin.

The price is not stated, further than that it is a snug sum. The group is located in the Great mineral zone between Milford and Tetra.

Paria City Shipments.

The Record gives the following shipments of ore from the Mackintosh sampler for the past week:

Daly-West.....	1,500,000
Ontario.....	1,390,000
Anchor Con.....	435,000
Alfredia.....	50,000
Quincy.....	1,305,000
Barnes Bros.....	21,000

Total number of pounds 4,711,000

Silver King.....1,293,230

Grand total.....6,004,230

Little Bell Development.

The Park Record says Supt. J. H. Keetley of the Little Bell is busily engaged driving the shaft down the property. The shaft is now down 15 feet and three sets of timbers are in place. Only one shift is working at present, owing to the fact that there are as yet no facilities for sharpening the steel at the Little Bell. This drawback, however, is to be remedied at once, and by Monday a force will be on the ground and three shifts of five men each put in the shaft to drive it down with all possible speed. The hoist is expected to be up and ready for business by the time the shaft has reached a depth of 50 feet when hoisting by machinery will be the order. The shaft is to be sunk entirely by hand, and as no machines will be employed, Mr. Keetley is now adding experience shaft men to his force, to begin work the first of the week.

Fifty Teams Hauling Ore.

There are now 50 6-horse teams engaged in hauling ore from the Peacock mine to the railway at Council, says the Boise (Ida.) Statesman. It is the intention of the company to put on 30 more as rapidly as they can be secured. The 50 teams bring in about 60 tons of ore daily. It takes from four to five days to make the round trip and each team hauls from five to seven tons.

MINING NOTES.

The May Day of Tintic marketed a car of ore today.

Four cars of ore were marketed today from the Carissa of Tintic.

The Lower Mammoth of Tintic had 3 cars of ore on the market today.

A car of ore was on the market today from the Last Chance of Bingham.

The Honoring, of Stockton, reached the market today with two cars of ore.

The Ben Butler of Bingham reached the market today with three cars of ore.

Some good samples of ore have been received from the Iowa of Park Valley.

A car of concentrates from leasers of the Boston Con. of Bingham was on the market today.

The Taylor-Branton sampler reported 10 cars of ore from the 500 level of Bingham and 2 from Stockton today.

Secretary George Hancock of the Centennial Eureka Mining company has gone East accompanied by Mrs. Hancock.

Morris Sommer has returned from the oil fields about 40 miles north of Price, where some 4,000 acres of oil land has been secured by the Judge and other parties.

David Evans expected to leave for Tintic this evening to examine the Carissa mine in which he is largely interested. He will also visit the Uncle Sam before returning.

Mammoth Record: Work is to be resumed on the Uma, near the Carissa, a contract having been let today to open the shaft to the surface, after which the drift to the ledge will be continued.

The Tesora had 19 cars of ore at the smelter today. About a car of concentrates and crude ore is now being shipped daily. Reports from the mill state that 1 1/2 per cent copper ore is being milled, going 3 1/2 into one.

Supt. Peter Martin of the Milford Mining company has purchased a whim for the property located in Star district. The bottom of the shaft is in ore, some of which assays 137 ounces silver, 37 gold in addition to a small percentage of copper.

S. N. Kintz, who has just returned from Marysvale, reports the big Elphinstone vein crosses at a distance of 20 feet. The values are low, however, though better ore is expected with greater depth. The crosscut is said to be only about 70 feet from the surface.

B. H. ROBERTS' NEW BOOKS.

Which have been in course of preparation for several months, are now ready for delivery.

"THE RISE AND FALL OF NAUVOO."

An invaluable work for Mutual Improvement associations, price \$1.25.

"MISSOURI PERSECUTIONS."

The first supply of which was exhausted, is now again on sale. Price \$1.25. Special terms to classes, quorums, Sunday schools and Mutual Improvement associations.

Buyers of ROYAL are protected by this label.

64 & 65 Merchants' Exchange

SAN FRANCISCO, CAL.

U. S. STEEL TAKES A DROP.

Other Stocks Sagged in Sympathy With That of the Big Corporation.

Boston Wool Market Is Steady and Fair Business Is Had—Reports From Different Exchanges.

New York, Aug. 6.—Prices of American goods at London were scanned with interest this morning, owing to the prolonged holiday in that center and the developments in the strike situation.

Business was suspended here. The prominent railways were higher on continental buying while United States Steel issues were 1/4% lower respectively for the common and preferred. The local market opened with quotations slightly mixed but showing improvements in the railroad stocks, which were weakest yesterday, especially St. Paul, which figured for a rise of a point.

The market generally halted pending a definite tendency to the United States Steel stocks. The preferred stock was supported and about cancelled an early loss of 1/4%. The common weakened and dropped 3/8%. It did not soon affected the preferred and it went back to the lowest, 89c. Other stocks then began to sag. Some of the leading railroads reacted to a partly or a shade below yesterday's close. Towards 11 o'clock a large demand developed for St. Paul, Atchison, Reading, Norfolk & Western, Union Pacific and Southern Pacific and they rallied 1 to 1 1/2 above last night. Large amounts of the steel stocks were pressed for, raising a decline of 3/4 to 1 1/2 in Union Pacific, Atchison, Manhattan and Sugar caused lower prices all round. The more favorable crop news started a covering movement in the grain markets and sugar and other prices were scant, prices rose rapidly. Atchison and St. Paul led the movement and rose 3/4 and 2 1/2 respectively. Improvement of a point were pretty general elsewhere and Sugar rallied 3/4. The steel stocks fluctuated only 1/4 or so and did not rise above the forenoon highest. Sugar, St. Paul, Atchison and Union Pacific ran up 10 1/2 before 2 o'clock and the list ended sympathetically. General Electric broke 4 1/2. There was another upturn in prices in the final hour but the improvements did not carry the market to top prices outside of the steel stocks, which brought 40 1/2, weakness at the close. A subsequent bear drive against St. Paul, Sugar, Atchison, Southern Pacific, Union Pacific and Missouri Pacific forced them from 1 to 2 1/2 below the best and brought about a reaction at the close. The steel common fell to 40 but the preferred was better sustained and held at 89c. The market closed weak.

WOOL.

Boston, Aug. 6.—The demand for wool continued strong and fair prices were prevailing. Manufacturers are buying freely to meet their present needs. The market continues to show an absence of speculation, but with purchases going on steadily into the future, the market is strong. Territory wools head the list of sales. Fine medium and fine sells for about 40 1/2c, while the strictly staple article is quoted at 40 1/2c. The wool is quiet for washed with available offerings small. There have been moderate sales of Australian wools, but heavy offers are small.

AT ST. LOUIS.

St. Louis, Mo., Aug. 6.—Wool, firm, unchanged.

WESTERN CATTLE SALES.

(Special to the "News.")

Unkles Stock, Fair, Aug. 6.—241 Wyoming, 85, 22 1/2; 400 Wyoming, 85, 22 1/2; 345 Montana, 85, 22 1/2; 334 Idaho, 85, 22 1/2; 630 Idaho, 85, 22 1/2.
