#### DESERET EVENING NEWS SATURDAY JANUARY 5 1907

Arrival in Salt Lake of Belated

people are supposed to be taking a financial rest, and doing very little

spending. A number of local jobbers are now receivinug Christmas goods ordered a month or six weeks ago, the delays being due to the congested condition of the railways, and the utter inability of the roads to handle freight with anything like celerity. What to do with the belated Christmas stocks is at present puzzling the consignees. A prominent jobber called attention, today, to James J. Hill's statement that a freight car traveled on the average 17 miles a day. This would make freights 50 days from the Mississippl river, and explain why freights are so long in reaching Salt Lake.

### WITH LOCAL BANKS.

WITH DOCAD binness has has been quiet, though business has been steady and good, with an increase in deposits generally, and a good feel-ing throughout local money circles. Rates continue a little higher, 7 to 9 per cent, as demand for money is be-coming stronger. Banking men ex-press themselves as satisfied with the situation.

situation. The feature of the week has been the transfer of Bingham Junction State bank to the control of the Cosgriffs, who are becoming each year a stronger

factor in intermountain finance. There was a possibility yesterday, that the deal might fall through; but the pro-spects later were that it would go through all right. The bank clearings for the year just closed, were figured up Monday, and amounted to \$288,175,-012.88, an increase of \$76,577,273.29 over the total clearings of 1905. This is con-sidered very encouraging, and an in-crease of nearly \$100,000,000 is anticipat-ed for the current year.

REAL ESTATE ACTIVITY.

real estate market continues

Arrival in Salt Lake of Belated Christmas Goods Puzzling Merchants. BANK CLEARING INCREASE. Figures for the Year Aggregate \$288, 175,012.88, an Excess of \$75, 577,273.29 Over 1895. The business record for the week has been more than fair, considering that it is immediately after the holidays,whan people are supposed to be taking a position to complain. ALL WINTER BUILDING. ALL WINTER BUILDING.

Contrary to expectations, there is a good deal of building going on about the city, with every prospect of un-precedented operations when spring opens. One eastern syndicate is pro-posing to erect 400 houses of five to seven rooms in the west and northwest parts of the duy for the accommodaposing to erect 400 houses of hve to seven rooms in the west and northwest parts of the city, for the accommoda-tion of railway employes, at an outlay of \$3,000 for each house; and half a dozen apartment houses are also scheduled for spring construction, one of which is well under way now. As the apartments will take care of 200 families, here are 600 families pro-vided for in prospect, which will re-lieve the rented house pressure. Then in addition to all this, contractors re-port prospects of hundreds of moder-ate homes as likely to be built in the spring, by parties intending to occupy them themselves. So that the pros-pects are excellent for a record break-ing year for 1907. The brick men re-port they are steadily getting into bet-ter condition with reference to their unfiled orders, so that in 39 days they can report ready for new busi-ness.

ness

DULL IN DRY GOODS.

The local wholesale dry goods mar-ket is rather dull at present, as it is right after the holiday week. But next week, the traveling men will start out

to sell for next fall's trade, and a large business is expected. The eastern mills are far behind with their orders, and in fact goods are now being sent out that were ordered last February and May, more particularly the finer cot-tons, the cause of delay being over acceptance of orders and troubles dur-ing the summer with operatives. Print cloths for the spring are slightly lower, but on other lines prices are as strong as ever. Eastern burlap stocks are re-ported as exhausted, with fresh ship-ments due to arrive some time this month. A heavy demand for silk plaids is reported, and eastern hills are being rushed on orders. The new novelties in silks for the spring will be shantungs with checks and stripes, woven in contrasting colors.

contrasting colors. WITH THE RETAILERS.

WITH THE RETAILERS. The retail dealers report trade in the past 10° ups the heaviest in local history. Said a silk counter salesman, "I have been in this business for 25 years, and have never seen anything like it." But just at present, dealers are not exerting themselves to stir up tride, as they have been taking ac-count of stock, and getting ready to open up trade for the remainder of the winter. However, the remainder of the winter. However, the remainder of the structure is no disposition to complain anywhere. anywhere

SPECIAL SALES ON.

SPECIAL SALES ON. Several of the local clothing houses have special sales on this week, and so are having quite a run of business. They are doing well also in men's wear, and hats. The shoe trade is considered, very encouraging, when judged by con-ditions obtaining one year ago. But at present the situation is a little quiet and is likely to continue so for a couple of weeks. However, the weathr has created a good demand for rubbers. Shoe men report the factores back east as making strenuous exertions in the manufacture of white canvas shoes. and the expectation is that there will be an unprecedented demand all over the country for this style of footwear in the spring in the spring.

HARDWARE BUSINESS. The hardware trade reports a tempo-

rary lull in some lines of goods, on ac-count of the reaction from the excite-ment of Christmas week; but the call for mining machinery and contractors' supplies continues as strenuous as ever-New sources of consumption are being constantly opened in Nevada, and there is more and more of a tendency to make Salt Lake a jobbing and distri-buting center for a long distance around. Indications point toward a around.

very busy season opening up along all lines in a comparatively short time. The agricultural implement men are anticipating a heavy business the com-. Western Idaho Sugar Co....

# BUSINESS NOTES.

The vast amounts of money paid out in dividends and interest at the begin ning of the year, and the great sums paid the beet sugar farmers are beginning to flow once more into their natural channels and money is now reported easier than it has been for sometime past. The effect of this always is to induce inquiry for the dividend paying stocks, and there has been quite a demand for securities during the week. Considerable transfers have been made of Utah Sugar bonds and Western Idaho stock, the latter seeming to lead all the sugars in activity. Several transfers of Utah preferred have also taken place. Slicing goes on at all the sugar plants, except those at Nampa, Backfoot and Idaho Falls, which have

closed their runs. Lehi, Garland and Sugar City will be kept in operation until near the end of January Bank stocks are strong and the Com-mercial National bank sold at \$175. It is now on a 12 per cent basis. Following are the latest quotations:

BONDS.

Los Angeles, Cal., Jan. 4.—Three persons are dead here as a result of ptomaine poisoning caused by eating canned beans. Henry Carter, a well known resident of Ontario, his daugh-ter, Miss Mabel Carter, 28 years of age, Charles Edward Abbott, partook of canned beans for luncheon while on a camping trip, and were almost im-mediately taken ill. They were able to return home, but the illness of all three terminated fatally. Miss Carter died yesterday and her father and Abbott today. 9.55 Abbott today.

ried Over, Inventories Equal

ter wheat in this country, while the Ar-gentine harvest is progressing rapidly. Shipments to Europe thus far this sea-son from all surplus nations have not reached the dimensions promised by large crops, and the smaller yield in Russia is a sustaining factor in the markets for distant options. But do-mestic trading lacks vigor, speculators at the best taking little aggressive ac-tion.

## CHEROKEE LANDS.

#### Suit Brought to Restrain the Partition Of Their Lands.

Expectations.

COMPLAINT OF CAR SHORTAGE

Large Steel Tonnage Contracted for-There is no Abatement of Railway Requirements.

New York, Jan. 4 - R. G. Dun & Co.'s Review of Trade tomorrow will say: The new year opens bright, with a promise of good business, no excessive stocks being carried over, and results of inventories fully equal to sanguine anticipations. It is noticeable in dispatches from the west that there was less than the customary lull in business during the holidays, while bargain sales are rapidly disposing of the moderate supplies remaining on hand. There is much complaint of car shortage from

much complaint of car shortage from northwestern flour mills and export trade is also restricted because grain and other merchandise fail to reach the seaboard promptly. To this delay may be attributed part of the decrease of \$1,749,665 in exports from this port for the last week, as compared with the movement a year ago, while imports exceeded the very heavy total for the previous year by \$1,581,590. Many contracts for a large tonnage of steel appeared during the past week

Of Their Lands. Washington, Jan. 4.-On application of attorneys representing the Cherokee tribs of Indians, the supreme court of the Dis-trict of Columbia, today ordered that cause be shown by Jan. 18, why injunc-tion should not be issued against Secy-of the Interior Hirchcock and Commis-sioner of Indian Affairs Leupp, to restrain them from a partition of the lands al-lotted to the Cherokee Indians, among members of the tribe born since 1902. The splication represents that in 1905 such of the 3,000 members of the tribe were slowen the acres from the allotment of 4-690,000 acres and an equal share of the 5,000 othen in the United States treas-ury to the credit of the tribe. The in-terior department, the petitioners allege, has decided to distribute the remainder of the land 22000 acres, among the 5,941 of the tribe born since 1902. The petition contends that this is illegal and that there abuild be a distribution of the property to the members who secured a portion of their share in 1903. LOPEZ MANZANO RELEASED. St. Louis, Jan. 4.—Aaron Lopea Manzano, formerly a member of the Mexican junta in St. Louis, was form-

Mexican junta in SL Louis, was form-ally released from custody by Judge Finkelberg in the United States couri-today. A charge of rifling registered letters was recently brought against him as a subterfuge to have him ex-tradited to Mexico, but nothing was found to substantiate the accusation, and the federal grand jury returned no bill no bill.

#### NEGRO LYNCHED.

Midway, Ala., Jan. 4.--A negro whose ame cannot be learned, was lynched are today for attempted assault. A here today for attempted assault. A posse swung him up to a tree and rid-dled his body with builts. The ne-gro Wednesday night entered the room of Miss Morrel King, daughter of a prominent banker at Midway. Her screams attracted the family and the negro escaped. A posse captured him yesterday, When brought to Midway today, he made a full confession and the lynching followed. the lynching followed.

Little Mug Manhattan Mining Co. A young claim that will soon develop into a valuable property.

> The Little Mug Manhattan Mining Company's property in the Manhattan district, Nevada, is in proximity to the properties of the Stray Dog. As You Like It, Manhattan, Indian Camp, and Jumping Jack, owned by the L. M. Sullivan Trust Co., each of which is at the present time shipping ore and the stock of which sells at 80c, 25c, \$1.10 and 55c respectively.

These stocks have more than doubled in value since they were placed upon the market, and we predict a similar experience for Little Mug Manhattan. That the strong veins which run through the above properties are found in the Little Mug Manhattan is proven by the development work already done, and It is the intention of the promoters of this company to expend \$25,000 in further development work in order to place this mine in a position to obtain commercial ore.

For this Purpose 100,000 Shares of Treasury Stock will be offered for sale

Subscriptions will be received by E. H. Mead Goldfield, Nev.

This stock will be picked up quickly and we advise early application as we positively decline to sell more than the amount of stock offered at this price at this time. Of the \$1,000,000 shares of stock issued 100,000 shares of treasury stock will be offered for sale for development purposes only, 300,000 will be held in the treasury and the balance of the stock, viz. 600,000 shares is pooled. The stock is non-assessable.

The officers of the company are: J. E. Galigher, President, (manager Utah Mining Machinery & Supply Co.); Jos. Oberndorfer, secretary and treasurer; Harry S. Joseph, general manager; Ed. C. Davies, fiscal agent.

This stock will be listed on the Goldfield and Salt Lake Mining Stock Exchanges, and within a short time should bring a decided increase over the price asked. Mr. Ed. Hoffman, former superintendent of the Carissa mine, Tintic, Utah, general superintendent of the L. M. Sullivan Trust Co.'s properties at Manhattan, has this to say regarding this property:

"Salt Lake City, Dec. 29, 1906.

To Whom it May Concern:

Subscriptions will be

received by

Provo, Utah

I have personally visited the Little Mug Manhattan Mining Claims and Consider the property a very good one. This property should, under proper management and development make one as good as any in the district."

This stock will be offered for sale beginning Monday, Jan. 7th, and the offer holds good only until Jan. 12th. Reservations may be wired at our expense and check made payable to J. Oberndorfer, Treasurer, must accompany the order by mail. Address all communications to

# ED. C. DAVIES, Fiscal Agent, LITTLE MUG MANHATTAN MINING CO. 514 McCornick Bldg. Salt Lake City, Utah.
