The Wahash property lies in the heart of the mineral zone at Park City and that it will prove a producer there is little doubt.

PAID \$10,000 FOR A GROUP.

H. L. Benner Purchases 14 Claims At Battle Mountain, Nevada.

H. L. Benner, former superintendent of the Sacramento, has just bought a group of 14 claims in Battle Mountain, Nevada. The deal was consummated yesterday by the payment of \$10,600 in cash to Will Eckman and Nels Olsen, who have held the claims for several years. Mr. Benner says he has taken held of the group and intends to make a bonanza out of them. He will leave for Nevada tomorrow to start work with a small force. He says that he can take out \$100,000 net with a small mill, without developing any more ore. He is certain that the rich values on the surface will be found holding out fairly well in the deaths, and he intends driving a tunnel into the moun-tain on the vein. In thus prospecting the vein he will secure a depth of about the vein he will secure a depth of a solu-1,500 feet. For something over a mile on the outcrop values have been found running as high as \$140 gold besides silver. The average is said to run \$30 gold and 30 ounces silver per ton. The gold and 30 ounces silver per ton. The group is located 12 miles from the rail-

BEN BUTLER SHIPMENTS.

Manager Jacobs Says He Expects to Receive \$10,000 This Month.

The Ben Butler of Bingham reached the market today with the first ship-meni for October. The lot consisted of about 130 tons. Another lot of four cars is also on the way. Manager Jacobs said today that he expects to market 400 tons of crude ore during the month. Arrangements have also been month. Arrangements have also been made to handle 600 tons of second class ore now on the dump. This will be hauled to the mill this week. As the hauled to the mill this week. As the result of the shipments for October Mr, Jacobs says he expects to take down fully \$10,000. With part of the sum he will on Nov. 9th, pay \$5,000 to McCornick & Co. on the purchase price of the Leona claim. If the mine con-tinues to do as well the balance of \$5,500 down to Departure on the above burchase

due Dr. Beattle on the above purchas will be paid in February next. The full price of the claim, it will be re-membered was \$12,000.

A \$1,200 NUGGET.

Brought to Vancouver from Headwaters of Spruce Creek, Atlin.

A dispatch from Vancouver, B. C., says: Dawson advices state that the Dominion government roads up Hunker and Dominion government routes up from a and Dominion creeks were completed and open for freight traffic on the first day of the present month. Thus a con-tinuous and uninterrupted highway from the very heart of the city of Daw-son is afforded by Hunker and past the Dation mouth of Lest Chance, Bold Bottom and Bear, and to Lower Dominion. R. A. Jackson and R. A. Lambert have brought to Vancouver a manmoth number from the bacouver a manmoth number from the bacouver of Spruce creek. Atlin. The sugget is five inches long, four inches wide and averages over half an inch ig thickness. It is valued at \$1,200.

Returns from the Sunshine.

George C. Moore, under whose direction work is being pursued at the Sun-shine company's property, returned from camp last evening, after spending several days underground. He says the several days underground. He says the mill will be started up next month ou ore now exposed on the 200 and 200 lev-els. No ore has yet been found on the 460, but he says a big body of ore car-rying from \$2 to \$2.50 in gold has been developed on those levels. About 200 tons per day will be handled in the mill.

Butte and Boston Dividend.

A Boston dispatch says: The Butty & Boston Mining company has just de-clared a second dividend. This time it clared a second dividend. This time it is \$2 per share, as against \$5, the amount of the first one declared in November, 1990. As all but about 1.003 shares of the Butte & Boston stock has shares of the partie & Borton stock any been turned into the Amalgamated company, most of that dividend, amounting to \$600,000, goes into the treasury of the Amalgamated.

Rich Quartz From Boise Basin.

Recent discoveries in properties in the Boise Basin all tend to make enthusi-astic any person interested in the advance of quarts mining there, says the Bolse States n.r., The Golden Charlot property, a late discovery, is proving richer than even its finder thought it would be, and now comes bonanza news from the Washington, Charles Balbach, principal owner of that property, yes-terday showed a sample of ore from that vein at the 309-foot level. It is ex-tremely rich in free sold, this material 208-9 Atlas Block . showing to the naked eye throughout the quarts, which is of the creamy white variety. The gold is in such

tions may be performed on the note, ear and eye without the spliling of a drop of blood. Such operations have also been performed with adrenalin in solu-

tion of one part to 16,000. Thus has it been demonstrated that the concovery is the most powerful medicine known, and at the sate. time it might be said the most expensive. Physicians buy it at \$1 a grain, or \$7,-600 a nound 000 a pound.

The isolation of the blood pressure raising constituent of the blood pressure raising constituent of the suprarenal gland is, of course, the chief virtue of adrenalin, and its uses and devel-opments along this particular line are unlimited. It has also been ascertain-ed, however, that adrenalin is a most never of a stimulant and it has owerful cardia stimulant, and it has been hinted by physicians that it may be possible to resuscitate persons who have died of heart failure. Premature childbirth may also be

made obsolete, as it is said adrenalia can be made to revivify the heart of the dead child. Work along these lines is now being carried forward by Dr. Takamine in his laboratory, and be-fore another year is gone it may be possible to perform amputations withastrons to the patient .- New York Her-
