STILL BEARING DALY-WEST.

Park City Stock Received a Severe Hammering Today.

All eyes were turned towards Daly-West during the forenoon sessions of the Mining Exchange. The public is mystified by its continued downward course and no one seeems able to understand why this Park City stock should depreciate as it has done during the past few days. The stock sold down to \$27 a share, and a message from Boston, received shortly before noon, conveyed the information that it was being offered at \$25 and that the closing bid had been marked up at \$24.

Grand Central was a seller again at \$4, but only a single ofder was filled at the price. Star Consolidated remains in the slumpish condition which has prevailed for several days, while Yan-kee Con. passed the day without change.

The sales posted were as follows: TODAY'S QUOTATIONS.

Mining Case Transferred.

The case of Mike Fallon vs the Silver King Mining company was trans-ferred from Summit county to the Federal court today. The plaintiff was in the employ of the company on Nov. 9 1903, as a miner, and while engaged in moving a pipe line in the shaft was caught in a cave and seriously injured. He estimates his damages at \$20,000, alleging carelessness on the company's past in allowing the mine to become

DIVIDEND MAY BE CUT.

The Bear Movement in Daly-West May Result in This.

The decline in the stock of the Daly-West Mining company was the princi-pal topic for discussion on Broker's Row today as well as among the lead-ing members of the mining fraternity. Nearly all the officers of the company are out of the city at the present time, both President J. E. Bamberger and Vice President J. D. Wood are in Los Angeles.

Treasurer W. S. McCornick, seen by a "News" representative at noon, declared he knew of no reason for the slump unless it was that some un-favorable reports had been sent out and that the eastern holders of the stock had been scared into selling it. "I can't account for it in any other way, only that someone has been doing some

knocking." Mr. McCornick said he had heard the report circulated to the effect that there would be a decrease in the monthly dividend, but he had not heard any such thing discussed by the directors of the company. He, however, was opposed to the raise made last September to 65 cents a share. The stock-holders, particularly those in the east, do not appreciate it. Since the occurrence of the past few weeks and the continued effort on the part of someone to bear the stock, he would favor cutting the dividend down. "I those eastern fellows want cheap stock, we might just as well give them cheap

dividends in return." Simon Bamberger, although not an officer in the company, he is, neverthe-less, a heavy stockholder. He said to day there is absolutely no occasion for the present bear movement in the stock. "I know one thing," said Mr. stock Bamberger, "If I had any voice in the direction of the affairs of the company I would be in favor of cutting the Daly-West dividend in two and give these bears a chance to kick and at the same time pile up a surplus of a million dollars in the treasury of the company, which it can do."
