PEOPLE WHO ARE VICTIMIZED.

Perhaps there are more people victimized in hard times than when money is plenty. For the reason that when there is a scarcity of ready cash people are caught by a "time" proposition, giving their sales payable at a future date, and without fully realizing that the time of payment is very near.

An illustration of this kind is given in the New York edition today. It is taken from an Idaho paper, where the schemer gets a "time" proposition, giving their sales payable at a future date, and without fully realizing that the time of payment is very near.

NOT REPRESENTING ROBBERS.

In a dispatch from Kansas City, Mo., it is said that "Bishop Andrew J. Stewart of the Church of the Latter-day Saints of Independence, Mo., is in the city in the interest of the Mormon colonies of northern Mexico. From time to time there have been similar references in the press to the Mormon colonies in leading newspapers. The fact is that Mr. Stewart is not representing the Mormon colonies of northern Mexico, in any official capacity whatsoever. He is a Bishop of any of the ecclesiastical wards in Mexico. He is associated with a colonization movement under his own personal direction, and as far as we know it is a perfectly legitimate business enterprise on the part of himself and associates. But any effort to connect it with Mormon colonization in Mexico, in official association with the faith there, is wrong. Mr. Stewart is, we understand, a Mormon, and is a devout and sincere Mormon, but his land grant, and all his operations are of a purely personal business nature, and do not have the slightest connection with the Mormon faith or its representatives.

THE STORY OF HUNTER.

Chances that the story is becoming famous for their financial condition and that consequently either health seekers afflicted with various diseases should in time take a lesson from the experience of Hunter. This city is situated by the coast of the Mediterranean and enjoys an almost tropical climate. In later years it has become a veritable Mecca for invalids, especially patients suffering from consumption. Forty years ago the tubercular disease of Hunter was a deadly enemy, and in those days the disease was almost incurable. But now, thanks to the efforts of the medical profession, it is a curable disease. The result is that today the whole city and vicinity are filled with men and women of all ages, who are suffering from the disease.
