

## BANK DEPOSITS ON THE INCREASE

Utah Cattle and Sheepmen Are  
Putting Much Money in  
Home Banks.

## AS TO SUBURBAN REALTY.

Building is Proceeding Rapidly Over  
The City Though It is Affected by  
Scarcity of Labor.

The business experiences of the week have varied with the weather. The sudden change from fair to raw, cold weather helped trade in some directions and injured it in others. In banking, money has been easier than it was, the regular bank rate of 3 per cent prevailing. Deposits continue to increase, quite heavy deposits being made by sheep and cattlemen, who have disposed of large amounts of live stock at eastern slaughtering points, and while actual money may have been deposited in the east, the credits are made at the Salt Lake banks, and the total amounts held in hand are thus largely increased. Bankers report an increasing demand for money, a factor being sums borrowed by contractors and builders.

### REAL ESTATE MARKET.

The real estate market has been very quiet this week, with a falling off in the number of inquiries, though this is considered only temporary. People have apparently tired of asking for houses, and are either buying or going into the suburbs. The present stringency in real estate ought to help increase the population of the surroundings that may be classed as part of the suburbs of Salt Lake, as interurban communication is very fair and steadily increasing in efficiency. The transfers for the week have been up to the mark in point of numbers, but in total of considerations, the figure is not large. However, real estate men say they can make often more money in commissions in moderate sized transactions than in transfers where the considerations are in large amounts. The association voted at this week's lunch to ratify the action of the Manufacturers' and Merchants' association and the D. A. & M. society, in naming the consolidated exhibits in the Swan building, the Chamber of Commerce.

### BUILDING BEING PUSHED.

The weather has been favorable to building operations, and contractors have made the most of the opportunity. However, they report a continued famine in building material generally, so that building operations are restricted, though by no means as much as in the summer. The stringency in structural steel has been partially relieved, but difficulty is reported in securing pressed brick. Moreover, there is the old story of shortage in the labor market, a story that is repeated in many trade lines. The delays are at times exasperating, but as much as can be done is under way, and many new houses will be under roof before steady cold weather sets in.

### HARDWARE SALES.

The hardware trade has been having a lively week in sales of electrical machinery, and mining machinery generally. There has also been a fair trade in builders' hardware, while supplies for contractors and grading outfits have been in great demand. There is a dearth at present in scrapers, wheelbarrows and plows, while there is a scarcity in harness makers' material. Small hats will be worn to an extent in felt hood effects for street wear. Larger hats will be used for dress purposes elaborately trimmed in ostrich plumes and other feathers. Hat crowns are a little higher this year; velvet ribbon bands are used to considerable extent. Gloves are in great demand, even at higher prices, as qualities that ranged at \$3.50 last year, are now listed at \$4. This is due to scarcity of raw material.

### LUMBERMEN WANT CARS.

The lumber trade is in a quandary. The cry is cars! cars! cars! and there are none to be had. Moreover, the strike of the freight handlers at Portland has still more complicated matters, so that the northwestern mills have notified the trade that it is impossible for them at present to fill any orders. The Salt Lake yards are fairly well filled this week, but it will be but a short time before a local shortage will occur. The stiff prices make dealers apprehensive of an advance, although there has been an advance of \$2 above the July price.

### DRY GOODS TRADE.

With the advent of conference, the dry goods trade in particular is experiencing something of a boom, and there are lively times in both the wholesale and retail departments. Cotton goods are holding firm with a steady trade along most lines. There is a continued demand for goods, which the trade explains as the occasion of the relatively higher values of wide and narrow goods from the same yards.

Competition in prints is keeping profits close, so that it is reported that printers will refuse to sell if prices are put any lower. Heavy sales are reported of gingham, denim, checks and plaids, though the production of gingham has been restricted by scarcity of labor. Bleached goods are scarce, with the finer lines sold far ahead into the next year, while the constant reports of orders keep the markets bare and prices up. The bleachers will not be able to clean up their orders now on hand until the last of the month, and the leading houses are beginning to differ to the possibilities of any further

## It Costs Nothing

To find out for a certainty whether or not your heart is affected. One person in four has a weak heart; it may be you. If so, you should know it now, and save serious consequences. If you have short breath, fluttering, palpitation, hungry spells, hot flushes; if you cannot lie on left side; if you have fainting or smothering spells, pain around heart, in side and arms, your heart is weak, and perhaps diseased. Dr. Miles' Heart Cure will relieve you. Try a bottle, and see how quickly your condition will improve.

"About a year ago I wrote to the Miles Medical Co., asking advice, as I was suffering with heart trouble, and had been for two years. I had pain in my heart, back and left side, and was not able to do a deep breath for two years. Any little exertion would cause palpitation, and I did with the result that I am in better health than I ever was before, having gained 15 pounds since I commenced taking it. I took about thirty bottles of the two medicines, and haven't been bothered with my heart since." Miss J. H. F. TROMAS, Upper Sandusky, Ohio.

Dr. Miles' Heart Cure is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails he will refund your money.

Miles Medical Co., Elkhart, Ind.

their decline in cotton. The spring business on all classes of cotton goods is reported highly favorable. It is understood, from orders already booked, that the same colors which prevailed this spring will re-appear next spring, and London smoke grays brought out this spring too late to make much of an impression, will be rushed the coming season, as buyers are taking kindly to that shade. Tan hosiery and gloves are also predicted as likely to sell well, and buyers of linens are endeavoring to match these shades. Blues, whites and pinks and red rose have been selected for the next spring season, and white is expected to be as fashionable as ever. Then linen dresses have been found to be desirable, and they will be more generally used than ever next season. The demand for spring hosiery is exceptionally heavy. In both domestic and foreign lines. Orders for foreign hosiery are about the same as last year, though the demand for the domestic is smaller.

### IN RETAIL LINES.

In the retail trade, dealers report embroidered goods as a strong factor, with a great demand in plain gauzes, so that jobbers report a very scant market, and lines are reported as sold up entirely for next year. Grays and blues have been in demand, and lead colors are reported as the coming shade. The trade has suffered some generally from the past warm weather, but buyers have been in the market, and with the advent of the weather, buyers have roused up and are frequenting the stores, calling largely for cloaks and suits, and dress goods of all kinds. Skirts are selling fairly well, and trade in heavy underwear will grow heavier as the cold weather draws on. Silks are selling well, mostly in hobby plaids, blues, greens and browns, taking the lead in chiffon weights. Velvets and velveteens in staple shade are finding a ready sale.

### WITH THE MILLINERS.

Millinery is doing well, with much attention given to trimmed hats, ready to wear, though sales of untrimmed hats are reported as considerable. The call is for hats that are ready to wear. Small hats will be worn to an extent in felt hood effects for street wear. Larger hats will be used for dress purposes elaborately trimmed in ostrich plumes and other feathers. Hat crowns are a little higher this year; velvet ribbon bands are used to considerable extent. Gloves are in great demand, even at higher prices, as qualities that ranged at \$3.50 last year, are now listed at \$4. This is due to scarcity of raw material.

### GENTS' CLOTHING STORES.

The drop in temperature has brought out the clothing trade into a more satisfactory condition. It has fallen into a slump on account of the steady warm weather, but now the faces of dealers are brightening, and the conference crowds are filling the stores. A fine trade is expected, and the weather will only remain cold, and not heat up again. Hats, hosiery and gloves are picking up, one house reporting a heavier sale of gloves in the past week than in all of September.

### THE SHOE BUSINESS.

The shoe trade has also been wonderfully benefited by the approach of colder weather, and dealers are regarding the situation with satisfaction. Dealers have cleaned out their old stocks pretty effectively, and have on hand only new, winter goods. But prices continue very stiff. Shoes that sold for \$2.50 are now bringing \$2.65, and \$2.75 goods bring \$3. The jobbing market appears to be light, and sales are not so brisk as in the past. But quantities of goods, which will embarrass the factories later when the big rush comes along. It is believed that the spring of 1907 will be the busiest ever known to the trade. At one eastern manufacturing center, the local factories propose to put out 60,000 pairs of shoes. There will be a multitude of styles, as each manufacturer has a number of attractive models and of serviceable make. Hides are reported more plentiful, and leather prophets are claiming that those who buy leather now will save a good deal of money.

## ACQUIN TRADE IS IN FULL SWING

Storm in South, Which Was Local in Effect. Only Unfavorable Development.

## RAILWAY EARNINGS LARGE.

Nine and Two-Tenths Bigger Than in September, 1905—Crop Returns Up to Expectations.

New York, Oct. 5.—R. G. Dun & Company's Weekly Review of Trade tomorrow will say:  
No unfavorable developments have appeared except the damage by storm at the south, which was almost entirely local in effect. Autumn trade is now in full swing, and the activity of transportation is shown by railway earnings in September, 9.2 per cent larger than last year's figures. Crop returns are up to expectations, aside from some loss in cotton, which caused a violent rise in prices. Commercial failures this week in the United States are 143 against 183 last year. The corresponding week and 195 the corresponding week last year. Liabilities of commercial failures reported for September are \$4,155,955 compared with \$8,939,547 a year ago.

### BANK CLEARINGS.

New York, Oct. 5.—The following table, compiled by Bradstreet, shows the bank clearings at the principal cities for the week ended Sept. 30, with the percentage of increase and decrease as compared with the corresponding week last year.  
New York ..... \$2,283,560,754 15.3  
Chicago ..... 1,236,192 5.4  
Boston ..... 1,054,497 5.3  
Philadelphia ..... 1,002,555 4.4  
St. Louis ..... 564,135 4.2  
Pittsburgh ..... 543,744 3.4  
San Francisco ..... 483,135 3.3  
Los Angeles ..... 11,575,884 19.3  
Omaha ..... 19,448,057 11.3  
Denver ..... 1,000,000 10.3  
Seattle ..... 10,825,455 30.1  
SALT LAKE CITY ..... 4,831,610 17.5  
Lincoln ..... 1,289,758  
Total, U. S. .... \$3,419,390,136 12.7  
Outside N. Y. C. .... 1,128,696,492 5.3  
Canada ..... 34,835,125 12.9

## U. S. STEEL CO. ACQUIRES THE HILL ORE LANDS.

New York, Oct. 5.—E. H. Gary, chairman of the board of directors of the United States Steel corporation, today announced that the company had acquired the Hill ore lands in the northwest. Judge Gary's announcement was as follows:

"After long negotiations a contract has been signed for the acquisition, on a royalty basis, of the Hill ore properties, so-called, by companies controlled by the United States Steel corporation. The quantity of ore has not been accurately determined, but it is a large body. The price to be paid is \$1.65 per ton delivered to the upper lake docks, with an increase of 5 per cent per ton each succeeding year. The minimum agreed to be mined is 750,000 tons per year, until it reaches 1,250,000 tons, and thereafter continues on that basis.

"It is believed that the completion of this agreement will result in great benefit to both parties. The cause of the ore properties is practically perpetual, since it holds until the ore has been exhausted."

The final agreement between the controlling interests of the Hill ore lands and the steel corporation was reached in the offices of J. P. Morgan & Co. late this afternoon. Those present at the conference were J. P. Morgan, Charles Stein, George W. Perkins, Chairman E. H. Gary of the United States Steel corporation, and the legal representatives of the two interests. No further details of the deal were given.

The magnitude of the transaction and its effect on the properties concerned as well as upon the iron and steel trade of the country is indicated by the fact that the Hill properties have been estimated to contain from 400,000,000 to 700,000,000 tons of ore. The properties are said to be second in importance and extent only to the Lake Superior iron mines already controlled by the United States Steel corporation, and it is said that this deal will furnish the steel corporation with a supply of ore for 50 years.

The Hill properties are believed to comprise a number of properties owned in part by other interests than those controlled by J. P. Morgan & Co., but the ownership of which was shared with the interests.

### NEW YORK CAB SERVICE.

To be Equipped With Automatic Regulators to Show Miles Traveled.

New York, Oct. 5.—New York is to experience a complete transformation of its cab service within the next few weeks. One hundred automobiles equipped with an ingenious device, which registers automatically and in full view of the passenger, the number of miles traveled, and the amount due, will be placed in operation and will be the vanguard of an army of revolution which is to extend to every city in the United States. The new cabs will be protected against imposition, but the cab company itself will have a registration of every cab collected and every mile traveled.

The "taximeter" is the name given to the device, which is a German invention.

### SEPTEMBER FIRE LOSSES.

New York, Oct. 5.—The loss by fire in the United States and Canada during the month of September as compiled by the Journal of Commerce and Commercial Bulletin, aggregates \$10,822,550, or about \$3,000,000 below the record of the same month in 1905. The nine months' losses by fire now reach the sum of \$10,587,750, a figure never before equaled in the history of the country.

### VERDICT AGAINST N. Y. LIFE.

St. Louis, Oct. 5.—In the United States circuit court a verdict was rendered this afternoon by the jury in the case of George C. Rankin, receiver for the First National bank of St. Louis, Mich., against the New York Life Insurance company, to recover \$7,738 insurance on the life of George A. Kimmel, former president of the Farmers' State bank of Arkansas City, Kan., who mysteriously disappeared in 1893, finding in favor of plaintiff. Interest was also awarded, making the total amount \$9,915.50. The jury went out all day. At noon it reported a disagreement, but Judge Finkelnburg instructed further consideration before finally reporting.

### FIRE IN SAN FRANCISCO.

San Francisco, Oct. 5.—A fire which menaced the whole western addition for several hours broke out in the parochial residence attached to Sacred Heart church, at the corner of Fell and Fillmore streets at 5 o'clock this morn-

# FREE EXAMINATION AND FREE ADVICE TO ALL WHO APPLY BEFORE OCTOBER 13TH

DR. A. J. SHORES.

## IF YOU HAVE CATARRH in Any Form, However Mild, ATTEND TO IT NOW.

A few treatments at this favorable season means a Cure—Delay means great suffering and large doctor bills, and possible death. People who have been deceiving themselves with the thought that the "Mild Catarrh" and "Slight Cough" will "PASS OFF" should remember that very often the PATIENT "PASSES OFF" with it. A little treatment NOW is cheaper than the undertaker will be this winter. Don't neglect the warning. Don't try to put out a fire by adding fuel to the flames. DON'T IMPOSE ON NATURE—BE CURED NOW while the time is favorable, the conditions are curable, and the prices for treatment lower than they ever were before or ever will be again.

### Special Conference Notice.

Drs. Shores & Shores take this occasion to extend a cordial invitation to the thousands of Conference visitors to visit their offices during their stay in the city. WHETHER THEY NEED TREATMENT OR NOT. Drs. Shores want to meet all their friends—cured patients, patients now under treatment by mail, and all who may have sick friends at home, as well as those who merely want to inspect the office and methods of the world-famous "Drs. Shores' System of Medical Treatment." One and all are invited to call, and will be cheerfully given, and while the Doctors will certainly be very busy during the week, still they will have ample time to see every body and no one will be slighted, but every case will be given careful attention and fully advised FREE OF CHARGE. If you need treatment, don't miss this chance to learn without cost JUST WHAT YOUR TROUBLE IS—the cause and the cost of cure. If you are not sick and don't need treatment, you are welcome to come, see how a modern, up-to-date Medical Establishment is managed. Come see the many wonderful appliances and instruments that skill and science have brought to the aid of the latter-day specialists. Come, bring your friends.

Remember the address—Houston Block—Number 249 Main Street, directly opposite Keith-O'Brien's store.

## HOME CURES BY MAIL IF YOU LIVE OUT OF TOWN.

### HOME TREATMENT.

To properly administer Dr. Shores' Catarrh, since this new treatment uses the same medicine that is used by the patients who cannot call at the office. One for cleansing and rendering the membrane antiseptic, and one for administering the curative oil direct to the diseased membranes. These two instruments are given FREE with each full course of treatment, and the entire course, including instruments and medicines to complete a cure is \$15 only. Remember this: this does not mean "15 a month," but \$15 for a cure. There is no more "treating by the month" for Catarrh, since this new discovery cures Shores' new Catarrh treatment cures quickly and surely.

## WRITE Drs. Shores & Shores for their new symptom list and get their advice free.

### WE TREAT AND CURE.

CATARRH—Deafness, Nose and Throat Troubles, Eye and Ear Diseases, Bronchial and Lung Troubles, Asthma, Stomach, Liver and Kidney Diseases, Bladder Troubles, Female Complaints, Chronic Diseases of Women and Children, Heart Disease, Nervous Diseases, Chorea, St. Vitus' Dance, Rickets, Spinal Trouble, Skin Diseases, Scurvy and Rheumatism, Diseases of the Bowels, Piles, Fistula and Rectal Troubles, Gout (or Big Neck), Blood Diseases, Tape Worm, Hay Fever, Hysteria, Epilepsy, Insomnia, etc., and all curable Nervous, Private and Chronic Diseases. Prices and terms within the easy reach of all. Call or write.

## WEAK MEN PAY WHEN CURED.

Contracted Disorders. What "Weakness" Is and How We Cure It. VARICOCELE.

Be sure your cure is thorough. Not one of our patients has ever had a relapse after being discharged as cured, and we cure in less time than the ordinary forms of treatment require.

So-called "Weakness" in men is merely a symptom of chronic inflammation in the prostate gland, brought on by early dissipation or by the improper treatment of some contracted disease. A complete and radical cure is therefore a question of restoring the prostate gland to the normal state, and this we accomplish promptly and completely without the use of internal remedies. Our treatment is a local one entirely. It is original and scientific, and has been proven absolutely effective by thousands of tests. We are convinced that by no other methods can full and permanent restoration of strength and vigor be accomplished.

Spermatorrhea. Stricture. Piles. Skin and Kidney Diseases, etc., are also among the diseases we cure to stay cured.

# SKIN DISEASES FIERY ACIDS IN THE BLOOD

All skin diseases are due to the same cause—an excess of acid in the blood caused by faulty assimilation of food and poor bowel action; this fiery acid matter is forced to the surface through the pores and glands. Pustules are formed, discharging a sticky fluid which dries and makes a crust, causing intense itching. When the crusts or scabs are scratched off the skin is left raw and bleeding. Sometimes skin diseases are in the dry form, and bran-like scales come on the flesh, or the skin becomes hard and dry, often cracking, and the painful itching causes acute suffering. It does not matter how the trouble is manifested, the cause is the same—an excess of acid in the blood. Salves, powders, cooling washes, etc., while they relieve the itching and give the sufferer temporary comfort, cannot cure the trouble because they do not reach the acid laden blood. The best treatment for all skin diseases is S. S. S., a remedy that is purely vegetable and one which acts directly on the blood with a cleansing, healing effect. S. S. S. neutralizes the acids, and purifies the blood so that the skin instead of being blistered and burned by the fiery fluids, is nourished by a supply of cooling, healthy blood. Special book on Skin Diseases and any medical advice desired will be furnished without charge.

**S. S. S.**  
PURELY VEGETABLE.
