FORTY-SEVENTH CONGRESS.

SENATE.

WASHINGTON, 20. — A message was received from the President relative to a convention to define the boundary line between the United States and Mexico.

The House bill appropriating $465,000 to supply the deficiency for printing the current year, passed.

The Mississippi River improvement bill coming up, George advocated its passage, and proposed it be amended by increasing the appropriation to $15,000,000, and applying the money in the discretion of the river commission to rebuilding the levees. Adjourned.

HOUSE.

WASHINGTON, 20. — The House went into committee on the tariff commission bill.

Messrs. Turner, of Kentucky, Townshend, of Illinois, and McKenzie, of Kentucky, opposed the bill. The last indulged in a speech enjoyed alike by republicans and democrats.

The committee rose, and King, of Louisiana, introduced a bill appropriating $6,000,000 for the improvement and construction of Mississippi levees; referred. Adjourned.

AMERICAN.

Sorghe.

WASHINGTON, 20.—The Academy of Sciences appointed Prof. Chandler and Dr. Moore of New York, Dr. J. L. Smith of Kentucky, Dr. Goessman of the Massachusetts Agricultural College, and Professors Brewer, Johnson and Silliman a committee to investigate and report on the sorghum sugar industry, in reference to the methods employed and the results obtained in the experiments made by Prof. Collier during the past three or four years at the Department of Agriculture. The committee made a report yesterday. It is a voluminous document and approves all the chemical work done in the Department of Agriculture by Prof. Collier. It declares that sorghum will be a sugar-producing plant next to sugar cane in Louisiana and the tropics; that it is so in actual sugar contents, and that it has continental adaption to various soils and climates in the United States.

The 14th and 15th Sections.

The House Chinese bill was reported back to the Senate this afternoon by General Miller, with the amendment proposed by the foreign relations committee, and was ordered to be printed and placed on the calendar. Senator Miller in reporting it gave notice very significantly that the amendments were not unanimous, but that on the contrary each member of the committee reserved the right either to oppose or support any of the reported amendments. This remark was intended to foreshadow the intention of Miller and all the democratic members of the committee to resist the adoption of the amendments, which provides for striking out the 14th and 15th sections.

Nominations.

The President nominated Alphonso Taft, of Ohio, envoy extraordinary and minister plenipotentiary of the United States to Austria; William L. Dayton, of New Jersey, as minister resident of the United States to the Netherlands; Nicholas Fish, of New York, minister resident to Belgium; John M. Francis, of New York, to be charge d'affairs to Portugal; John A Wickersham, of Pennsylvania, charge d'affairs to Denmark; Adam Badeau, of New York, consul general to Havana; H. L. Slaight, of New York, United States consul at Prescott.

Agricultural Department.

The House committee on civil service reform, to which was referred several bills to enlarge the scope of the Agricultural Department virtually agreed upon a substitute, which provides for a Department of industries and four Bureaus, one of which will be designated as a Bureau of Agriculture. The bill provides for a Secretary who shall be a cabinet officer, and four heads of bureau.

Blackmail.

The House committee on the method of paying pension claims in the Quartermaster General's office heard testimony to day tending to show there was a species of blackmail levied on claimants; but this was generally discredited by the committee. The whole subject, however, will be overhauled.

Stolen Bible.

The Bible used in the Senate for swearing in Senators has been stolen. It has been used 53 years and every Senator admitted in that period was sworn in on that Bible and kissed it. The supposition is that it was taken by somebody as a relic.

Contested Cases.

Some republicans criticise this morning's negligence of the House in letting the contested election cases go over, as the least yielding gives the democrats the advantage.

Off for Berlin.

Minister Sargent has received his instructions from the state department, and will leave here to-day, en route for his new post in Berlin.

The Calendar.

Upon the calendar of the House are 528 bills which have been considered by the committees and recommended for passage.

Adverse Report.

The House committee on the Pacific Railroads to-day directed an adverse report on Representative Bingham's bill, proposing an appropriation of $50,000, to enable the secretary of war to purchase the Pacific Telegraph line and branches.

$5,000 for Hewgate.

Marshal Henry offers a reward of $5,000 for the apprehension of Captain Howgate.

The President's Recommendations.

The President has transmitted to Congress a letter, addressed by the Minister Plenipotentiary to Mexico to the Secretary of State, proposing the conclusion of the convention between the countries for defining the boundary between the United States and Mexico, from the Rio Grande to the Pacific Ocean, by the erection of durable monuments. He also lays before Congress a letter on the same subject, with its accompaniment from the Secretary of War to whom a proposition was referred by the Secretary of State for the expression of his views thereon. The President states that he deems it important that the boundary line between the two countries, as defined by existing treaties, and already once surveyed, should be run anew, and defined by suitable and permanent monuments, and says that by so doing uncertainty will be prevented as to jurisdiction in criminal and municipal affairs and questions will be averted which may at any time in the near future arise with the growth of the population on the border. Moreover I conceive a willing and speedy assent of the government of the United States in the proposal thus to determine the existing stipulated boundary with permanence and precision will be in some sense assurance to Mexico that the unauthorized suspicion which of late years seems to have gained credence in that Republic, that the United States covets and seeks to annex the neighboring territory, is without foundation. That which the United States seeks and which a definite settlement of boundary in the proposed manner will promote, is a confiding and friendly feeling between the two nations, leading to advantageous commerce and closer commercial relations. I have to suggest that in accepting this proposal, suitable provision be made for an adequate military force on the frontier to protect the surveying parties from hostile Indians. The troops so employed will at the same time protect the settlers on the border and help prevent marauding on both sides by nomadic Indians.

Two More Tornadoes.

CHICAGO, 20.—A special says: The town of Carrolton, La., was struck by a whirlwind on Tuesday evening. A skiff in the river, containing three men, was capsized, and none of the occupants have been seen since. The wharf was lifted and carried a square distant. The noise accompanying the wind was like a deep thunder. Several houses were unroofed and property greatly damaged. A German Catholic school was completely destroyed. A number of persons were seriously hurt, but none killed outright. The damage is estimated at $30,000. Other neighboring towns report more or less damage.

A Bloomfield special reports a devastating cyclone in that country, which, however, by good chance, did not strike anyone. The damage was confined to farms, fences and isolated buildings. As yet no deaths are reported, but three persons were injured.

Snow.

The heaviest snow of the season fell in the northern peninsular of Michigan to-day.

Fighting the Court.

CINCINNATI, 20.—Saloon keepers and brewers to-day raised funds to fight in court the bill closing the saloons on Sunday.

Fatal Blow.

SCOTTEDALE, Pa., 20. — Five houses were blown down here, one woman killed and six persons hurt.

Division of Bennett's Estate.

NEW YORK, 20.—In the Supreme Court, to-day an interlocutory decree was entered for the sale in parcels of the estate of the late James Gordon Bennett and the division of the estate, half to Jas. Gordon Bennett Jr., and half to his sister Jannette.

Fatal Storms.

MOUNT VERNON, 20.—The storm last evening killed Mrs. Ann Wiregroves and injured seven children of Jacob Stuffers. It injured seriously the members of other families. Some damage was done at Pennsville.

Scottedale, Pa., 20—Five houses were blown down here, and one woman killed. Six persons were wounded.

Failure.

READING, Pa., 20.—Adam Dundore, son of ex-Treasurer Dundore, and Benton Bright, engaged in mercantile business at Bernville, have failed. Liabilities and assets unknown. The failure is caused by the elder Dundore's defalcations.

A Boston Butchery.

BOSTON, 20.—The *West Commercial* says: Mrs. Russell, aged 79, was killed by her son-in-law, Edwin Prescott, aged 66. Officers being notified, found the body in a back shed, the skull fractured, and the throat cut from ear to ear. The murderer was arrested and taken to jail. The tragedy created intense excitement, as the parties moved in the highest society circles. Prescott was for many years a dry goods merchant in Arlington and afterwards in Cambridge, and amassed a fortune. Through financial reverses his mind has been somewhat affected. While his wife was absent in Boston, Prescott quarreled with the old lady, and with a brick battered her face until she lost consciousness, then pounded her head with a coal shovel, and finally cut her throat with a jack-knife. The deceased leaves a large estate. Prescott's wife had previously made arrangements for his confinement in an asylum.

Indian Rumors.

SAN FRANCISCO, 20.—A Tucson dispatch says: About 110 bucks are on the warpath, 60 of whom are supposed to be returned renegade Chiricahaus.

A report is just received by runner, via Safford, that Eagle Creek has been raided by Job and other renegade Chiricahaus. If this is the case, the following were probably killed: Tom Newland, wife and two employees, McNurren and son, Lamb and son, and Stevenson, sheep herders. The Locos band number about 250, of whom 50 are bucks.

EL PASO, 20.—The wife and daughter of Nana, successor to Victorio, chief of the Apaches, were arrested at Fort Stanton and held as prisoners.

More Flooding.

ST. VINCENT, Minn., 20.—A specist from Red River, says that the stream is some forty feet above low water mark and is still rising. The Redwing mills elevator is in a critical condition. A drawbridge at Emerson, worth $70,000, was swept away. The water will probably recede now.

FOREIGN.

Darwin Dead.

LONDON, 20.—Charles Robert Darwin, the noted scientist, is dead.

Darwin had suffered for some time from weakness of the heart, but continued to work to the last. He was taken ill Tuesday night with pain in the chest, faintness and nausea. The nausea lasted more or less during Wednesday and culminated in death in the afternoon. He remained fully conscious until within a quarter of an hour of his death.

Russian Restriction.

ST. PETERSBURG, 20.— An Imperial order has been issued prohibiting military men from publicly delivering political speeches, or expressing political opinions. The war department officials are prohibited from publishing, without the sanction of their superiors, documents referring to internal and external affairs of foreign countries.

Three Months for Libel.

BERLIN, 20.—The editor of the *Tageblatt* was sentenced to three months imprisonment for libeling Bismarck, and has been sentenced to another week's confinement for inserting a letter in his paper about Gambetta, which the Count had as blasphemous.
