SATISFACTORY BUSINESS.

Although the service on the eastern divison has been only tri-weekly to date, the business done by the road has been very satisfactory, although necssarily only local in character. When the entire line is completed and opened up to transcontinental traffic, with rapid daily service, some idea may be had from the new country being opened up and the feeders to be established what the volume of business over the new line will be.

The construction of the road on the eastern division is under the direction of T. J. Wyche, division engineer, with headquarters in this city.

## DON'T BE IN THIS LIST.

The belated Christmas shopper too rarely realizes his crueity. This suf-fering is no sentimental figment, but real. To stand upon her feet through daylight hours and far into the night daylight hours and far into the night, to breathe and rebreathe all day the "dead" air caused by the throngs, to answer tirelessly and cheerily the thousand one queries which bub-ble from the lips of bargain seekers, to keep this up for two weeks preced-ing Christmas—such is the routine of the clerk and shop-girl under our present Yuletide regime. And for this state of affairs the laggard buyer is largely to blame. By making purlargely to blame. By making pur-chases early in December, the "holl-day rush" would be distributed throughout the month instead of focalizing on the week before Christ. nas. This suggestion is neither new nor original. But we harp upon it for the sake of alleviating evils caused in a measure by purely thoughtless pro-crastination.—Colliers.
