## REV. SHANKS LEAVES TOWN

Quits His Charge Without the Formality of Saying Good Bye.

Rev. E. H. Shanks, who has been occupying the pulpit of the East Side Baptist church, has quit his charge, and last night he left for Chicago to join his family. He will there engage in revival work. According to that the members of his flock on the East Side are without a pastor. His sudden coming as a breath extractor to many of his friends and especially his congregation. It was generally thought that he has been granted a leave of absence for one month, and that he was going to spend it in California. It is reported, however, that Mr. Shanks complained of the salary he was getting, and said that he owed it to his family to get more if he could. The strangeness of the affair is the fact that he failed to bid his congregation good-bye.

Gentlemen—Representing a company of gentlemen, at whose head is Senator W. A. Clark of Montana, and including the original stockholders of the Los Angeles Terminal Railway company, who propose to organize a corporation for the purpose of establishing a line of railway between the harbor of San Pedro and the city of Los Angeles, in southern California, and Salt Lake City, Utah; I have the honor to request that you grant to the promoters of this enterprise, deposit facilities in your city consisting of the usual designated upon your city map as Pioneer Square and also the necessary franchises over your streets to give the proposed railway an entrance into your city.

The corporation has not yet been organized and cannot be for a short time, for the reason that we have not yet fully collected certain data necessary for us to have before organizing the same. For that reason, should this application meet with your approval I would suggest that the deposit site selected shall be granted to the two principal promoters of this enterprise, to wit, Senator A. W. Clark of Montana and Honorable R. C. Kerens of St. Louis, Mo., and their assigns for the use of the corporation to be promoted by them which shall establish and operate the proposed railway as an independent line.

Inasmuch as we desire this accommodation only in consideration of the line being established and operated as an independent line of railway, I would suggest that you should decide to make the grant that shall be so formulated as to become effective only upon this condition being complied with. That is, that you require the organization of the proposed company, the completion of a certain amount of the proposed line of railway, before the deed, which, pending this, may be held in escrow, shall be delivered, and that the title shall express that it is granted upon those conditions and for the purpose of there being maintained on the ground a railway station. These, however, are matters of detail, which I assume can be worked out for the full protection of the city if you shall decide to grant our request. We also request that if you are disposed to grant our application, you may be given a term of six months, or as practicable, inasmuch as the action of your honorable body will in some way affect the matter of the proposed organization of our corporation.
