THE GREAT

BORN STEEL RANGE

Before purchasing a Steel Range, examine the tripple walls, the enameled finish, the material and workmanship used in the Born Steel Ranges.

The Reason these ranges are so popular is because they work perfectly and the best of everything is used in their construction to make them the finest ranges on the market.

The finest cooking apparatus ever made. All sizes of the Born Steel Range. Have patent nonwarpable oven bottoms, poised oven doors, cement under bottoms, adjustable flues, combination drop and swing feed doors, patent rotary hot closet doors, and double steel bodies, lined with asbestos. They are simple in construction and easy to operate. The dampers and drafts are placed at the most convenient points and are readily understood by anyone. They lack nothing that would add to their desirability. The best of workmanship throughout and perfect in operation. 4,500 happy homes in Salt Lake alone, 35,000 in Utah testify to all we have claimed for it. Ask your neighbor or friend who has one, as to its merits. Buy one and save labor, worry and money and get plenty of hot water. You are invited to call and have our prices quoted you.
