For Wood.

They are really what their name indicates, SUPERIOR to any other Stove in the market, and for

Are Unequalled!

and

Improved American,

For Coal.

Which for Neatness of Design, Thoroughness of Combustion, Capacity of Oven, Economy in the Use of Fuel and Uniformity of operation, place them as the best stoves in the market.

They have been constructed specially for the use of our Western Bituminous Coal (for which all stoves of Eastern manufacture are so ill adapted). Enlarged Flues insure a perfect draft; the plates that line the fire chamber are unusually heavy, and combine certain peculiarities in their construction which give these Stoves superiority over all others in the consumption of their smoke, thus saving a large per centage of fuel.
