OFFICIALS AT SEA OVER PRISON CODE

Note Found on Convict Deming at Time of Attempted Break Source of Mystery.

PRISONER IS VERY MOROSE

Steel Work in New Cell House Being Set Up Today, Giving Use of Fifty More Cells.

The state prison officials are at sea over the code written note found on Deming Sunday, addressed to "Kid." Who this person may be is "shrouded in mystery," and how to find a translation of the code promises to be a still greater puzzle. Deming is not so badly hurt as was imagined, but he is very morose and cast down over the discovery of his plans. Probably the next time he starts in on his plan making he will have learned enough wisdom to keep his own counsel, and not go to boasting around what he proposes to do. The warden is taking no more chances with Deming, Sullivan and Majors, so these three plunks of propriety will be kept secluded by themselves from the profane gaze of the untutored multitude.

FIFTY MORE CELLS. Constructor Rousch of the Pauley Jail company, arrived yesterday afternoon from St. Louis, and starts in today, setting up the steel work in the new cell house within 100 feet of the safe, secure haven of refuge for the morally degenerate, will be in working trim. The capacity of the new house is for 200 cells, but 50 will be completed at present, which will give the prison altogether 282 cells. Then when these are all completed, the second tier of 100 will be set up. The bars are of sheets of chilled steel welded together—impervious to any kind of a saw. There are two corridors, the inner being for the prisoners, and the outer one for the guards, so that the latter can enter the cell block without being disturbed by the inmates. The cell doors are operated by levers from the corridor, it being possible to open or close one or all of the cells at the same time.

The new laundry is giving much satisfaction, four men now doing the work of 14, as heretofore.

NOVEL RUSH TO CHINA. Los Angeles Man Proposes to Introduce Modern Cafeterias Into Salt Lake City.

Salt Lake restaurant men look out for yourselves. Los Angeles capital is at work in Salt Lake with the object of opening up a new field in the restaurant life; the establishment of cafeterias. Mr. Charles E. Shay of Los Angeles, who has made considerable money in California, is thinking of Salt Lake as a new field from Los Angeles for investment and a pleasant place to live and is therefore placing his money here. One cafeteria is now in full swing on South Main street and in a month from now another will be in running order on Third South street. The Salt Lake business man who must eat his lunch in 35 seconds had no idea what was awaiting him.

THE CAFETERIA IDEA. The cafeteria is a cafe minus waiters the patrons of the establishment acting as waiters and serving themselves. The cafeteria is a new thing, and is being introduced by a man who has been successful in California. The cafeteria is a new thing, and is being introduced by a man who has been successful in California.

At present, there are 26 cafeterias, they are found also in all the larger cities of the United States and Europe, and in about six months ago the Salt Lake business man who must eat his lunch in 35 seconds had no idea what was awaiting him.

A SAFE STRONG BANK FOR SAVINGS DEPOSITORS.

Savings accounts draw 4 per cent interest, compounded semi-annually. Accounts can be opened for churches or fraternal organizations, and be under the control of two or more officers. Minors may open accounts, subject to their own control. Parents may have accounts for business and retain control. Married women may open accounts in their own names. With the strength given by ample capital, the strength given by careful and conservative management and the strength given by experience, this institution has grown to be one of the largest savings banks between Chicago and San Francisco, and continues to add steadily to the number of its depositors.

You'd be surprised to know how many of our commercial customers and savings depositors go out of their way to induce others to open accounts with us. We believe this is a pretty fair indication of the confidence and cordially they feel toward this bank.

Still better, this sentiment seems to be universal among all the patrons of this institution.

Make our bank your bank. UTAH SAVINGS & TRUST COMPANY, 235 Main St. In the Business Heart.
