

the Exchange Today.

MAMMOTH ALSO STRONGER.

2

Ben Butler Soaring - Tesora Firm Ontarlo Weakens - Grand Central Active.

Business on the mining exchange was a little quieter today when 29,050 shares sold for \$15,307 50. Lower Mammooth and Mammoth were both active at better prices. As high as \$4.25 was paid for Lower Mammoth, but the stock weakened before the call closed, to \$4.16 or 1 cent a share lower than the open-ing figure. Mammoth opened at \$2.16 and moved up to \$2.17 on the closing sale, Grand Central let go 100 shares at \$5.80, while Daly West was active at \$29.95. Anchor parallelpated at \$2.53½, while May Day opened at 36½ and climbed to 38 on the closing sale. Ben Butler reached the highest figure for many months today, when it sold at 5% per share. Ontario weakened to \$7.40, while a 3,000-share block of Sacramento was released at 38. Northern Light was active at 2½. Silver Shield of Bingham let go 1,000 shares at 26 flat. Star Con, was much weaker today, selling down to 81%. Tesora also showed which was made at 45, but this was fol-lowed by a jump to 51, with the closing sale going at 50%. Little Chief dropped 1,000 at 4%. Manhattan was extremely active at % to ½, while Martha Wash-ington was traded in at 3%. Closing quotations were posted as fol-

Collector Chloroformed by Thugs and Relieved of Nearly \$100.

#### Will George Has an Exciting Experience With Bold Highwaymen -His Story to the Police.

Attacked by boid thugs, cloroformed and robbed of about \$100 is the gist of a story related to the police this morn

the victim of the alleged robbery is Will George, a young man employed as collector for the McDonald Candy company.

He said that he was walking east on First South street about 12 o'clock last night, and when at a point between Third and Fourth East, two men crept up behind him and threw a blanket over his head. He said he struggled to free himself but fell unconscious to the

When he came too he found that he had been robbed of nearly \$100. When asked why he did not report

the matter last evening, he said he didn't know only that he was dazed. He could not give any description of the robbers because he said he did not see

MR. BRUNTON IN BUTTE. Is Revolutionizing Methods in the Anaconda and Never Sweat Mines. According to the Butte Miner Mr, D, W. Brunton of the Taylor-Brunton Sampling company, is revolutionizing operations in the Anaconda and Never Sweat mines, of which he was recently made superintendent.

One of the big changes being grad-ually introduced by Mr. Brunton is the "cave system" of getting out ore, a system which is needed. a system which is much used now Colorado and Utah. At present this system is in operation on the 1,600-foot level of the Anaconda and Never Sweat

About two months ago Jack O'Neill, the old-time superintendent of the An-aconda and Never Sweat, and Mr. Brunton visited Utah to inspect the cave system. Mr. O'Neill did not think practical on such a big vein as the naconda. It is said a coolness has prung up between O'Neill and Brunfor several days it has been reported that O'Neill had tendered his But this is denied at resignation, adquarters.

It is reported that Mr. Brunton has discharged 800 or 900 men since his assumption of control and that he laims too many miners are at work in these properties for the amount of ore taken out; also that he made the state-ment that he could save the Anaconda company \$2,000,000 a year in its pay-

That there is considerable uneasiness and dissatisfaction among the miners is apparent to any one who walks the streets of Butte. It is evidently the policy of the company to reduce ex-penses as much as possible, and Mr. Brunton is giving evidence or being the man for the occasion.

#### Lead Contracts Signed.

The results of the recent visit of Mr. J. E. Bamberger to Denver are now made known. It transpires that the Guggenheim Son's have contracted with the Silver King, Daly-West and Anchor mines for their lead product for the current year. In relation to the mat-ter today Mr. Bamberger said that it was deemed hest by the above com-panies to secure a fixed rate for the ear. The price is not stated, but it is robably \$4, which is the settling price year. of the American Smelting company un-ill some change shall be decided on by the directors of the A. S. & R. Co.

#### The Yampa Looks Well.

Col. E. A. Wall came in from Bingham last evening after inspecting op-erations at the Yampa property. The outlook is said to be decidedly encouraging. In proof of this the colonel ex-hibited a fine looking chunk of ore carrying in addition to iron pyrites about 5 per cent copper. He is now running on the hanging wall some 325 feet from the entrance of the tunnel. The ore is lå feet or more in width and the qual-ity is improving as the tunnel is pushed owards a point when a big body of any ore is expected. The present ore is imilar to the Highland Boy and there is said to be little difference in the values.

#### MINING NOTES.

The Carisa, of Tintic, was on the market today with three cars of ore.

If your liver is out of order, causing Biliousness, Sick Headache, Heartburn, or Constipation, take a dose of

Hood's Pills

On retiring, and tomorrow your digestive organs will be regulated and you will be bright, active and ready for any kind of work. This has been the experience of others; it will be yours. HOOD'S PILLS are

and a softening in the ground shaft has taken place in consequence.

About 600 gallons per minute is now being pumped from the Watseca mine, Madison county, Mnot., in which Hon. A. W. McCune, of this city, is largely interested. The shaft is now down 270 feet.

Mr. Wigginton, who is acting as clerk at the Bingham Copper and Gold company's smeller, says the smeller is almost completed. The trial run is expected to take place about February

R. C. Chambers came down from the Park last evening after spending several days attending to business above ground. He says he will go under-ground next week when he may be able o say something about the Ontario and Daly mines.

Willard F. Snyder, who returned from the East yesterday afternoon reports negotiations for the sale of the Dixie opper mine near St. George far from empleted in spite of rumors to that ef-The property is to be examined feet by experts during the next few days, upon whose report the success of the deal will depend.

La. amie Boomerang: C. F. Kuster, assayer and chemist, and one of the directors of the Rambler Copper comany, has moved his assaying outfit out o the mine and practicallyevery cubic ot of ore taken from the mine will be assayed and its value ascertained on the round. A large dump of lower grade ore is being piled up at the mine and ground. vill be treated when a cheaper process can be obtained or when cheaper transportation facilities can be secured from the mine to the smelter.

Hailey (Ida.) Times: A miner who came in yesterday says that the con-tinuation of the Maryland ore chute was cut into a few days ago in the west end of the main drift on the 200-foot level of the Golden Star. It was found to carry a thickness of four and a half feet of ore that seemes as good as any yet found on the Gold Belt. The ore greatly resembled the first-class ore of the Croesus mine, that sold for over \$300 a ton. A chunk of Golden Star ore was assayed in Salt Lake, on a wager Black of the Hattle group and Hollister, managing owner of the Mr Golden Star, bet the round-trip fare, including the Pullman, Salt Lake to

Hailey and return, that the ore would assay over \$100. The assay that Capt. Black got was \$140 in gold, 20 ounces in silver and 13 2-10 per cent copper per ton. Capt. Black lost his bet.

# WHOLE LIST OPENED LOWER

Notable Feature of Market Was Smaller Volume of Dealings.

#### Some Stocks Showed Strength - Big Bise in Federal Sfeel - Bonds. Were Firm.

New York, Jan. 25 .- Weakness was rather acute in some stocks in the opening dealings and practically the whole list opened lower. Quotations in Brooklyn Transit varied a point on the sale of 4.700 shares at an extreme decline of 1%. St. Paul was carried down 1% on the sale of 4,000 shares and Fed.

eral Steel declined a point. The low level was met by some buying for support. Federal Steel, Brook-

iyn Transit and St. Pual wiped out their opening losses, and reacted from 's to 15 above yesterday's close. Pronounced strength in Sugar, Tobacco and Manhattan sustained the special-ties, while the advance of 2 and 1% respectively in Missouri Pacific and Kanses and Texas preferred benefited the will be yours. the health boards, in that Prof. Paul Critchlow seemed to think that the rescinding of the order would place the responsibility upon the teachers and has admitted pupils to this college who have not been vaccinated. In reply to the responsibility upon the teachers and asked Mr. Moyle, if the teachers were prosecuted by the health board would he go to jail for hem. Critchlow added that the rule had been applied to a request from Health Commissioner King, President Paul submitted the names of 135 unvaccinated pupils who private as well as public schools. He are attending the college, wanted an amendment showing clear whether it was left to the teachers to comply or not with the order of the Upon this subject President Paul

oard of health Mr. Moyle stated that the teachers were the employes of the school board, made the following statement: and if they were interfered with in any manner in the discharge of their duties the school board would defend them me in December that only vaccinated pupils were to be admitted into any and pay their fines. The discussion grew warmer, Giauque said he would like schools in the State after Jan, 1, 1901, it was just after the time when the Latter-day Saints' college had reopened, to see the doctor or the health officers after having been closed one week on account of the prevalence of smallpox, would dare to swear to a com plaint against a teacher for admitting unvaccinated pupils to the schools. Young maintained that the members and just before the Christmas holidays. of the board were bound by their oaths consult the trustees of the college fore the school adjourned for the hollto carry out the order of the board of days: but I notified the students con-cerning the instructions I had received health

### RESOLUTION ADOPTED.

The resolution was then submitted and adopted. Critchlow Young, Nel-den and Walker voting no; Giauque Moyle, Bamberger, Geoghegan, Brant-A motion made by Bamberger that the superintendent be instructed to notify the principals and teachers to rewent on to say, however, that we thought the board would carry out, as ceive all healthy pupils, whether vac-cinated or not, was lost. The majority members deeming that it was not

ossary. Nelden wanted Principal McKay to en, a great many pupils were vacciexpress his opinion as to whether or not nated; but many stated that they would he thought the rescinding of the board's order meant that all children should withdraw from the college, if the vaccination became compulsory, be admitted to the schools irrespective of vaccination. Mr. Moyle objected and made a peremptory demand of me that

his objection was sustained. excl-de all unvaccinated pupils. This told then: I could not do, not having Superintendent Cooper through Mr. Superintendent Cooper through Mr. Neiden asked to be allowed to make a few remarks. Moyle objected, and this objection was sustained. Some one cried "gag rule." but Prest. Newman explained that there was a rule of of over ten years' standing that no one outside of the board would be permit-ted to address the board without the unanimous consent of the members, so there was nothing else for the president been authorized to do so by the board of trustees. I also explained to Dr. Baker, when he called upon me, while I was willing to aid the board of health all I could in enforcing regulations it deemed beneficial for the public health, I would not consent to act as the deputy of the board in compelling pupils to be vaccinated. I told him that there was nothing else for the president the board of health ought to enforce its when Moyle objected. own vaccination order; and simply be-

Movie further suggested that the superintendent should know his duty in the matter

### THE LIE PASSES.

Nelden charged some of the members with cowardice. "If the gentleman means me when he

says that some of the members a cowards, it is a lie," retorted Moyle. are MICE NOT MEN.

That brought most of the members to their feet, and Critchlow branded the majority members as being cowme to advise the students to obey the health regulation in regard to vaccina. ards and mice, not men. tion, and this advice has been given. The fact that some of the students have

ADJOURNED IN CONFUSION.

Moyle hurled something back in reply, and then moved that the meeting adjourn. The motion carried and the session closed with the passions of some of the members roused to a high pitch.

AS TO PRINCIPAL MCKAY.

Principal McKay is reported to have said that he would stand by the order of the board of health and refuse ad-

cause,

and women, and a simple order to be mittance to pupils who have not been vaccinated. When seen this morning President Newman said that he could not underresult in their going elsewhere to school, and might result in their suing stand how any teacher should not be perfectly clear as to the status of the case as resulting from the adoption

them "The College is not like a State insti-tution. It would make little difference to the trustees or teachers in a State of the resolution, 'It simply brings the schools back to the original condition before any order or city school, whether the vaccination order kept half the students out or not. The State and city schools would go on just the same and the teachers of any kind was made, and if the board of health wants to close the schools, let it do it on its own responsibility. But the board of education is at the would receive their usual pay for less work, But with the Latter-day Saints' head of the public schools and it pro-poses to have teachers who will carry but the primary law, and that is, throw the doors of the schools open to all College, it is different. The authori-ties of this institution are trustees for the both parents and students. Large sums of money have been donated by pat-rons and considerable amounts have been paid by the students in fees; and the authorities of this institution conhealthy children.
