A NEW WOOLTEX MODEL.

The Eton and hip length jacket, semi-fitting and tight fitting, fills a promment place in the newest lines of semi-dressy tailor mades for afternoon wear. Both are equally good fashlon, and their choice depends much on the style of the figure on which they are to be worn. For the slender, youthful figure the coat in loose lines is very popular, but the woman inclined to roundness and curves would best adopt the garment that is tight fitting. This model in a rich dahlla red broadcloth has a jaunty little peplum attached to the body portion, this not coming all the way around the front, but stopping short several inches short of the center front. The skirt has a plain front panel and circular sides, these trimmed with double rows of military braid in the same share as the cloth. The jacket is cut almost severely plain, but braided very attractively, the narrow vest and flat stitched down collar of dahlia velvet. The sleeve is a plain leg o' mutton pattern, finished at the hand with a narrow braided cuff. The hat is a plateau in a rose shade attractively bent and trimmed with white satin ribbon and rose colored wings.
