EVENING NEWS.

Friday - March 17, 1876.

SALTAIRE.

[CONCLUDED.]

We prefer to speak of the immense improvement which Mr. Salt, or rather Sir Titus Salt, has effected in the physical and moral condition of his work-people. The plan of the work shows that Saltaire has been provided with a church, a Wesleyan chapel, and a literary and philosophical institution. Large schools have been provided for boys, girls, and infants; with abundance of playground, for young men as well as old. There are a cricket-ground, bowling-green, and croquet-lawn, surrounded by pleasure grounds. There are also a large dining hall, baths, and wash-houses, a dispensary, and almshouses for pensioners.

About three thousand persons are employed in the works; and seven hundred and fifty-six houses have been erected for their accommodation. The rents run from two and fourpence to seven and sixpence a week, according to the accommodation. Some of the houses are used as boarding-houses. The rents include rates and water-supply, and gas is sold at a low price. The cottages are built of stone, lined with brick-work. They contain a parlor or long room, a kitchen or scullery, a pantry and cellar, and three bed-rooms. Each house has a separate yard, with the usual offices. The work-people are well able to pay the rents. Single workmen earn from twenty-four to thirty-five shillings a week. A family, consisting of a father and six children, earn four pounds six shilling a week, or equal to a united income of over two hundred and twenty pounds a year.

The comfortable houses provided for the work-people have awakened in them that home feeling which has led them to decorate their dwellings neatly and tastefully—a sure sign of social happiness. Every visitor among the poor knows how such things combine to prevent vice and disease, to elevate the moral tone of working-people, and to develop their working powers. A man in a dirty house, says Mr. Rhind, the medical attendant at Saltaire, is like a beggar in miserable clothing. He soon ceases to have self-respect; and when that is gone there is but little hope.

Great attention is paid in Saltaire to education, even of the high sort. There are day-schools, night-schools, mutual improvement classes, lectures and discussions. Music—one of the most humanizing of pleasures—is one of the most favorite studies. "In almost every house in the town some form of musical instrument is found; and, indeed, the choral and glee societies have become household names." There is one full brass band for men, and another drum and fife band for boys; and concerts, vocal and instrumental, are regularly given by the work people in the dining-hall. The bands have instructors provided by the firm.

Besides taking part in the musical performances, a large number of the skilled workmen devote their leisure hours to various scientific amusements, such as natural history, taxidermy, the making of philosophical instruments, such as air pumps, models of working machinery, steam-engines, and articles of domestic comfort; while some have even manufactured organs and other musical instruments.

There is no drinking-house in Saltaire; so that the vices and diseases associated with drunkenness are excluded from the locality. The diseases peculiar to poverty are also unknown in Saltaire. Everything is attended to—drainage, cleansing and ventilation. There are baths of all kinds—plunge baths, warm baths, Turkish baths, and douche baths; and the wash-house, to enable the women to wash their clothes away from their cottages, is a great accommodation — inasmuch as indoor washing is most pernicious, and a fruitful source of disease, especially to the young.

The work people are also thrifty. They invest their savings in the penny bank and savings-bank; while others invest in various building societies, gas companies, and other lucrative undertakings. In fact, they seem to be among the most favored of human beings. With every convenience and necessity, as well as every proper pleasure provided for them; with comfortable homes, and every inducement to stay at home; with fishing clubs, boating-clubs, and cricket clubs; with school-rooms, literary institutions, lecture-hall, museum and class-rooms, established in their midst, * * * there is no wonder that Saltaire has obtained a name, and that Sir Titus Salt has established a reputation among his fellow-men.

There are large numbers of employers who treat their work-people quite as generously, though not in such a princely manner, as Sir Titus Salt. They pay the uniform rate of wages; help and encourage the employed to economize their surplus earnings; establish saving-banks and penny banks for their use; assist them in the formation of co-operative associations for the purchase of pure food at a cheaper rate; build healthy cottages for their accommodation; erect schools for the education of their children; and assist them in every method that is calculated to promote their moral and social improvement.—*Thrift, by Samuel Smiles.*

SPECIAL NOTICE TO OUR READERS

SPECIAL CALL.

AGENTS WANTED!

To sell the New Patent Improved EYE CUPS.

Guaranteed to be the best paying business offered to Agents by any House. An easy and pleasant employment.

The value of the celebrated new *Patent Improved Eye Cups* for the restoration of sight breaks out and blazes in the evidences of over 6,000 genuine testimonials of cures, and recommended by more than one thousand of our best physicians in their practice.

The Patent Eye Cups are a scientific and philosophical discovery, and as ALEX. R. WYETH, M. D., and WM. BEATLEY, M. D., write, they are certainly the greatest invention of the age.

Read the following certificates:

FERGUSON STATION, LOGAN CO., KY., June 9th, 1872.

DR. J. BALL & Co., Oculists.

GENTLEMEN: Your *Patent Eye Cups* are, in my judgment, the most splendid triumph which optical science has ever achieved, but, like all great and important truths, in this or in any other branch of science and philosophy, have much to contend with from the ignorance and prejudice of a too sceptical public; but truth is mighty and will prevail, and it is only a question of time as regards their general acceptance and endorsement by all. I have in my hands certificates of persons testifying in unequivocal terms to their merits. The most prominent physicians of my county recommend your *Eye Cups*. I am, respectfully, J. A. L. BOYD, M. D.

"WILLIAM BEATLEY, M. D., Salvisa, Ky., writes: "Thanks to you *for the greatest of all inventions.* My sight is fully restored by the use of your *Patent Eye Cups*, after being almost entirely blind for twenty-six years."

ALEX. R. WYETH, M. D., Atchison, Pa., writes: "After total blindness of my left eye for four years, by paralysis of the optical nerve, to my *utter astonishment* your *Patent Eye Cups* restored my eyesight permanently in three minutes."

Rev. S. S. FALKINBURG, Minister of M. E. Church, writes: "Your *Patent Eye Cups* have restored my sight, for which I am most thankful to the Father of Mercies. By your advertisement I saw at a glance that your invaluable *Eye Cups* performed their work perfectly in accordance with physiological law; that they literally fed the eyes that were starving for nutrition. May God greatly bless you, and may your name be enshrined in the affectionate memories of multiplied thousands as one of the benefactors of your kind."

HORACE B. DURANT, M. D., says: "I sold, and effected future sales liberally. The *Patent Eye Cups*, they will make money, and make it fast. Too nominal cash-penny affair, but a superb, number one, tip-top business, promises, as far as I can see, to be life-long."

Mayor E. C. ELLIS wrote us, November 16th, 1868: "I have tested the *Patent Ivory Eye Cups*, and I am satisfied they are good. I am pleased with them. *They are certainly the greatest invention of the age.*"

Hon. HORACE GREELEY, late Editor of the New York *Tribune*, wrote: "Dr. J. BALL, of our city, is a conscientious and responsible man, who is incapable of intentional deception or imposition."

Prof. W. MERRICK writes: "Truly, I am grateful to your noble invention. My sight is restored by your *Patent Eye Cups*. May Heaven bless and preserve you. I have been using spectacles twenty years. I am seventy-one years old. I do all my writing without glasses, and I bless the inventor of the *Patent Eye Cups* every time I take up my old steel pen.

ADOLPH BIORNBERG, M. D., physician to Emperor Napoleon, wrote, after having his sight restored by our *Patent Eye Cups*: "With gratitude to God, and thankfulness to the inventors, Dr. J. BALL & Co., I hereby recommend the trial of the *Eye Cups* (in full faith) to all and every one that has any impaired eyesight, believing, as I do, that since the experiment with this wonderful discovery has proved successful in me, at my advanced period of life—80 years of age—I believe they will restore the vision to any individual if they are properly applied." ADOLPH BIORNBERG, M. D.

Commonwealth of Massachusetts, Essex, ss.

June 5th, '73, personally appeared Adolph Biornberg, made oath to the following certificate, signed by him subscribed, and sworn before me. WM. STEVENS, J. P.

LAWRENCE CITY, Mass., June 9, 1873.

We, the undersigned, having personally known Dr. Adolph Biornberg for years, believe him to be an honest, moral man, trustworthy, and in truth and veracity unspotted. His character is without reproach.

M. BONNY, Ex-Mayor.
S. R. W. DAVIS, Ex-Mayor.
GEORGE S. MERRILL, P. M.
ROBERT H. TREWSBURY, City Treas.

Reader, these are a few certificates out of thousands we receive, and to the aged we will guarantee your old and diseased eyes can be made new; your impaired sight, dimness of vision and overworked eyes can be restored; weak, watery and sore eyes cured; the blind may see; spectacles be discarded; sight restored, and vision preserved. Spectacles and surgical operations useless.

Please send your address to us, and we will send you our book, A GEM WORTH READING!

A DIAMOND WORTH SEEING!

Save your eyes and restore your sight; throw away your spectacles!

By reading our Illustrated *Physiology and Anatomy of the Eyesight*, of 100 pages, tells how to restore impaired vision and overworked eyes; how to cure weak, watery, inflamed and near sighted eyes, and all other diseases of the eyes. Waste no more money by adjusting huge glasses on your nose and disfiguring your face. Book mailed free to any person. Send on your address.

AGENTS WANTED

to sell the *Patent Eye Cups* to the hundreds of people with diseased eyes and impaired sight in your county.

Any person can act as our agent.
