

case a great deal of careful attention, having spent no less than thirteen days over its investigation, two of which were spent in Park City.

The examination developed the fact that a third man had a hand in the murder, but he has thus far evaded the clutches of the law, having fled the country.

Deseret Hospital.—At an executive meeting of the officers of the Deseret Hospital Association, held in the Council House recently, it was decided to publish the names of the visiting committee, in their regular order. The committee consists of 18 ladies, Mrs. Elizabeth Howard, chairman, and is divided into six sections, each one numbering three. These ladies are expected to visit the hospital twice every week during one month beginning with August, 1882, in the following order: August, Mesdames Amelia F. Young, Fanny Y. Thatcher and Vilate C. Young; September, Mesdames Susan Stringham, Ellen Winder and Lula Green Richards; October, Mesdames Julia Horne, Julia Smith and Maria Y. Dougal; November, Mesdames Ellen C. Clawson, Rachel R. Grant and Miss Kate Wells; December, Mesdames Jane B. Taylor, Martha G. Wells and Jane P. Fowler; January, Elmina S. Taylor, Cornelia H. Clayton and Annie E. Neat.

Grand and Petit Jurors.—The following are the grand and petit jurors for the September term of the Third District Court:

GRAND JURY.

124. George Campbell. 49. G. D. Schell.
75. Geo. L. Ellis. 164. Wm. Naylor.
123. Chas. A. Tewks. 64. Daniel Whipple.
bury.
139. C. E. Stearns.
95. John Hardcastle. 131. L. E. Hall.
159. Orson P. Miles. 172. Thomas Pierpont.
163. R. A. Keyes. 37. J. B. Cecil.
65. Frank Wright. 62. Ed. Snellgrove.

184. Chas. S. Burton. 88. Powell Johnson.
45. Geo. C. Harkins. 142. Royal B. Young.
150. Charles Anderson.
Venue returnable October 16, 1882.

The Work in Indiana.—To-day we had the pleasure of meeting with Elder Stephen R. Marks, who is home on a brief visit from Indiana, where he has been laboring as a missionary for the last six months. Several other brethren are laboring in the same State, and during the time he has been there eleven new members have been added to the Church, with good prospects of a further gleanings. The opposition is active, so far as threats are concerned, but the Elders were only mobbed on one occasion, in Pine Village, where they were pelted with refuse. The Elders all feel undaunted, and determined to prosecute their labors. The Saints in that part of the country are, as elsewhere, very kind and hospitable to the Elders.

On the 6th inst., the day previous to Elder Marks leaving for home, Elder William N. Palmer, President of the Northwestern States mission, baptized six new members at Johnsonville, Indiana.

Our readers are aware of the sad character of the cause of the return home of Elder Marks—the death of his two little children. In their bereavement himself and wife have had the sympathy of hosts of friends, which has been manifested by numerous acts of kindness and is duly appreciated by them. We are requested by Brother Marks to express this much through our columns. Elder Marks expects to return to his field of labor about the end of August or beginning of September.

"Imperium in Imperio."—There is a split in the Utah Federal official camp. A short time since a petition designed to be sent to Washington was prepared and circulated for signatures. Its design was to have the autocratic power of Governor Murray, or rather the circular combination with which he is connected, extended. The "liberal" document empowers Mr. Murray to fill all Territorial offices at the expiration of the terms, pending an election under the Edmunds bill regime, by appointment. One Federal official, at least, after sleeping on the subject, objected to signing the petition, on the ground that

he was not prepared to go into absolutism by wholesale. He was not prepared to take part in any movement whose object was to place such unlimited power into the hands of any one man.

This has caused the contents of a hornet's nest to buzz about his ears, and a clamor for his removal. He is being investigated by a couple of government agents, said to have been sent out here at the instance of this section of the political brotherhood which favors gubernatorial autocracy.

We are not displeased with the attempt of the O. H. S. S.—Office-Hunters Secret Society, to establish in the heart of the Republic an *Imperium in Imperio*, as it throws into clearer prominence the constant object of their pursuit. The endeavor is not only a parody on republicanism, but an insult to the Congress of the United States, to ask that august body to establish in the heart of the Great West a political anomaly in a republic based on the "One man power." We have no fears that so preposterous and outrageous a conspiracy as the one contemplated by the petition will succeed.

FROM FRIDAY'S DAILY, JULY 14.

Commutation.—Governor Murray having taken official action on the petition to have the death sentence upon George Catlin commuted, the latter did not suffer the extreme penalty of the law at Ogden to-day. The commutation is to life imprisonment.

Earl Clanricarde.—About two weeks ago we published a communicated obituary of this distinguished gentleman, based on an associated Press dispatch to the effect that his Lordship had been murdered on his estate in Ireland. Our correspondent is pleased to find, on examining New York papers, that the dispatch as received here was an error, the fact being that the murdered parties were a cousin of Lord Clanricarde, named Mr. Blake, and his steward, who were shot by unknown persons from behind a wall.

Body Found.—A dispatch from Alta says:

ALTA, July 13, 1882.—The body of Robert Greaves, killed by a snow slide in Big Cottonwood, the 25th of last May, was found to-day by Jacob Jones. The body is in a fair state of preservation. P. Greaves, at the time of the snow slide, was walking towards his cabin, when the slide started and carried him away. A determined search was made for the body for a long time, but the labor appearing fruitless, it was abandoned, and the body left, like others have been before—from necessity—to be discovered by the melting of snow.

Gone to the War.—Mr. Phil. Robinson, whose racy letters on the "Mormon" question in the New York World, have given him such a wide reputation throughout the Territory, has apparently

Hung his harp on a willow tree,
And is off to the wars again.

He has been there before, and like the old war horse, "the paweth in the valley and rejoiceth in his strength, he goeth out to meet the armed men." "He saith among the trumpets, Ha, ha; and smelleth the battle afar off, the thunder of the captains and the shouting." We understand that he goes back to his old position, in the thick of the fight as war correspondent for the London Telegraph. The World will therefore, at least temporarily, lose a brilliant writer but what is their loss will be the Telegraph's gain. Mr. Robinson is a man of marked ability, one who is destined to leave very decided footprints on the sands of time, and we heartily wish him success wherever he goes.

ACCIDENTAL DEATH.

AN OLD MAN DROWNED IN TWO INCHES OF WATER.

The following special by Deseret Telegraph, was received to-day, from Mantli:

Last night a man named Anders Westensen, aged 90 years, formerly of Denmark, but who had resided here for the last thirteen years, met with his death as follows: He had been sick for the last six months, and had to be watched, but it happened he was alone and was walking in the garden, when he fell upon his face into a small ditch, containing only about two inches of water, being unable to get up, was drowned.

A JOURNALISTIC ENTERPRISE.

A COMPANY FORMED FOR THE PUBLICATION OF A NEW PAPER AT LOGAN.

A company, to be known as the Utah Journal Printing and Publishing Company, has been framed and will shortly be incorporated in Logan, for the purpose of publishing a newspaper to be called the Utah Journal, and for the carrying on of a general printing and publishing business.

The capital stock has been placed at \$10,000. A power press, with a large quantity of type and other printing materials have been ordered, and a transfer to the company, of the printing establishment, patronage, etc., of the Logan Leader, has been effected.

The officers of the new company are: President, Moses Thatcher; Vice-President, Wm. B. Preston; Secretary, John T. Caine, Jr.; Treasurer, E. A. Stratford. The board of directors consists of Moses Thatcher, Wm. B. Preston, G. W. Thatcher, John T. Caine, Jr., E. Burnett, B. F. Cummings, Jr., and John P. Smith.

In obtaining the services of Mr. G. Burnett, the company is fortunate, as he is not only a good printer but an experienced newspaper man in literary as well as mechanical work.

The Utah Journal will be a semi-weekly newspaper of four eight-column pages. In tone it will be independent, vigorous and progressive, and earnestly devoted to the advocacy of the rights, liberties and interest of the masses of the people of Utah.

The presiding and other officers of the company furnish occasional contributions in the form of editorials and other articles.

The first number of the new paper will appear as soon as the press, which is daily expected, has arrived and been set up. The first issue will consist of an edition of 5,000 copies to be sent to subscribers and judiciously distributed throughout Utah and in adjoining Territories. A large subscription list has already been secured, and Mr. B. F. Cummings, Jr., is now in this city, securing subscribers, and soliciting advertisements from business men.

The new paper begins life with a management, and under auspices that presage a rapid and vigorous growth, and we shall look to see the Journal become a potent influence for good among the people of Utah, and elsewhere, as it is the design to give the paper an immediate circulation throughout this and adjoining territories, as well as in the East and West.

FROM SATURDAY'S DAILY, JULY 15

Th Third Bicycle Race.—The third bicycle race for the gold and silver medals will take place at Calder's Farm on the 24th inst. All entries for the races must be recorded at a meeting of the club to be held next Monday evening.

Bishop Miller Prostrated.—We were pained to learn, this morning, that Bishop Reuben Miller, a much respected member of the community, was stricken with paralysis, on Thursday, and now lies prostrated at his residence from that cause. He was at the County Court House all day on Monday, at the session of the Court, of which he is a member, and appeared at that time in his usual health.

Conclusion of the Inquest.—The inquest over the remains of William Kennedy, whose body was brought in from Park City on Wednesday, was concluded last evening. Deputy Sheriff Milton Thomas was the only witness examined.

His statement was, in substance, that a fight occurred on Monday night in front of a saloon, and deceased was found dead the following morning at six o'clock in a little cabin a short distance to the rear of the establishment. A woman who runs the saloon had stated that Kennedy passed out of the place an hour before the fight, and was at that time apparently all right. A man named Ingraham had been arrested at Park City on a charge of having caused the death of Kennedy by kicking him, but was released for want of evidence. Dr. McFall stated that deceased came to his death from having a fit or from the effects of bad whiskey. Elaf Johnson, a man named Foley and another (an Italian) by the name of Castro participated in the fight, the latter having been arrested and

finned the following day for his share in the affair. Foley had been badly kicked by Ingraham, who subsequently boasted that he had kicked another party, supposed to be Kennedy. The deceased had been drinking before the fight occurred.

After hearing the evidence of Mr. Thomas, the jury returned a verdict to the effect that William Kennedy came to his death at Park City on the night of the 10th or morning of the 11th of July from the effects of violence inflicted by parties to the jury unknown.

It has been demonstrated by the investigation here that a brutal crime has been committed, by which the life of a human being has been taken. It remains to be seen whether the local officers will trace the matter up until it is brought home to the perpetrators.

EFFECTS OF AN EXPLOSION.

TWO MEN SERIOUSLY AND ONE BOY SLIGHTLY INJURED.

From Brother Wm. M. Stuart, of Draper, we have information of a serious accident which occurred at that place the day before yesterday. Thomas Stokes, George Terry and a boy named William Terry, son of Jacob Terry, were at work together on the ditch that runs along the base of the mountain. A blast had been prepared and the fuse ignited, which burned out without an explosion taking place. They then proceeded to drill out the charge, the boy being engaged pouring water on the powder to keep it wet, to prevent it exploding. This precaution proved insufficient, as an explosion took place, shattering the rock and injuring all three of the parties named.

Thomas Stokes, who held the drill had his hand all torn away excepting the thumb, the bone of which was broken, as well as several other bones of the wrist. George Terry was thrown down with great violence and severely injured about the face. It was thought for some time that he was killed. The boy was struck in the abdomen with a fragment of the rock, and knocked down but not seriously injured.

As soon as the explosion occurred, Stokes ran away from the scene of the disaster, holding the detached hand in the sound one, presenting a pitiable spectacle. Somebody met him and told him that Terry was killed, when he at once wheeled around and returned to the place where the accident occurred, being pleased to discover that his companion was alive.

Dr. Benedict happened to be at Sandy on the day the accident occurred, and being called to attend to Mr. Stokes, he amputated the injured member about four inches above the wrist. We understand the patient is doing well.

It is stated that the sight of one of Mr. Terry's eyes is destroyed, but this is not confirmed. He came up to this city for treatment on the next train after the accident from Draper.

Since the above was written we have learned from Dr. Roumanian B. Pratt, who is attending Mr. Terry, that the ball of the injured eye is not destroyed. It is severely ruptured, and a cataract has grown upon it which almost entirely obscures the sight. The organ is, however, in a fair way of healing, and it is not deemed advisable to have the cataract removed at present, as the operation might endanger the existence of the eye.

FROM MONDAY'S DAILY, JULY 17.

Cache County Fair.—We learn from Mr. S. Holt that preparations are being made for the Cache County Fair to be held at Logan, Sept. 20, 21 and 22. The Logan Driving Park Association will have some good horse races. The affair is expected to be the best ever held in the County.

The Killing of Kennedy.—Sheriff Allison and Deputy Moore have arrested Brigham Pollock, W. N. Ingraham and A. Casterline, on a charge of killing the late William Kennedy, on whose remains a post mortem examination and coroner's inquest was held in this city. Pollock has made a confession giving full details of the killing.

Still Seriously Ill.—About one o'clock yesterday Dr. Benedict performed another operation upon Judge Pyper. It was in the nature of an incision in the front part of the neck for the removal of an accumulation of pus, a considerable

quantity of which was emitted from the wound. Last evening the patient was, we regret to have to state, quite low. We have not learned of his condition to-day.

Dangerous Articles.—Since the 4th or 5th of July, our exchanges have given accounts of numerous fatal results to children in various parts of the country from the use of toy pistols. They inflict wounds upon the hands of the juveniles who use them of such a character as to cause paralysis and lockjaw, and not infrequently death supervenes. We regret to learn that Leslie, the little son of Mrs. Col. Woods, of the 18th Ward, was injured in the hand by one of those little implements on the 4th, and that the very serious symptom of spasms and paralysis have developed in his case. The sale of toy pistols should be forbidden by law.

Weber Stake M. I. A. Conference.—Yesterday morning the Mutual Improvement Association of Weber County convened in Conference in the Ogden Tabernacle. The morning exercises consisted of a historical address from Jacob Thomas, of Harrisville; an excellent essay on Utah by R. N. Cox, of Hooper; a well delivered address on the general apostasy and restoration by George Hall, of Huntsville, and remarks by Elder Junius F. Wells. The afternoon was occupied with addresses from Elders Jos. H. Parry, Newton Farr, Geo. Butler, Winfield S. Harris and President Joseph F. Smith.

President E. H. Anderson and all the officers of the Stake take much interest in their duties, and the result is the associations are in a commendable state of activity.

Serious Loss.—The honey bee interests of Salt Lake County have been very seriously retarded by the fatalities experienced among all the bees in the neighborhood of Mill Creek during the past three months of this spring and early summer, resulting in their nearly total extermination in many instances. J. C. Murphy has lost 100 stands out of his stock of 107. George Bailey has lost a similar large per centage, the exact number we did not learn, and Wm. Smith lost 23 stands, his entire lot. While the cause of this destruction is not indisputably known, there can be no doubt that the smelters on Cottonwood have had a great deal to do with it, the poisonous exhalations or fumes being carried over the district in the dense smoke.

The apairists above mentioned are determined to try again, and have already sent east and procured some new bees from which to raise more colonies.

DEATH OF SISTER HARRIET W. TAYLOR.

We regret to have to announce that Sister Harriet Whittaker Taylor, wife of President John Taylor, died at 1.15 a.m. to-day, at her residence in the 14th Ward of this city. Deceased lacked two weeks of being sixty-six years old, having been born at Blakedown, near Kidderminster, Worcester, England, on the 30th of July, 1816.

Deceased embraced the Gospel at an early day. She and two of her brothers and two sisters emigrated from England to Winter Quarters, and crossed the plains to Utah in 1847, in the company which was in charge of President John Taylor, to whom she was married shortly after her arrival here. While her husband was absent on missions abroad she cheerfully supported herself and family during the prevalence of hard times in the community, when many able-bodied men found it difficult to obtain sustenance.

Deceased was of a modest, retiring disposition, but was always ready to share her substance with the needy. She was firm and immovable in her faith in the Gospel as revealed in this dispensation through the Prophet Joseph, and was never known to repine or complain under any circumstances through which she passed. The funeral services will be conducted at the Fourteenth Ward Assembly Rooms at 3.30 p.m. to-morrow.

Do You Want

A Thresher that will clean perfectly all it will thresh, and never clog, be the Grain wet or dry, then buy a Ferguson or Aultman-Taylor Vibrator.

SW & W
