IT IS A FACT that many grocen sell Dr. Price's Baking Powders at the same price they do the cheaper kinds, and as they have to pay more for it, make less money, hence they never sell it unless the purchaser demands it. They place it out of light, and urge their customers to aight, and urge their customers to take the common kinds because they are more profitable. Let cen-sumers become acquainted with the fact that it is only necessary te mix one part flour to two parts Dr. Price's Cream Baking Powder to make a powder as perfect in its results as other kinds, and there are few who would pay the same price for the adulterated articles as for Dr. Price's, not when flour costs less than six cents a pound.
