

levee at Williamson's, three miles below, has momentarily been expected to give way. A more hopeful feeling is manifested this evening; scarce an inch rise the past twenty-four hours, and only two inches reported in the St. Francis at Madison.

Memphis, 7.—River stationary the past two days. The steamer *James Lee* arrived this afternoon from Friar's Point, bringing 200 negroes from off submerged farms. Her officers report all the country between Memphis and Helena, Ark., under water, saving where strips of levee yet remain. Austin, Miss., is overflowed to a depth of several feet. The water rushes through the town. The new levee at Delta, La., gave way on Monday, which will cause serious damage to many valuable farms. The rapid rise in St. Francis River caused great loss to lumbermen. Thousands of logs were swept away by the swift current. There is much suffering among the inhabitants of the sunk lands. Their isolated position makes it almost impossible to afford them relief.

New YORK, 7.—The *Post* says: The November tidal wave has not wholly spent its force, judging from the results of some of the local elections in this State yesterday. In Utica the Democratic candidate for Mayor was elected by an increased vote; the Oneida county board of supervisors is democratic by 15 majority, and last year it was republican by two majority. In Rochester the democrats elect the mayor and hold their own in the board of supervisors. In Erie county the democrats have gained five towns and the republicans three, a net gain of two for the former. In Columbia county fourteen democrats and seven republican supervisors are elected. Last year there were eleven democrats and eleven republicans. Upon the whole the results of these local elections must be added to many other signs that the republican party will scarcely recover its lost ground by the mere reaction to which some of its leaders have been trusting.

New YORK, 7.—Clearing House exchanges for the week, compared with the corresponding week last year, show the following gains and losses in transactions in the chief business centres: Gains: Philadelphia, 9.1; Chicago, 8; Cincinnati, 1.9; Baltimore, 8; New Orleans, 23.4; Louisville, 22.8; Pittsburgh, 12.6; Kansas City, 85.8; Hartford, 12.5; New Haven, 1.2; Memphis, 32.6; Peoria, 16.6; Lowell, 100.1; Worcester, 10.1; Springfield, 8.

Losses: New York, 29.9; Boston, 5; Memphis, 1; San Francisco, 9.6; Milwaukee, 9.9; Providence, 1.8; Indianapolis, 13; Cleveland, 18.3; Columbus, 16; Portland, 2.4.

Public says: The volume of business in New York has been greatly affected by uncertainty as to the tariff, now happily ended; but the volume of business elsewhere, though somewhat unsteady, has on the whole exceeded that of the corresponding month or week last year, by about 3 per cent. This has occurred in spite of considerable irregularity. Returns have at times presented a disheartening appearance.

New York, 7.—G. P. Bevan, of the London *Times* staff and an English gentleman who is agent of some British capitalists, arrived on the Baltic yesterday, en route to New Mexico, Arizona and California, seeking mining land and stock raising investments. They go by the Southern Pacific, returning here in about three months. The opening of the railroads into the southwestern Territories, they say, has stimulated interest in that region among English companies and capitalists seeking investments.

New YORK, 7.—It is a curious fact that notwithstanding Wiggins' utter collapse last month as a weather prophet, there is a widespread interest and uneasiness evidenced in the telegraphic dispatches, especially those reaching here from Canada and parts of New England, respecting his predicted hurricane of the 9th. At the signal office here it is expected that the 9th and 10th will be beautiful days, and Wiggins is totally discredited. What has become, they ask, of the storm predicted by him to strike the Pacific coast last month?

Ottawa, 7.—Wiggins says the storm of yesterday and to-day is merely an arm of the great tempest. The Professor did not go to Halifax as previously reported, the railways being blocked.

Montreal, 7.—The snowfall yesterday and last night was the heaviest of the season, five feet. The storm around Quebec was the

worst of the season, but has abated. Stories of wrecks, with loss of life, are being received.

OTTAWA, Ont., 8.—Wiggins holds fast to his prediction of a terrific storm on the 9th and 11th of this month, and says: "This storm is the decisive battle ground between myself on one hand and Gen. Hazen, Mr. Carpell Vennor and meteorological scientists generally on the other."

New YORK, 8.—The *Herald* says: If the great storm predicted by Wiggins is to arrive on time we shall certainly hear to-day of its forerunner, the wave striking the Pacific Coast. He promised that this storm should, first be felt in the northern Pacific, whirled along over the current of the warm *kuro siwo* in which atmosphere, reeking with moisture favorable to its expansion, such a cyclone will raise an immense ocean swell several feet high, the force of which will be transmitted very rapidly to regions far in front of the howling tempest. As a great ocean depression of the kind predicted by Wiggins is attended by a tidal wave proportionate to the diminution of pressure in the storm centre, we are entitled to look for this premonition on the California coast. In fact, if his calculations are right, a tidal wave at San Francisco is already overdue, and if not very speedily reported, those who are apprehensive that the Canadian prophet's big storm will actually arrive on time, may breathe a little more freely. It is possible that a storm of dangerous force may enter the Pacific States without such preliminary oceanic disturbances, but then it could hardly develop into the monster tempest predicted for March 11, and would be comparatively a tame affair, like that which appeared in Oregon, March 8, 1881.

St. LOUIS, 8.—Gov. Crittenden has pardoned Clarence Hite, a noted member of the James Gang, who pleaded guilty to train robbery in Feb., 1892, and was sentenced to 25 years imprisonment. The pardon was issued on recommendation of the penitentiary physician and the guard inspectors. Hite, who is said to be in the last stages of consumption, has started for his father's home in Logan County, Ky. There is speculation as to the effect of Hite's pardon upon Frank James' prospects. It is believed if he went on the witness stand, or made a deposition, he could send James to the penitentiary.

LOGANSPORT, Ind., 8.—The German Lutheran Church burned here; loss \$32,000; no insurance.

SPRINGFIELD, O., 8.—Martin Luther Phelps last night, 15 minutes after returning from church with his wife, fired three shots into her, then shot himself dead. The wife will probably recover.

SPRINGFIELD, Mass., 8.—Joseph B. Loomis was hanged this morning for the murder of David Sett, in Agawam. Two hundred persons witnessed the execution. Loomis supplemented the confession made on Wednesday by reading a statement on the scaffold acknowledging the crime, and attributing it to rum.

LANGVILLE, 8.—The river rose two inches last night. This indicates a rise here which will continue some days.

Helena, Ark., 8.—The river rose a scant half inch during the past 12 hours. It is thought the levees can be held here now against probable emergencies, as they were maintained last night against a terrific gale that sent the water over in many places. The situation is still critical, however. Below Helena the country is all under water from five to six feet. The back-water from Hubbard is appearing in the lower end of the city, but will do no damage. Unless other breaks occur there will be no overflow in Helena.

ST. JOHNS, N. F.—Furious gale here last night, several vessels damaged.

FOREIGN.

The election of the Most Rev. Edward W. Benson as Archbishop of Canterbury in place of the Most Rev. Dr. Tait, deceased, was confirmed on Saturday in Bow church, London. The ceremony was formal and brief. The Archbishop of York and the Bishops of London, Durham, Litchfield, Rochester and Exeter officiated.

The North German Lloyd has made a contract with John Eller & Co., for the construction of two boats of the size and speed of the *Fulda*. The Anchor company is organizing a sail line between Liverpool and New York.

The £10,000 withdrawn from the Bank of England yesterday was for New York.

Dennis Field, the juror in the Hynes case who was sick abed after the conviction of Hynes, has lodged a claim for £10,000 as compensation for his injuries.

The Clepington Spinning Company's jute warehouse at Dundee, is burned, together with 10,000 bales of jute, loss, £20,000.

The Lords have appointed another committee of inquiry into the effect of the Irish land act.

Wrotham Park, the country seat of the Earl of Stafford, is burned.

A severe gale with snow has prevailed the past 24 hours.

Two vessels and three men were lost at Dundee; three vessels at Harborough; one at the Isle of Man, and two lives were lost at Whitstable.

Two vessels were wrecked at Scheveningen, Holland; 14 persons were drowned.

The authorities at Schleswig have commenced to expel the Danes refusing to enter the army.

Madrid, 6.—The authorities continue to act vigorously in Andalusia.

The president, secretary and 12 members of another branch secret society, were arrested at Pedrosa, in Seville, and letters and statutes have been seized. Twelve members of another branch have been arrested at Cazalla de la Sierra.

It is reported that owing to representations of Great Britain, Macod, Cuban refugee, has been removed from Pampeluna to Ceuta. His health was suffering at the former place.

Constantinople, 6.—Negotiations between General Wallace, United States minister, and the Porte in regard to petroleum warehouses are approaching a satisfactory conclusion. Wallace claims each importer shall have a special warehouse outside of town and that the present storage dues shall be reduced.

Canada, 6.—The Duc de Chartres, placed on the retired list of the army, has applied for a passport to travel in India.

Berlin, 6.—The *National Zeitung* states that the Prince of Wales expressed disapproval with reference to the military degradation by France of the Orleans Princes.

The Duke of Edinburgh will be present at the coronation of the Czar of Russia. The Prince of Wales will not attend.

Reports are again current that Bismarck has had a conference with leaders of the National Liberty party.

Gen. Blumenthal, commander of the Fourth Army Corps, is appointed Minister of War. A technical difficulty prevented the appointment of Gen. Bronsart Von Chelendorff. The Emperor was very unwilling to dispense with Gen. Von Kameke's services.

Baden Baden, 6.—Prince Gortchakoff, ex-Chancellor of Russia, is dangerously ill here.

Vienna, 6.—Four hundred more workmen are dismissed from the manufactory of fire arms at Shoter, on account of the lack of orders from abroad. The total number of employees is reduced from 6,000 to 5,000. Many intend to emigrate to America.

The famous Hungarian race mare Kincaen, winner of fifty-four races and never beaten, was shot Monday, having glanders. She was with foal. Kincaen was withdrawn from the turf, being unable to carry the extra weight with which handicappers loaded her.

Nursing mothers gain strength by using Brown's Iron Bitters. It acts like a charm in restoring to health and strength overstrained nature.

County licenses, Applications and Bonds, for Sale at the "Deseret News Office."
