FORTY-SEVENTH CONGRESS.

SENATE.

WASHINGTON, 27.—The naval ap-

propriation bill was taken up. The

question was upon the motion of

Camron, of Pennsylvania, to re-

commit the bill, with instructions

to eliminate all the general legisla-

tion changing the existing laws in re-

gard to the navy.

David, of West Virginia, asked

that the bill be proceeded with at

once.

The reduction in the naval ap-

propriation bill in the navy was

under the new arrangement was \$180,

500. Similar savings occurred in

the other departments. The bill

was passed by a vote of 75 to 15.

What the country wanted was not

another example of a bill of this

kind, but a bill of a different

kind, one that would be a

STATEMENT.

statement that one in every eight

and a half of the Mormons are

polygamists, and that the Mormon

outside of these practicing polygam-

ists are equal to, if not greater in

number than the Gentiles. The

Mormons intend to do all in their

power to retain the law, and

they now possess in Utah. The

contest between the friends and

foes of polygamy will be long and

bitter.

In conversation with the four

correspondent to-day, Cannon said:

Our people are determined to

maintain the constitutionality of

the law, and it is probable that

the four test cases will be made

at the first opportunity to lay

before the Supreme Court. It is

true that the passage of the bill

many have ceased to live with

more than one wife. John Taylor,

President of the Church, for exam-

ple, has a family, and places his

wife in different houses, and in

living with only one of them. There

are cases, that I know of, where

Mormons living in plural wives

are separated from their families.

In one instance a man who married

two sisters at the same time, many

years ago, put them in a dwelling

with one of the exclusion of the

other. There will be many cases of

course, and many more will be

abandoned. I have endeavored to

regulate the conduct of the house-

holds so that they will not be

violated. Many of the members

of the church would not dis-

continue to live with more than

FOREIGN.

SEYDIN PASHA.

ALEXANDRIA, 27.—Arab Pasha

has written the Sultan as follows:

"I trust it is false that, as enemies

of Islam, Ottoman troops are

coming to Egypt, as I should have

no objection to their coming.

It is doubtful whether Cherif

Pasha will consent to form a min-

istry for the Khedive.

PARIS.

PARIS, 27.—In the Chamber to-

day De Freycinet announced that

Turkey had accepted proposals of

intervention in Egypt. He said he

was awaiting further information

and the government was anxious to

conclude the debate on the motion

for a second vote of credit, but

until Saturday. The Chamber

adjourned.

The committee of the Chamber

which rejected the proposal for a

second vote of credit of 9,500,000

francs yesterday, contains neither a

majority for intervention nor a

majority against it, but it rejected

the credit because it was unable to

agree on either policy. It depends

entirely upon De Freycinet whether

the credit is carried or not.

Spain wants a Finger in the Pie.

MADRID, 27.—The circular of the

minister of Foreign Affairs to

representatives abroad, instructing

them to be on the alert to the

Spanish question, shows the im-

portance of the interests of Spain

in the east. It refers to the

Spanish territory on the shores of

the Mediterranean, and the great

Spanish population residing in

colonies. The circular also refers

to the interests of Spain in the

Canal of Suez, and declares that

the interests of Spain in the

Canal are of great importance.

Circumstances are enumerated to

demonstrate the right of Spain to

be consulted upon the Egyptian

question as settled by Europe.

London, 27.—Six business houses

at Exeter were burned. Loss \$50,

United States and Switzerland, and

the other contracting powers that

have given their adhesion to this

the Geneva Convention.
