

# **EVENING NEWS.**

Friday, April 22, 1898.

## **FRAGMENTS.**

**DEPUTY REGISTRATION.**—The Utah Commission yesterday appointed the following deputy registration officers to attend to the registration of voters next June:

In the Elk saloon last evening, John Haskins, who had been drinking beer, and the keg fell on one of his legs, breaking it in two places below the knee.

**KERNEHAN.**—One of the convicts released from the penitentiary yesterday went to a house of ill-fame last night and created a disturbance, giving one of the women a black eye.

**The suit of Salt Lake City vs. O. J. Hollister.**—For \$10,000 and interest, all alleged to have been illegally collected as whisky tax, was argued in the United States Supreme Court yesterday.

**A small satchel** containing a handkerchief, some money and a pass to the Penitentiary with the owner's name. The finder will greatly oblige by leaving the same with Mr. Henry Walk at Z. C. M. I.

**The D. & R. G.** through train from the east, due in this city last evening, arrived this morning. The obstruction having been removed from the track, all is now clear, and a special train with passengers left for the east this afternoon.

**Two boys** were tried in the police court this morning, charged with disturbing the peace of an old lady. The case was the outcome of a dispute over chickens, and the boys were dismissed with a reprimand from the judge, on their promising to conduct themselves properly in the future.

**About 3 o'clock** this morning the attention of the police was attracted by Fitzgerald's gun by hearing six pistol shots in rapid succession. An investigation revealed Fitzgerald standing with a revolver in hand over the dead body of a wildcat he had on exhibition. The cat succeeded in getting out of its cage and had to be killed to prevent damage.

**The Postoffice Department** at Washington has ordered an investigation of the theft of the Fordham-Best letter, which was published in the "Ring" organ before reaching its destination. It now remains to be seen how much "assistance" the United States officials here will give the government's special agent when he commences to look for the thief.

## **LOCAL NEWS.**

### **EXCOMMUNICATED.**

**OAKLEY, April 18, 1898.**—This is to certify that, at a public meeting of the members of the Church of Jesus Christ of Latter-day Saints, in Oakley, held this day, Ammon Tolman was excommunicated for the crime of adultery.

H. D. HAIGHT, Bishop.  
H. H. SEEVERS, Clerk.

**Fined.**—The trial of Charles and Mary Miller, in the police court yesterday, resulted in the conviction of both of the accused on charges of vagrancy. The woman was sentenced to 30 days' imprisonment, while her alleged husband received a well-deserved sentence of 75 days in jail.

**Charge Ignored.**—The grand jury of the First District Court have ignored the charge against Elizabeth Craig the inhuman female who murdered her newborn child, the product of her incestuous intercourse with the brute Thorne, who now languishes in the Penitentiary as a result of his crime.

**Death by Drowning.**—On the 15th inst. a fifteen-months' old child, the daughter of Nelson and Mary C. Brown, of Joseph City, Sevier County, accidentally fell into a wash tub containing water and was drowned. O. B. Cooley, the justice of the peace of the district, summoned a jury and held an inquest on the body, resulting in a verdict of accidental death.

**Arrested.**—Last evening the constable who started in pursuit of the young woman Mosson, of South Cottonwood, to arrest her on a charge of infanticide, succeeded in serving the warrant. A preliminary examination was set for this morning, before the justice of the peace, but was continued over until Monday, and during the interim the affair will probably be investigated by the grand jury.

**Sudden Death.**—The many friends of Sister Jane Romney, wife of Elder George Romney, of this city, will be surprised and pained at learning of her death, which occurred at 9:30 this morning. She has been ailing for some time, but none of her friends had any idea that her condition was dangerous, or that death was so near. She leaves nine children, who with the bereaved husband, will have the sympathy of all her acquaintances.

**Deputy Registrars.**—The Utah Commission yesterday appointed the following deputy registration officers to attend to the registration of voters next June:

Kane County—B. L. Young, Kanab precinct; W. H. Latta, Johnson precinct; J. A. Stewart, Pahreah precinct; R. M. Engstrom, Mt. Carmel precinct; William Carroll, Orderville precinct; H. A. Loomis, Glendale precinct; W. H. Hunsley, Upper Kanab precinct.

Sanpete County—J. D. Page, Mt. Pleasant precinct; A. Crane, Fairview precinct; Jacob Johnson, Spring Creek precinct; Geo. Quinn, Mantle precinct; John B. Axtell, Panguitch precinct; Jos. Christensen, Mayfield precinct; Jos. Robbins, Gunnison precinct; Ed. Redd, Payette precinct; Wm. Christensen, Chester precinct; N. L. Ellison, Monticello precinct; Christian Neumann, Alton precinct; H. B. Bracker, Fountain Green precinct; Nelson Tidwell, Sr., Thistle; B. H. Young, Winter Quarters.

Tooele County—Wm. F. Moss, Mt. Pleasant precinct; John Hillstead, Battlement precinct; Robert Scott, Tooele precinct; John G. Johnson, Ogden precinct; Richard N. Bush, Glover precinct; Edward J. Arbut, St. John precinct; Louis Hunsberr, Vernal precinct; David B. Storer, Stockton precinct.

**Tenth Ward School Tax.**—Notwithstanding the inclement and disagreeable weather last night, there was a very fair representation of the taxpayers at the meeting called by the trustees of the Tenth School District for the purpose of considering the advisability of levying a tax of three-fourths of one per cent to build a school house. Mr. William Fuller was elected as chairman, and Mr. J. T. Strong as secretary of the meeting.

Mr. John Kirkman, one of the trustees, gave the idea of that body in relation to the building of the new house, in case it was decided to levy the tax. At this point it was found that the school house where the meeting was being held was too small to accommodate those assembled (thus forcibly bringing to their notice its incapacity for accommodating 353 school children, the number resident in that district). The audience accordingly adjourned to the meeting house. Mr. Strong resigned the position of Secretary and Mr. J. H. Paul was elected in his place. Mr. Hillman moved that the trustees be empowered to levy a tax of three-fourths of one per cent.

U. S. Commissioner E. B. Critchlow opposed the motion on the ground that he did not think enough would be realized from so small a tax, to increase the school facilities to the required capacity, and favored a larger tax or none at all. His speech was loudly applauded by those present.

Mr. J. H. Paul moved an amendment to the motion, that the tax be placed at one and one-fourth of one per cent. Mr. J. M. Young offered another amendment, that it be still further increased to one and one-half per cent.

Upon a vote being called, the chairman appointed Messrs. Buckle, Critchlow and Eyer as tellers, and the vote being given on Mr. Young's amendment, resulted in a vote of 52 for to 40 against it. Mr. Hillman's motion as amended was then put and carried by 60 to 31, thereby giving the trustees the power to levy a tax of one and one-half per cent.

Upon motion of Mr. Paul, the trustees were instructed to have plans and drawings made by a competent architect, which were to be submitted to a committee of seven of the resident taxpayers of the district, who were to report at a future meeting of the taxpayers, to be called for that purpose, said committee to be appointed by the chairman. The chairman accordingly appointed Adam Spillers, C. W. Symons, M. Cullen, E. B. Critchlow, M. Helman, J. C. Woods and J. H. Paul to act as such committee, after which the meeting adjourned sine die.

**Change of Climate.**—A marvelous change has come over the climate of this country since it was first settled by white men in the year 1847. At that time parties who were somewhat familiar with the Salt Lake Valley, from having visited it as trappers or mountaineers, claimed that they never knew of rain falling here during the summer season, and though a shower occurred almost immediately after the arrival of the pioneers, as if to signalize a change of climate, it was many years afterwards before such occurrences became common by any means. During the past few years, however, there has been a very material increase in the rainfall, and the climate seems to be gradually changing from one of the driest in the world to one of comparative humidity. The frequent showers of late have been almost enough to make one imagine himself in the cool, damp climate of England.

The change of climate necessarily brings about changes in the system of agriculture in vogue. Instead of the soil having to be diligently irrigated all through the summer season to raise any kind of a crop, as used to be the case invariably, small grain and lucern are frequently raised now without artificial irrigation, and in rare cases some other kind of crops also, while some farmers actually find it necessary to drain their land on account of it being too wet, instead of their chief care being to procure water enough for it, as formerly.

Ranch land, in which a few years ago was considered almost worthless on account of scarcity of water for it is now extensively cultivated and regarded as quite valuable. Streams of water have greatly increased in volume and the capacity for irrigation is now found to be many times what it was once thought to be. Springs have burst forth in some places that were formerly dry and barren and the boring of artesian wells has opened up another resource for the development of the country.

In view of all these changes it is perhaps not unreasonable to expect that in course of time not only will all the best of the country be cultivated, but that even the low foot hills will become vineyards and garden spots and yield a glad return for the labor of the husbandmen who will cultivate their slopes after the manner in vogue in European countries.

**The Pardoned Convicts.**—The information regarding the pardoning of a number of inmates of the penitentiary yesterday, by Governor Murray, having reached us late in the afternoon, we were only enabled to give the names of the fortunate objects of executive clemency. It is of interest to the public to know the nature of the offenses of which they had been convicted.

John Emerson was convicted Dec. 10th, 1881, of murder in the first degree, he having been indicted as being implicated with Fred. Hoyt in the killing of John F. Turner. He was sentenced to imprisonment for life. Joseph Biddiscombe, convicted of murder in the first degree, May 30th, 1883, in the killing of Charles Jones. Patrick Callaghan and David Fennell, convicted of murder in the second degree, the former being sentenced to imprisonment for 14 years and the latter 13 years.

Frank Clinton, convicted of burglary December 8th, 1882, and sentenced to a term of five years. A. Kerstner, convicted of burglary, sentenced February 2nd, 1885, to a term of two years. Richard Kelly, convicted of murder in the second degree and sentenced to 10 years, April 2nd, 1886.

James Hunsberr, convicted of murder in the second degree and sentenced to 10 years, April 1st, 1881, and sentenced to a term of 10 years.

**Court Items.**—Proceedings in the Third District Court to-day: J. W. Farrell et al. vs. Hattie Williams et al.; judgment for plaintiffs; pending motion to disallow costs the entry of judgment is stayed. C. G. Murdoch vs. Wm. Murdoch; divorce and alimony; Court allowed \$30 attorney's fees and \$25 costs of suit.

Geo. H. Knowlton et al. vs. J. Hayward; trial before court and submitted.

## **TERRITORIAL ITEMS.**

CULLED FROM LATEST EXCHANGES.

**Five persons** of one family in Logan aggregate 1,041 pounds in weight. A fire, supposed to have resulted from a defective fuse occurred at Laramie on Tuesday last, by which damage to the extent of about \$200 was done to the Knights of Labor hall.

**Charles R. Hobbs**, of Fairview, Idaho, was arrested on the 15th, and taken to Oregon, where he is charged with polygamy. On Saturday he was released by the Commissioner, there being no evidence to hold him.

**A Martin**, two years ago, put twenty-two carp in the waters of the Tieddy, a stream in Wyoming, and they have since multiplied into thousands. He has now an artificial lake which he will stock with fish and expect to supply Wyoming markets inside of three years.

**On Tuesday evening** last a fire broke out in a two-story frame building owned by Mrs. Jenny Dean and her brother, John Flanagan, and situated on the Meriville road, about a mile from Butte, Montana. As the fire was outside the city limits the fire department did not attempt to extinguish it, and the building was consumed.

**John Phillips**, employed in the Columbia mine, went to Butte last Monday afternoon and got drunk. He spent the night in saloons, where he exhibited his money in a very reckless manner. About 2 o'clock in the morning he started to walk to his home at Meaderville. While passing the St. Francis tunnel two men rushed out and beat him in a brutal manner until he became semi-unconscious, when they "went through" his clothes, securing all the money he had on his person—over \$200. Then they disappeared leaving him stretched, almost lifeless, on the ground. A few minutes later he regained his senses and staggered to his feet, but where he was placed in bed and received surgical treatment. His injuries consisted of four cuts on his head and bruises on various parts of the body, several of which were severe. The deepest cut and one which fractured the skull is on the right side of the head and extends to the ear; another about three inches in length is on top of the head; the third is above and a little to the right, while the fourth is across the right eye of them very deep. Two miners, named Henry Russell and John Smith, have been arrested on complaint sworn out by the injured man, as the guilty parties, but they insist that they are innocent.

**The "Exponent."**—The Exponent for April 18th is before us, and among its other interesting articles comes an account of "Navvoo as it is Today," by the editor, Sister E. B. Wells, and a reminiscence of Kirtland days from the same gifted pen. It is a good number.

**Carthage Relics.**—We have received through the kindness of Sister Sarah M. Kimball, of this city, who has been on a visit to Illinois lately, a couple of copies of the *Relics*, published in Carthage, Illinois, in which we find an account of the tearing down of the old Carthage Hotel, to which the bodies of the martyrs Joseph and Hyrum Smith were conveyed after their lives had been taken. Mention is made of the finding of a number of documents relating to that interesting period in the history of Carthage and of the Latter-day Saints, and it is stated that "a plank in the floor of the hotel had been taken up from the exact spot in the room where the body of Joseph Smith lay the night after he was killed, and it was manufactured up into canes to be sent to Salt Lake City."

**Judge Edmunds** of that city, is said to have in his possession "the original warrant or order issued by the Mormon city council of Nauvoo in 1844 for the suppression of the Nauvoo Expositor, an anti-Mormon newspaper. On the back of the warrant is the return of John P. Greene, city marshal of Nauvoo, that he had executed the writ by piling the type in the street and destroying the printing press."

**WELLS, FARGO & Co.** to-day, received shipments as follows: Fine bars, \$14,262.00; base bullion, \$1,500; Kentucky gold bar, \$16,000; total, \$24,462.

**THE IRISH POTATO IN GERMANY.**—In 1850 the potato was brought into Germany. The first seed potatoes in Saxony were a present in 1851 from the Landgrave of Hesse to the elector of Saxony. In 1847 they were grown as exotics in gardens at Leipzig. Swedish soldiers brought them into western Germany about the conclusion of the Thirty Years' War. In 1717 they were reintroduced into Saxony from the Rhine, and within twenty-five years they began to be cultivated. The potato was well developed in the famine period of 1770-71. In the year 1832 over 2,000,000 acres were given over to the cultivation of potatoes in Germany, the produce amounting to 28,000,000 tons.

**The Evangelist** gives as a "curious event," the following: A lawyer had asked what he thought of the preaching of a somewhat sensational exponent of the gospel, of a neighboring city, who answered, "Nothing to say about the preaching; the man was enough for me. If any lawyer had addressed a court jury in the free and easy manner in which this man addressed the Almighty, he would have been fined for contempt of court."

**OBITUARY.**—At Randolph, Rich County, April 19, 1898, Edwin Spencer, of general debility.

Brother Spencer was born October 1, 1824, in Loughborough, Leicestershire, England; was married to Hannah Wardle, December 23, 1850; was baptised April 7, 1850, by Elder John Bonnell; was ordained an Elder November 17, 1850; emigrated to Philadelphia in 1853, and to Utah in 1861; located in Salt Lake City, where he received his endowment, December 1, 1861; and his patriarchal blessing under the hand of Thomas R. McCan, March 12, 1862. He was ordained a Seventy January 4, J. Dalton, convicted of murder in the second degree, was sentenced to 10 years, April 1st, 1881, and sentenced to a term of 10 years.

**Brother Spencer** held places of trust, both in church and state, and was a good and efficient citizen. He leaves a wife, one son and two daughters, and 34 grandchildren, besides a host of friends to mourn his death.

**The funeral services** were held in the Randolph Hall, on Sunday, April 19, at which occasion the hall was filled to overflowing. The remains were followed to their last resting place by a long train of vehicles and friends on foot.

**A Great Southern Remedy.**—Simmons' Liver Regulator, purely vegetable, is universally used in the South to cleanse the blood, and is a healthy action. It cures malaria, biliousness, dyspepsia, headache, constipation and piles. No nausea or griping. It is most effective in starting the secretions of the liver, causing the bile to act as a cathartic. Regulates the bowels and imparts vigor and health to the whole system.
