

LICENSE GRANTED WHITE HOUSE BAR

"American" City Councilmen Celebrated Mulvey's Return
With a Love Feast.

NOW FOR SUNDAY SIDE DOORS.

Looks as Though Falstaffian Representative From the Fifth Precinct Held the Whip Hand.

The purchase price for the withdrawal of Councilman M. E. Mulvey's resignation was paid by the "American" city council last night when it unanimously adopted the report of the license committee recommending that a new liquor license be issued to Wineman & Metcalf, proprietors of the White House bar, which was closed by Chief of Police Sheets two weeks ago because the proprietors had been arrested for selling liquor on Sunday. There was not a murmur from the "American" side of the council last night when the report was read and adopted. Mulvey evidenced great pleasure at the action of the council, as a smile was upon his face during the brief consideration of the matter. Mulvey will be taken in regard to enforcing the Sunday closing law unless it meets with his approval. He certainly made Chief of Police Sheets, Mayor Thompson and the entire "American" contingent in the council "take water" most gracefully in the Wineman & Metcalf matter and thus secured determination to do a little business so as to satisfy the Ministerial association was tipped before it had fairly started. It was simply a case of losing Mulvey and the entire support of the saloon element or of allowing Wineman & Metcalf a license and permitting the saloons to do at least a side door business on Sundays, so the Ministerial association, after backing Sheets up in his action in closing the saloon and after having several very lengthy caucuses on the matter, at once decided that it could not afford to lose Mulvey and that it would be much easier to just back their own whole administration backed and with in two minutes after the report of the committee was adopted, Wineman & Metcalf were doing business at the same old stand. Their prompt action in opening up again showed that they knew where Mayor Thompson stood in the matter and that he would approve of the action of the council.

The recommendation for the issuance of the license came in the report of the committee along with about a dozen other liquor licenses. As it was read, Councilman Preece, who has opposed the action of the chief from the start on the ground that the chief did not mean business, but was doing a little spite work, inquired if Wineman & Metcalf were the proprietors of the White House bar which had been closed.

"Yes, sir," answered President Davis.

"Did the chief of police approve the issuance of the license?" further inquired Preece.

"Yes, sir," was again the response.

"Well, I am glad he did. I am glad he changed his mind about it."

None of the "American" members cared to make any remarks about the action of the committee and the chief, or to state any reasons for their change of heart, so the report was adopted without objection. One of the proprietors of the bar was present in the council chamber, and as soon as the license matter was disposed of, he telephoned very long, and a few minutes later he came to the door and said to line up the saloon element for the "Americans."

CANAL CO. IN THE COURTS.

It is very probable that the city will have to file suit against the East Jordan Canal company to condemn the right to use the company's canal for running additional water for use by the city in exchanging with the farmers for Big Cottonwood water. The city engineer reported that an agreement had been reached in the matter, but that the board of directors of the company had failed to ratify the same. City Engineer Kelsey's communication in regard to the matter, which follows, was referred to the engineering committee with the city attorney associated.

"An agreement was recently reached between your committee on Jordan canal and irrigation and a special committee representing the East Jordan Irrigation company, whereby it was provided that the city should enlarge and use the said company's canal to convey the city's portion of water from Utah lake on terms which appeared fair to both parties and which were entirely satisfactory to the associated committees, but which, when presented to the board of directors of said company, failed of confirmation of said board; and it now appears by certain that any agreement can be reached that is satisfactory to the city and to the said canal company.

"The city needs of the lake water to meet its constantly increasing demands, and which in my opinion cannot be as cheaply nor as fully met in any other way, I deem it my duty to recommend that immediate action be taken to acquire the right to enlarge and use the East Jordan canal for the purposes aforesaid, through condemnation proceedings."

MORAN'S LATEST ESTIMATE.

The fifteen partial estimate due P. Moran on the Big Cottonwood dam contract, which was held up because it was thought that it was for extra excavation, was placed on the appropriation list by the council. The engineer explained that the estimate was not for extras as he would not approve of Moran's claim for extra work. The amount of the estimate was \$1,000.

PARLEY'S CANYON PURCHASE.

The report of the committee recommending the purchase of 180 acres of Parley's canyon from John P. Parley, which was adopted by the council, was placed on the appropriation list by the council. The property is located near the reservoir site in the canyon and is the only wagon road to the reservoir. The committee recommended that the city purchase the land and use it for the city's water supply.

MAIN OR EAST TEMPLE.

The matter of changing the name of the Temple street to Main street was brought up by a report being made by the engineering and finance committees. Black moved the adoption of the report, which recommended the change.

A PURE COCOA IS NOT ALWAYS A GOOD COCOA.

COFFEE BEANS RANGE IN PRICE FROM 8¢ A POUND UP TO 15¢ A POUND. BUT THE BEST COFFEE IS NOT ALWAYS THE CHEAPEST. COCOA BEANS ALSO COST FROM 8¢ A POUND UP. THAT'S WHY YOU MAY BUY A PURE COCOA WITH QUALITY AND FLAVOR DEFICIENT.

THE STATISTICS OF COCOA IMPORTATIONS SHOW THAT IMPORTATIONS OF CHEAP (LOW GRADE) BEANS HAVE INCREASED ALMOST 50 PER CENT. IMPORTATIONS OF HIGH GRADE BEANS HAVE DECREASED.

WE HAVE USED AND ARE USING THE SAME QUALITY OF BEANS AS ALWAYS. THE BEST ONLY.

mended the change in name. Wells was on his feet in an instant, and opposed the adoption of the report. He said that he was opposed to the name of Main street for the principal business street of the city, and moved that action be postponed on the matter, and that the business matter of other citizens be requested to suggest a suitable name for the street. Mulvey was also in favor of finding a more appropriate name. Wells' motion to postpone was lost by a vote of 7 to 3. Not to be outdone in his efforts, Wells then moved that action on the matter be postponed for two weeks, and this motion was carried by Ferry switching his vote in Wells' behalf.

OTHER BUSINESS.

The board of public works asked authority to advertise for bids for the construction of all watermains, sewers, sidewalks, cement curb, gutters and cross-walks, to be ordered laid from Oct. 31, 1906, to Oct. 31, 1907. The authority was granted by the council.

L. U. Gray and nine other property owners submitted a petition, calling attention to the "hazardous" condition of north Main street, north of First North street, and asking that immediate action be taken to repair the same to the end that it may be made fit for use. The petition was referred to the streets committee for consideration.

O'Donnell introduced a resolution authorizing the board of public works to advertise for bids for the construction of the city under contract for the next three years. The matter was referred to the sanitary committee.

Holley introduced a resolution in which the chief of police is asked to curfew the city in the city in the future and that the curfew ordinance be enforced. The resolution was adopted.

Chief of Police Sheets sent in the appointment of Andrew G. Erickson as a special policeman at the Auditorium, to take the place of Officer Leggett. The appointment was confirmed unanimously.

A QUAKER

Tells How They Do in Philadelphia.

Doubtless Heaven will be full of surprise at what simple things had formerly made us happy or unhappy! If a man insisted on taking salt water dissolved in his drinking water day after day and wondered why his stomach was irritated, people would think he was crazy. It's just as bad to take the drug that's in coffee, into your stomach, although it's an old time honored habit to do so.

"I used to be a great coffee drinker and thought there was nothing so nourishing as coffee except milk. But I was sickly, with hollow cheeks and headache about all the time," said a Phila. man the other day.

"Still I kept on drinking coffee, never suspecting it was the cause of my ills, and wondered if I was doomed to be like other folks, and never enjoy life like other folks." "I was as if I was taking poison in little quantities every day and wondering why I was sick."

"Food Coffee, but thought it was one of the fakes palmed off on the people. I wouldn't try it at first, but left off coffee to see if the Postum people were right about its being injurious."

"You may well guess I was surprised when my headaches were few and far between and I felt as if a load had been taken off my stomach."

"When I was thus half convinced that coffee had done me harm, I thought I'd try a package of Postum. I made it carefully according to directions, and it was simply great!"

"It is delicious when made right, and beats coffee all hollow in taste, let alone wholesomeness. Leaving off coffee after it has become a fixed habit, is hard, but Postum makes it an easy matter. There's no greater lover of champion Postum now than I am for I have learned how to be well."

MILNER ESTATE IN FEDERAL COURT

Government Enters Suit to Recover 5,000 Acres of Coal Lands.

SAID TO BE WORTH \$100,000.

It is Alleged That Fraud Was Used to Acquire Carbon County Properties Involved.

Late yesterday afternoon an important suit was filed in the federal court, in which the United States is the plaintiff and the defendants are Truth A. Milner, executrix of the estate of Stanley B. Milner, Truth A. Milner, Harley O. Milner, Samuel H. Gilson, the Carbon County Land company and Peter A. Campbell. The suit involves the ownership of more than 5,000 acres of land, situated in Carbon county, Utah, which is said to be worth about \$100,000, but for which only a nominal sum was paid, as the land was taken up as an agricultural tract.

The suit is brought by Charles J. Bonaparte, attorney general of the United States, and is signed also by District Attorney Hiram E. Booth and by M. C. Burch and Fred A. Maynard, assistants to the attorney general. The facts in the case as alleged in the bill of complaint are substantially that during the life time of S. B. Milner he induced defendant Gilson to enter into the scheme of securing the land, the method employed being to have the state land board declare the land to be agricultural, while it was known to be a coal tract.

The bill of complaint states that the scheme was to have the land declared agricultural, while it was known to be a coal tract. The bill of complaint states that the scheme was to have the land declared agricultural, while it was known to be a coal tract.

In substance the bill of equity asks: "That the defendants shall have no right to the land in the described bill of complaint; second, that the court decree that, certain contracts, made between the defendants and the State of Utah, be declared void; third, that the Carbon County Land company shall have no interest in the lands described by reason of assignments and transfers; and of the defendants herein named; fourth, that each defendant, and all be directed and decreed to surrender to the State of Utah, any and all contracts and agreements they now have with the State of Utah in regard to said lands; and the bill prays that an order be made by the court directing Peter N. Campbell of Springfield, Mass., and Harley O. Milner of Milner, Idaho, to appear and plead on a certain day, fixed by the court, and further asks that said Peter N. Campbell acquire no lien or claim on said premises."

COURT NOTES.

Willis H. Towle, of this city, who stated his occupation to be that of a clerk, and who scheduled his liabilities at \$1,191.20 and assets \$90, the latter sum exempt from execution, has filed bankruptcy proceedings in the Federal court.

Mary B. Ricks has been granted a divorce by Judge Armstrong from Herbert Ricks on the ground of desertion. They were married at Ogden on March 29, 1894, and defendant deserted his wife on Jan. 1, 1905. Plaintiff's maiden name, Mary Beardsley, was restored to her.

William H. Goldman has filed suit for divorce in the district court against Florence K. Goldman on the ground of desertion. They were married in this city on Nov. 30, 1899, and defendant deserted plaintiff on Jan. 3, 1905. Plaintiff asks for the custody of their four children.

Judge Armstrong has dismissed the suit of the state against John S. Kunz upon motion of District Attorney Loubourrow. Kunz was charged with a criminal assault upon Sarah Price, aged 14 years, but the district attorney asked that the case be dismissed on account of the insufficiency of the evidence. The offense was alleged to have been committed on Aug. 11, 1905.

Suit has been filed in the district court by Marlow Cummings against Frank W. Ross, P. E. Wynn and Ada G. Gray to collect \$1,500 as commission for the sale of certain real estate for the defendants. It is alleged that the defendants on Dec. 1, 1905, listed the property on the northeast corner of Fourth South and State streets with the plaintiff for sale. The latter sold the property several days later to L. L. Terry for \$2,250, but the defendants failed and refused to pay him a commission for his services. Hence judgment is asked for \$1,500.

An action for divorce has been filed in the district court by Laura M. Atkinson against W. J. Atkinson, a Union Pacific railway clerk, on the grounds of desertion and failure to support. The parties were married in Green River, Wyo., on June 8, 1897, and have two children and although defendant is earning \$120 per month it is alleged that he has failed to support his family and has deserted plaintiff. Mrs. Atkinson asks for \$70 per month alimony and that defendant be compelled to keep up the premiums on his life insurance policy for \$1,500 and that the policy be set aside for her benefit.

Big sheet music sale now on at Beesley's, 124c and 15c.

HOTEL GOSSIP.

C. C. Warner of Kendallville, Ind., told a good one while enjoying an after-dinner Havana in the Kenyon lobby yesterday evening. "I just came in from Los Angeles," said Mr. Warner. "Somewhere in California we picked up an old fellow with long white hair and silvery hair. There were several women, a mining man or two—just the usual assortment of travelers—in our sleeper. Towards evening the old man came over into my section and taking a seat opposite a friend of mine and me, joined in our conversation. The old man had, evidently, traveled very little. This is the first time I've traveled in a car as fine as this," he confessed good naturedly. "I came in here to get away from crying babies, and other unpleasant things sometimes found in a day coach." The conversation continued until the world outside was in darkness. Presently a porter came into the car and commenced taking down berths. The old man watched him with eyes wide in wonder. "What's he doing?" he asked. I explained that the porter was making little affairs," he asked. I told him all about it, explained that he could prepare for bed in the wash room at the end of the car should the warning. "Look out! Here I come!" He came. The old man had decided to go to bed early and had divested himself of outer clothes in the wash-room. He swept down the aisle with his clothes under his arm. The old man got off at Caliente after furnishing our car's occupants with amusement all along the line," concluded Mr. Warner, laughing heartily.
