

Uncle Sam's Navy.

Experiences of a Naval Cadet From Uncle Sam's Green in His Letters.

We furnish further extracts from the correspondence of H. A. Freeman, Utah's naval cadet at Annapolis.

Under date of June 10, this, he writes of going on board the United States ship, Commodore Perry, his ship, and going on to China.

"On the ship we found our friends, the jokers or jokers, who were in the ship in order. There are about ten of these naval officers, a doctor, a chaplain, two cadets, besides cooks and stewards."

A letter dated June 10, 1894, from New London, Connecticut, June 10, 1894, says:

We arrived at New London last Friday, June 7. We had a good voyage from Annapolis. We were very much interested in the weather, rain, fog, rough, windy, etc. After passing the Cape Cod light, we went on to the United States ship, Commodore Perry, which was at anchor in the harbor. We went on board the ship, and found our friends, the jokers or jokers, who were in the ship in order. There are about ten of these naval officers, a doctor, a chaplain, two cadets, besides cooks and stewards."

We have a little regarding the ship and may not leave till after the 10th of July. We go out to Newport, R. I., Saturday, July 10, then to New York.

We arrived at Newport Thursday evening and stay till Monday, or Tuesday. This morning all cadets were taken to the torpedo station and were given a lesson in the use of the torpedo. This was a very interesting thing.

First we went to the laboratory where they have all the experiments in explosives, dynamite, powder, etc. We were very much interested in the experiments, and saw many things that we had never seen before. We were very much interested in the experiments, and saw many things that we had never seen before.

Next we went to the place where they make gun cotton, explosive powder, etc. We were very much interested in the experiments, and saw many things that we had never seen before. We were very much interested in the experiments, and saw many things that we had never seen before.

Then we went to the place where they make gun cotton, explosive powder, etc. We were very much interested in the experiments, and saw many things that we had never seen before. We were very much interested in the experiments, and saw many things that we had never seen before.

Under date of September 10, this, he writes from the academy.

Yesterday was the day for cadets to report from leave. The academy is a lively scene. The cadets are in uniform, and are very much interested in the experiments, and saw many things that we had never seen before.

SAN FRANCISCO

SEE THAT IT IS ON EACH PACKAGE.

Well named is "Pioneer Japan Tea," for it is the Pioneer in fact. 23 years ago it began cheering Utah's thousands. Other brands have since come and gone, but

Pioneer Japan Tea

is here today, choicer and better than ever and nearly a quarter of a century of general use has established it as the standard. It combines

Hard Times

requirements—purity, quality and reasonable price. How could it have lived 23 years and grown stronger annually if it had not pleased the people? It has pleased them—will please you. Ask your grocer for it.

First-class stores will not ask you to accept a substitute.

Did You See?

How easy Earl Cummings broke the One Mile Track Competition, Record on July 4th.

VICTORY?

And also how easily Jack Korte won the First Prize, Diamond Men's, in the Great Garland Fourth Handicap Road Race!

VICTOR.

Also did you observe how easily Theo. J. Baker won the Utah Track Race at 11:10 a.m.?

VICTOR.

There were no starters in the race, but the Pink, Yellow, Green and Copper-colored "Rollers" were all there at the finish.

MORAL: Make a Victor and wear diamonds. I keep both in stock.
