PATENTS

obtained for new inventions, or for improvements on old ones, for medical or other compounds, trade-marks and labels, Caveats, Assignments, Interferences, Appeals and Suits for infringements and all cases pertaining under the Patent Laws, promptly attended to—in reasonable time and terms.

REJECTED by the Patent Office cases can be prosecuted to successful issue and be patented by us. Being opposite the U. S. Patent Department, and engaged in Patent business exclusively, we can make closer searches and secure Patents more promptly, and with broader claims, than those who are remote from Washington.

INVENTORS Each of your cases is specially examined and reported on as to patentability free of charge. All correspondence strictly confidential. Prices as low as consistent with first-class work. NO FEE TILL AFTER PATENT IS SECURED.

We refer, by permission, to Hon. Postmaster General D. M. Key, Hon. Ex-Postmaster General T. L. James, Hon. Ex-Pat. Com'r, The Secretary of the U. S. Patent Office, and to officials in the U. S. Patent Office, to Members of Congress and Representatives in Congress, Senators and Representatives from each State and especially to our clients in every State in the Union and in Canada.

Address

C. A. SNOW & CO.,

Opposite Patent Office, Washington, D. C.

SAVE YOUR HAIR

TO LEARN HOW TO DO IT READ AND HEED WHAT FOLLOWS.

SAVE YOUR HAIR.—The laws of Health and Longevity demand it, the customs of social life require it. The matter is of great importance in every way.

BEAUTIFY YOUR HAIR.—It is the surpassing crown of glory, and for the loss of it there is no compensation.

CULTIVATE YOUR HAIR.—For by no other means can it be saved and beautified.

LYON'S

KATHAIRON,

Discovered thirty-five years ago by Prof. Lyon, of Yale, is the most perfect preparation in the world for preserving and beautifying the hair.

Besides being the best hair dressing ever produced, Lyon's Kathairon will positively prevent grayness, and will restore new hair to bald heads, if the roots and follicles are not destroyed.

It actually performs these seeming miracles, of which the following is

A FAIR SPECIMEN

I had been entirely bald for several years, constitutional, I suppose. I used a few bottles of Kathairon, and, to my great surprise, I have a thick growth of young hair.

COL. JOHN L. DORRANCE, U. S. A.

In every important respect the Kathairon is absolutely incomparable. It is unequaled.

1. To Cure Baldness.
2. To Restore Gray Hair.
3. To Remove Dandruff.
4. To Dress and Beautify the Hair.

BEAR IN MIND.—The Kathairon is no sticky paste of sulphur and sugar-of-lead, to paint and daub the hair and paralyze the brain. It is a pure and limpid vegetable lotion, intended to restore the hair by natural growth and reinvigoration. It is splendidly perfumed, and the most delightful toilet dressing known. No lady's or gentleman's toilet outfit is complete without Lyon's Kathairon.

SOLD EVERYWHERE.

CHEAP DISINFECTANT!

MR. F. A. PASCOE will supply fine screened Quick Lime, suitable for disinfecting cesspools, and neutralizing all decaying organic substances for TWO DOLLARS PER TON, in large or small quantities, at his Pioneer Perpetual Lime Kilns, First North of Warm Springs, Salt Lake City.

☞ N.B.—Building and Plastering Lime of Best Quality always on hand.

dtf F. A. PASCOE.

EDUCATIONAL ASSOCIATION

THE teachers and trustees of the district schools of Salt Lake County are earnestly solicited to convene at the 20th District School-house Salt Lake City, January 11th, 1879, at 10 a. m. for the purpose of organizing an educational association, the object of which will be to unite our educational forces, and discuss and adopt such measures as will render our present system of schools more effective.

T. D. LEWIS,
Co. Supt. of Dist. Schools.

d 35 2

PASSPORTS.

BY TELEGRAPH.

PER WESTERN UNION TELEGRAPH LINE.

Last Night's Dispatches.

EASTERN.

New York Commerce.

NEW YORK, 6.—Mayor Cooper's inaugural address urges that the burdens imposed upon New York commerce in the way of tolls, charges and exactions be lightened; that harbor facilities and dock and wharf accommodations be extended and adapted to the modern cheap methods of handling bulky products.

Decision Against the W. U. Telegraph Company.

Judge Blatchford, to-day, rendered a decision in the case of Colgate against the Western Union Telegraph Company, being an application for a permanent injunction restraining the defendants from using the gutta percha insulators. His honor denied the motion for an injunction but prohibits the sale by the defendant of gutta percha wires or cables, which it now has or may acquire, and also prohibits the manufacture or use by the defendant, of any gutta percha covered wires or cables other than those which are now in use.

Clearing House Certificates.

The sub-treasury is not giving clearing house certificates, to-day, because the supply of blanks has been temporarily exhausted by the unexpectedly large demand the last few days. A fresh supply will be ready to-morrow.

A Slight Fire.

A slight fire in the *World* building, last night, in the rooms occupied by the *Scottish American* newspaper. The *World* compositors were startled by the volumes of smoke, and stampeded. There was no delay to the *World*. The origin of the fire is unknown, but it is whispered on the street that some of the recently locked-out of that concern, may know something about it.

Short Time.

The *Post's* special from Cohoes, N.Y., says: The Harmony cotton mills, employing 3,500 hands and producing 300,000 yards of cotton goods a day, have reduced their working time to three days a week in order to reduce the production and stiffen prices.

The Vanderbilt Will Case.

There was great crowds of spectators present in the surrogate court, to-day, to hear the arguments on the petition for the citation filed last week to William H. Vanderbilt, to show cause why the executors of the Vanderbilt estate should not be removed because, as alleged, they were allowing its resources to be exhausted and squandered by William H. Vanderbilt. Owing to the absence of counsel in behalf of the will, the case was adjourned till Monday.

The New Railroad.

Guatemala advices to Dec. 1 say: The railroad from San Jose to Escuintla, for which Mr. Name completed, the arrangements in San Francisco, will be commenced on his arrival. A large force of Chinese laborers are expected soon. The rolling stock is also *en route*. The contractor has apparently overcome the opposition, and will complete the line to the capital should the government require.

Another Project.

Wall Street gossip is that Vanderbilt and Garrison are combining for control roads to St. Louis. The point of Union being the Wabash road, beyond which Garrison is master of the situation, while Vanderbilt controls the outlet this side. It is whispered that the latter has secured a seat in the St. Paul and North western board of directors. It is stated that John Leager, who furnishes the Unicorn line of steamers, conceived the project, and is under no obligation to carry for the Central road exclusively, but may load from the Erie elevators as well.

Judgment of the Utah Court Affirmed in the Reynold's Case.

WASHINGTON, 6.—A decision was rendered, this afternoon, by the United States Supreme court, in the case of George Reynolds against the United States, brought here by appeal from the Supreme Court of Utah. The case involves the whole question of polygamy in the territories and the constitutionality of laws passed by Congress for its suppression. Reynolds was indicted by a grand jury for contracting a bigamous marriage. He was tried in the Third judicial court of Utah and found guilty. He appealed to the supreme court of the Territory and finally to this court which now affirms the judgment of the lower tribunals, and decides that congress had power to pass the laws prohibiting polygamous marriages in Utah, and that such laws are constitutional.

With reference to the decision of the Utah polygamy case to-day, it is interesting to note that the Supreme Court were unanimous on the main question involved, namely, as to the constitutionality of the law of congress prohibiting the so-called plural marriages, viz: The chief justice, speaking for the entire court, declared that this law is not in conflict with the constitutional guarantee of religious freedom and showed that the right of congress to legislate for the protection of the fundamental principles of society cannot be abridged by the Mormon claim of religious belief any more than it could by the claim of certain other religious beliefs that human sacrifices are necessary or that widows must be burned with the bodies of their dead husbands. There was some slight difference of opinion as to the admissibility of the testimony of one of the witnesses given on the former trial in Utah, but the two or three justices who doubted its admissibility, concurred with their associates in all the other points of the case and there is absolutely nothing left in the whole matter for further judicial determination or controversy.

Washington Items.

It is learned, to-night, that Justice Hunt, of the United States supreme court, was stricken with paralysis at his residence, in this city last Saturday, and is now in such a condition that his recovery is despaired of. One side is entirely paralyzed, and he is to-night unable to talk. It is feared he cannot live more than a few days, and apprehensions are expressed by one of his intimate friends, who saw him to-day, that a fatal change in his condition may occur within comparatively few hours. The fact of his very serious illness was not known even to his associates on the bench until this afternoon.

Senator Thurman, this afternoon, prepared a letter addressed to the Columbus Ohio Banquet committee, saying that it will not be in his power to attend the democratic celebration of the 8th inst., as he is beginning to recover from a severe cold and cannot but recognize the fact that it would be imprudent for him in such extremely cold weather to make the trip. He offers a few reflections upon the toast, "The Jackson Democracy," the theme upon which he was appointed to speak, and confines himself solely to that subject.

The recent ruling of the postoffice department, that the products of the papyrographic electric pen and manifold presses must pay letter rates postage, was based on the law as it is, and not as the department thinks it should be. The amendment to be proposed by the postal authorities to Congress is one which will permit the transmission of matter prepared by these processes at third class rates, when even the communications are not of the nature of actual correspondence.

The opinion read by Justice Miller in behalf of the majority of the court in the Credit Mobilier case, is largely devoted to the discussion of legal technicalities, but in the general terms it can be described as an argument showing first, that the interest of the United States in the matters complained of is too remote and insufficient to sustain its bill in equity; and second, that Congress has no power to compel one party, in this instance the Union Pacific Railroad Company, without his consent, to bring suit against another party, namely, the Credit Mobilier Company, to right alleged wrongs done to the former.

The Pacific Railroad 5 per cent. case was not decided to-day, but a decision may be looked for next Monday.

The city is rapidly filling up with congressmen returning from holiday recess, and a quorum of both houses will undoubtedly be present to-morrow.

The Geneva award bill will come up as a special order in the House to-morrow, and a vote will probably be reached by Thursday, as on that day the army re-organization bill is the special order, to hold its place until finally disposed of.

The bill for the revision of the patent laws is pending as unfinished business in the Senate, but there are indications that strenuous efforts will be made to antagonize its consideration with the Texas Pacific Railroad bill.

The reply of Secretary Schurz to Sheridan's letter is finished but not to be transmitted or made public until the commissioner of Indian affairs completes a special report to accompany it. This document will probably be ready to-morrow.

George Alfred Townsend, the well known correspondent, who probably interviews a greater number of prominent people throughout the country than any other man living, has arrived here from a recent tour in the northern and western States, and expresses the opinion that Grant will be nominated with a whirl for President, with a southern man for second place, and that the democratic ticket will be Thurman and Bayard.

The selection of Bayard Taylor's successor as minister to Germany is expected to take place early this week. It is stated at the White House that in point of number of written endorsements, Gov. Hartranft is ahead of all other applicants, but this by no means indicates that his chances are best. It is expected, also, that the President will send in the nomination for director of the mint this week. Linderman is still generally believed to have the inside track for the appointment.

The annual report of the government directors of the Union Pacific Railroad, in describing its relations with other members of the general railroad system of the country, says: "The Central Pacific is obviously the most important of the roads connecting with it. The relations of these two companies seem always to have been sufficiently harmonious. They compete with each other only for the Utah business, and as respects that they have agreed upon a tariff of rates which they deem not unreasonable, and subject to this tariff business is allowed to take its own course. As the dealings of Utah have hitherto been mainly with the east, the bulk of its business has come to the Union Pacific. How long this will continue to be the case may admit of a growing doubt. Already under the existing tariff Australian coke is being brought to Salt Lake in competition with that from Pennsylvania. London would also appear to be the great market for the productions of Utah. In time, therefore, it would seem not improbable that those products will seek the seaboard by a local transit of 900 miles to San Francisco, rather than by one of 2,500 miles to New York. Should a tendency in this direction develop itself, it will probably materially affect the relations of the two Pacific roads.

Texas Railroad Collision.

BATAVIA, N.Y., 6.—The New York Central officials are very reticent regarding the collision on their road, which occurred in Byron Grade. The facts, as near as can be obtained, are as follows: Assistant Superintendent McCool started out about 2 p. m. with five engines and a snow plow to clear up the road to Rochester, preparatory to sending out the first train since last Thursday. On reaching the designated point they encountered a drift forty feet long and five feet deep, which was frozen nearly as solid as the earth, and the engines jumped the track, the second engine breaking its fastenings and going down the bank, the plow and first engine going on the north side, the locomotive lying flat on its side across the track, and the third engine being badly smashed up, while the fourth and fifth only left the rails. Samuel Cooper, of this city, driver of the first engine, was badly scalded; Thomas Lawless, fireman, had one of his legs caught as the engine went over, and it was necessary to saw it off before he could be extricated. James Welch, another fireman, was badly bruised. Lawless cannot survive.

The Beechwood Colliery Strike.

POTTSVILLE, 6.—The employes of the Philadelphia and Reading Coal and Iron Company, at Beechwood Colliery, who struck last week for wages, were paid to-day. It is understood here that orders have been received to close the colliery. This will throw 300 men and boys out of work. The men at the Brookside mines, who struck on Thursday last for back wages, reconsidered matters.

The Fire.

CHICAGO, 6.—The total loss by Saturday night's fire, it is now thought, will not exceed $110,000. The individual losses are confined almost entirely to office furniture. The libraries of the law firms, located in the building, were saved with little injury.

Funeral of Caleb Cushing.

NEWBURYPORT, 6.—Caleb Cushing's funeral was designedly as plain as a common citizen's in a rural town. The corpse bore a remarkably natural appearance. The service was very simple—the reading of the scriptures and a prayer. Hundreds visited the house to obtain a view of the remains and the residence was crowded during the service. Many distinguished persons were present.

WESTERN.

Report of the "Georgia" Disaster.

SAN FRANCISCO, 6.—The board of local inspectors of steam vessels made a report this morning in the *Georgia* case. The inspectors find that Captain Howard did not use proper care and skill in navigating the *Georgia* on the night she was lost, and consequently imperilled the safety and lives of the passengers and crew intrusted to his care. In consideration of the facts the inspectors have revoked Captain Howard's certificates as master for the term of two years.

FOREIGN.

GREAT BRITAIN.

Not as Bad as Reported.

LONDON, 6. — Reports regarding the condition of the wounded by the explosion of a gun on board the *Thunderer*, representing that many died and others became blind, are erroneous. Admiral Hornby telegraphs that the wounded are doing well and the life of one seaman only is endangered.

The Afghans.

The Viceroy of India telegraphs that Syad Mahomed, chief of Kunar Valley, who sent a friendly letter to Major Cavagnari recently, is expected at Jellalabad early this week. Wali Mahomed has refused to obey Yakoob Kahn's call to Cabul. Some of Shere Ali's body guard that accompanied him to Turkistan have deserted and returned home.

The British are within three days' march of Candahar. The hostile outposts have sighted each other.

A dispatch from Jellalabad states it is rumored that Yakoob Kahn is preparing to flee, probably in the direction of Herat.

Dobrudja to be Evacuated.

The Rusians will evacuate the Dobrudja on the 12th.

A Cruiser.

The new Russian cruiser *Asia*, from Philadelphia, has arrived at Cherbourg.

Incursion into British Territory.

Calcutta.—A band of Mahsua Wazus recently made an incursion into British Territory, plundered the inhabitants, burned a tank and retreated to the hills. They were pursued by the cavalry and part of the band cut off. Reinforcements are being sent to prevent a repetition of the raid.

The Cornish Bank.

Notes on the Cornish Bank are changing hands to-day at a considerable discount, and depositors and creditors are not so sanguine of receiving full payment.

Cold Weather—Increase of Distress.

LONDON, 6.—The weather is again cold. There has been a daily increase of distress in every quarter the past week.

At Manchester, on Friday, there were 3,000 applications for heads of families, representing 13,500 persons, to the relief committee, and on Saturday 4,000 fresh applications.

During the week 1,200 families have been relieved in Wolverhampton.

A considerable increase of distress is also reported from Sheffield.

Sale of Silver.

Sixty thousand pounds worth of bar silver arrived on Saturday by the *Plato*, a Chili packet. The whole was secured at 49¾ pence for Austria, for which quarter there is a slight revival of inquiry.

RUSSIA.

A Plague.

ST. PETERSBURG, 6.—The plague which has broken out in Astrachan, is said to have been introduced by Cossacks returning from Turkey.

The Ameer.

Nothing is known here of the Ameer's intention to seek Russian protection.

GERMANY.

The Socialist Party.

BERLIN, 6.—The socialist democrats have largely carried most of their municipal candidates around Leipsic. A socialist will stand for Breslau at the election for the Reichstag.

LOST.

ON Christmas Eve, a new OIL DRESSED CAP'E. The finder will confer a favor by returning it to THOS. JOHNSON, paper carrier, or leave it at this Office. d30

NOTICE.

THE CHIEF OF HEALING COMPOUNDS.

HENRY'S

Carbolic Salve.

The Most Powerful Healing Agent ever Discovered.

Physicians give it the highest recommendations.

☞ POINTS TO BE BORNE IN MIND.

Carbolic Salve positively cures the worst sores.

Carbolic Salve instantly allays the pain of burns.

Carbolic Salve cures all cutaneous eruptions.

Carbolic Salve removes pimples and blotches.

Carbolic Salve will cure cuts and bruises.

Henry's Carbolic Salve

ranks at the head of all Salves, Ointments and other Healing Compounds, and has achieved a greater reputation and has a larger sale than any other similar preparation. The most

VIRULENT SORES AND ULCERS

have been cured with wonderous rapidity by the use of Carbolic Salve, and it is prescribed now almost universally by Physicians throughout the country in their practice.

Testimonials from the most respectable sources, medical and otherwise, are constantly accumulating on our hands, demonstrating the sovereign efficacy of

This Great External Remedy,

and that the cures which it affects are as prompt as they are complete. The two following excerpts are all we deem it necessary to insert:

Geo. B. Lincoln, Pres't of the Board of Health, N. Y., writes: Your Carbolic Salve is an excellent article, and I thank you for. This is another evidence of the great value of the discovery of carbolic acid."

D. R. Locke (Petroleum V. Nasby), of New York, states that he had "for the forefinger of his right hand one of those pleasant pets, a 'run round,' the finger became inflamed to a degree unbearable.

"A friend dressed it with Carbolic Salve, and in twenty minutes the pain had so much subsided as to give a fair night's rest.

"The inflammation left the finger 'in a day.'"

Henry's Carbolic Salve

is used extensively in *Hospitals*, and is found to be not only a thorough *purifier* and *disinfectant* but also the most wonderful and *speedy healing remedy* ever known. Sold by all Druggists.

Price, 25 cents per box
