

**REPUBLICAN CONVENTIONS.**

Colorado and Nevada Had Their Gatherings Yesterday.

**PRESIDENT IS ENDORSED.**

Senator ... Sends Message of Greeting and Congratulations—The Tickets Notified.

Denver, Sept. 12.—The Republican state convention nominated this ticket today:

For Congressman-at-large, Franklin E. Brooks of Colorado Springs.

For Governor, James H. Peabody of Canyon City.

For Lieutenant-Governor, Warren A. Hargrett of Idaho Springs.

For Secretary of State, James Cowie of Boulder.

For State Auditor, John Holmberg of Denver.

For State Treasurer, Whitney Newton of Pueblo.

For Attorney-General, Nathan C. Miller of Durango.

For Superintendent of Public Instruction, Mrs. Anna B. Brandt of Cripple Creek.

The platform reaffirms allegiance to the national platform of 1900, expresses sorrow for the death of President McKinley, endorses the policy of the national administration, and says:

"We follow confidently our brave and patriotic leader, the president; we commend his fearless action in using every weapon at his command in dealing with corruption, and we are in full sympathy with his demand for full powers, broader laws for the purpose of most effectively meeting the questions which have arisen in connection with large consolidations of capital."

The president is given all praise for his efforts in the irrigation law, recently enacted, and pledges the support of Colorado for his re-election in 1904.

The platform continues:

"The Republican party of Colorado recognizes in the growth of centralized power an evolution in business conditions which is being met by economic laws, but we recognize also that out of such consolidations are arising questions of great moment which must be faced and dealt with. We believe these questions should be solved along lines of regulation against abuses and not by radical legislation destructive of business interests."

The policy of the administration in the Philippines is endorsed and abuse of the army is resented. The platform condemns the Democratic state administration but favors the constitutional amendments submitted by the Democratic legislature, providing for the consolidation of the City of Denver and County of Arapahoe, and an eight-hour law for miners and smelter employees, but condemns the single tax amendment. The removal of illegal forces from the public lands is demanded and a creditable display by the state at the St. Louis exposition favored.

After the adoption of the platform the convention adjourned sine die.

**SHEPHERD IS DEAD.**

The "Boss" Passed Away Yesterday Afternoon.

Washington, Sept. 12.—A private telegram received here this afternoon from Lathrop, Mexico, announces the death there this morning of Alexander H. Shepherd, who was vice president of the board of public works of the District of Columbia during the territorial government of the district in 1852 and two years later governor of the district. He was 67 years old. The cause of death was peritonitis, brought on by an attack of appendicitis.

Mrs. Shepherd, accompanied by her son-in-law and daughter, Dr. and Mrs. Frank Merchant, who reside in Washington, were informed of the sudden illness of the governor yesterday.

Gov. Shepherd as the executive officer of the board of public works, in spite of vigorous opposition, began and successfully continued improvements in all parts of the city, with the result that Washington became a magnificent city.

**THE EMPEROR'S FAREWELL.**

He Bids Good Bye to Generals Corbin, Young and Wood.

He Sends Personal Messages to President Roosevelt and "Miss Alice."

Berlin, Sept. 12.—Emperor William in saying good-bye to Gen. Corbin and Young and Wood today remarked that he was specially interested in three Americans. He admired President Roosevelt unmeasurably. He admired his versatility, courage, power for hard work and insight into the needs of his country. His majesty added that he watched Mayor Seth Low's administration of New York City because he thought it important to the commercial world that New York City should be well governed. The emperor also said he was very sorry Andrew D. White, the United States ambassador, was leaving his court. He had the most cordial feelings for him personally because of the man he is and for his services in fostering good will between Germany and the United States.

Gen. Corbin had an opportunity to present President Roosevelt's message about the St. Louis exposition and Emperor William said he would see that Germany would have a good representation. "I will send you a large party," he added pleasantly.

His majesty sent some personal messages to President Roosevelt through Gen. Corbin and asked to be remembered especially to "Miss Alice," as he called Miss Roosevelt.

The emperor conferred with each of the Americans and told them how much he had enjoyed their visit. The farewell took place on the field just after Emperor William returned from leading the cavalry charge, which concluded the maneuvers.

In speaking to Gen. Young of the possibility of Prince Henry of Prussia paying a visit to the United States, Emperor William said Prince Henry might go next April, when the birthday of Frederick the Great presented by his majesty to the United States is unveiled at Washington, although the prince's sea duty might prevent this. The Field Marshal Von Waldersee told the Americans that he hoped next year to see them in the United States. He had been intending to visit the country for some time and he now believed he could say he had an opportunity to go. Count Von Waldersee, though 77 years old, is still on the active list of the army.

The American officers left Berlin tonight. Gen. Corbin, Col. John A. John-

son, Gen. Young and Lieut. McCoy went to Düsseldorf. Thence they will go to Paris and from there to London. Gen. Wood and Lieut. McCoy have left for Dresden. Thence they will travel in Austria.

**Municipal Trading.**

Belfast, Sept. 12.—At today's session of the annual meeting of the Belfast Association for the Advancement of Science, B. H. Porter read a paper in the economic section on the subject of municipal trading. He pointed out that American experience showed there was no wisdom in this form of enterprise, which was so rapidly increasing municipal debts in England. He advocated a wisely arranged leasing system which would secure steady revenue for the local authorities and insure good and cheap public services.

Some of the papers touched on the subject of mercantile trusts and shipping combines, and doubts were expressed in the debates today regarding the eventual success of the Atlantic shipping combine. The opinion was voiced that such trusts and combinations had little chance of eventual success in such a free trade country as Great Britain.

**Poisoning by Paris Green.**

Paris, Tex., Sept. 12.—A report has been received here of a wholesale poisoning which is said to have occurred in Klemtia, Indian Territory. A farmer recently applied Paris green to his cotton. In his field where the worms were doing damage. Three or four days ago seven cotton pickers, four men and three women, went to work in the patch where the poison had been applied. Late in the evening they became sick and during the night all of them are reported to have died. Their deaths are said to have been caused by inhaling the dust from the poison.

**STILL TRYING TO SETTLE.**

Legislative Committee Has a Long Interview With President Mitchell.

Governor Stone Also Has a Conference With Representatives of the Strikers.

Wilkesbarre, Pa., Sept. 12.—A committee representing the state legislative board of railroad employees were closeted with President Mitchell of the United Mine Workers for three hours today. At the conclusion of the conference the committee departed for Philadelphia to consult their attorneys. Asked whether President Mitchell had approved the arbitration bills which they proposed to introduce in the legislature, he said that at an earlier session, they realized that Mr. Mitchell would have to answer that question. The committee expressed the opinion that an extra session of the legislature depended upon the result of the conference between the legislative board and President Mitchell at Harrisburg tomorrow. The following statement was issued by President Mitchell:

Messrs. Milton T. Robinson, William J. Zerk and George W. Coy, representing the state legislative board of railroad employees, called upon me and we discussed the advisability of forming a joint legislative board, to be composed of representatives of the railway men and the bituminous and anthracite miners. We also discussed the anthracite coal strike, and the representatives of the railway men assured us of their co-operation in every manner possible in the event of an amicable adjustment or in prosecuting the strike to a successful issue.

**CONFERENCE WITH STRIKERS.**

Harrisburg, Pa., Sept. 12.—A conference was held at the executive mansion tonight between Gov. Stone, State Senator William Flynn, M. K. Mullin of Pittsburg and President Mitchell and District Presidents Duffy and Fahey of the Mine Workers of America, for the purpose of discussing means of settling the anthracite coal strike. The conference was held at the suggestion of the governor, who declined to outline his plan in advance of the conference. The conference did not begin until long after midnight, owing to the late hour at which Mr. Mitchell and his associates arrived. Senator Flynn, aside from his political prominence in Pennsylvania, is one of the largest employers of labor and has never had a strike. Mr. Mitchell is at the head of the American Window Glass company.

**THE GREAT OIL FIRE.**

About Burned Out Now—Loss Estimated at \$75,000 to \$250,000.

Beaumont, Tex., Sept. 12.—At daylight this morning the fire in the oil field burned itself out and tonight there are only four wells and two tanks burning. One of the wells is a big gusher, and there will be much trouble in extinguishing it. The smaller wells can be handled easily as the fire is fed principally by gas. The oil is being drawn from the tanks as rapidly as possible and they probably will burn themselves out tonight. There is a breeze blowing, but it is sweeping across the fields toward the fire. Even if it changes there will be little danger of further loss, for the reason that all the exposed oil has been burned. A large force of workmen is on the grounds and a spread of fire can be checked in its incipency. Preparations are going forward in the work of extinguishing the burning wells and it is believed that an effort will be made toward that end tomorrow.

The loss caused by the fire is variously estimated. The lowest figures by those competent to judge place the total loss at about \$75,000, from this it ranges up to \$250,000. So far as can be ascertained about 30 derricks were destroyed. The loss on these was comparatively small. Fifteen tanks, some of the filled with oil, were burned out, and they will have to be repaired before they are again serviceable. Several pumping plants were put out of service and are rendered useless, and in this the heaviest loss lies outside of the oil district.

**U. S. Attorney General Honored.**

Paris, Sept. 12.—M. Delcasse, the foreign minister, gave a luncheon today in honor of Attorney General Knox and Mr. Payoff, the Russian minister to Paris. The guests included Gen. Horace Porter, the United States ambassador to France, and the entire staff of the embassy. Jules Cambon, recently French ambassador at Washington, and the Russian ambassador to Spain; Gen. Brugere, commander-in-chief of the army; Countess Cassini, niece of the Russian ambassador at Washington, and the Russian charge d'affaires here, G. M. Narichkine.

**Firmly Gets Violent.**

Port au Prince, Hayti, Sept. 12.—Gen. Firmin has issued a violently worded proclamation to his partisans concerning the death on board the Crete-Admiral Killeck. He urges his followers to fight until the end against the provisional government of M. Bouteron Canal, which he accuses of having exiled Germany against him to the point of effecting the destruction of the Crete-Admiral. The population of Gonaves and St. Marie, both in the possession of the revolutionists, are greatly excited. Bills expressing hatred of the Germans are being posted there, and frequently heard in the streets.

The advance guard of the government army has started against Gonaves and the greater part of the army will leave for that place.

**SALT LAKERS IN GOTHAM**

Forward Strides of the Boston Conference—Mr. and Mrs. Pyper Greeted in New York—President Woodruff's Work in Chicago—Utahns in the Metropolis.

Special Correspondence.

New York, Sept. 16.—The Boston conference of the Latter-day Saints, under the able management of President Clyde, is making rapid strides, and already has secured permission to hold street meetings in Waltham, Newton and West Newton. Many of the adjoining cities have refused this privilege to Elders, but people do not entertain the hostile feelings of former years, which is a proof that the intense feeling against the missionaries is gradually melting away; the subject of Mormonism is taking hold of thinking men and women, to the extent of causing them to consider the merits and demerits of the important question, with more impartiality than ever before. The conference is in better condition today than ever, and perfect harmony exists between President Clyde, the Elders, and the Saints. Eleven converts have received baptism this summer, and four more will be added this month. The Sunday school is increasing in membership, and at the Sunday services, the interest of strangers is constantly awakened by the sermons of the Elders. Everything points to a prosperous winter in Boston. Each Sunday afternoon on Boston common, may be seen from 500 to 800 people attentively listening to a series of lectures given by President Clyde, interspersed with sermons by other Elders. Questions are asked at the close of the lectures and a feeling of interest is manifested throughout the entire service. Those meetings on common are the most popular held there; everything in the conference is systematically arranged with an eye to the progress of the work. The heart and soul of each missionary are in the cause and much good cannot fail to result. Elder Black, who has been seriously ill, has almost recovered, and is anxious to resume his labors.

Mr. and Mrs. Dewey Richards and their son Jack, have been enjoying the cool and delightful weather of New York for some three weeks. They are pleasantly situated at 8 West Twenty-fourth street, where they will remain for another month, business requiring Mr. Richards' presence in the east for some time to come.

Mr. and Mrs. Simon Bamberger and daughter Helen, who have been east all summer, visiting different well known watering places, returned to their home in Salt Lake last week, accompanied by Mr. Louis Cohn and his brother-in-law, Mr. Lipman. Mr. and Mrs. Bamberger and daughter have had an ideal summer, spending some weeks at Long Branch, Asbury Park and Saratoga; also visiting several country homes in and around New York. All return in excellent health. Miss Bamberger, who was suffering from the effects of overwork in school, is fully recovered, and eager to resume her studies. Mr. Cohn and Mr. Lipman have been east in the interest of their business.

Among the many agreeable surprises in store for the Utah portion of the colony, was the appearance in our midst of the well known Salt Lake tenor, and manager of the Salt Lake theater, Mr. George D. Pyper, who, with his wife, is making a flying trip to New York. Mr. Pyper is here strictly on theatrical business, and the stay will be a brief one, much to the regret of their friends. Col. and Mrs. Willard Young, and Mr. and Mrs. R. C. Easton, who, in imagination, have planned many pleasures, and built many fairy castles regarding this long talked of visit. But even a glimpse of friends is a sweet satisfaction to the absent ones, and Mr. and Mrs. Pyper may be assured of a warm welcome whenever they find their way to the metropolis.

Mr. Lyman Martineau and son Royal of Logan left for the east over a month ago, taking with them a carload of live stock, and going as far east as Chicago with the consignment, the object being to test the relative markets of Omaha, Kansas City and Chicago. Mr. Martineau is among Utah's foremost stock raisers and business men, and is thoroughly alive to the advantages of direct shipments, as compared with doing business through middlemen. He has been the guest of his brother, Mr. Jesse Martineau and wife, and Dr. Oliver Ormsby and wife, while in Chicago. The latter are making their home for the present in the windy city. Miss Vera Ormsby, a sister of the doctor, has been visiting with them all summer, and returned with Mr. Martineau to Logan.

Miss Lela Leigh and her aunt, Miss Sara Alexander, returned to New York from Providence, R. I., Sunday, Sept. 7, after a most successful summer season in that city. Plans for the winter are still under consideration, Miss Leigh having received good offers from several managers.

President Asahel Woodruff of the Northern States mission reports everything in a flourishing condition. From Pres. Sarge B. Benson of the Chicago conference, and his secretary, Elder E. M. Abbott, we get an idea of the work being done in that city. In this branch alone there are between 175 and 200 members. The Sunday school, the Young Men's and Young Ladies' Mutual improvement societies are fast gaining in numbers. Each of these organizations is filled with earnest workers. Presidents Woodruff and Benson set a fine example, which is strictly followed by every Elder. Mention must be made of the excellent choir under the leadership of Elder Henry Chamberlain. It is a credit to any church and the leader has worked hard to give it the position now so deservedly claims. Pres. Woodruff is a man thoroughly in earnest, devoting his energies to the establishing of a model conference in the east, and there is no doubt in the minds of his friends that his most sanguine hopes will be realized. There are at the Northern States mission house, 635 West Adams St., eight missionaries: Pres. Benson, Pres. Edward Chamberlain of the North Illinois conference, and Elders Henry Chamberlain, J. F. Dewenup, Geo. H. Barney, Robert Fletcher, J. L. Roberts and James Clark; also W. D. Fitzgerald, who is a student at the Chicago Business college. The conference has recently enjoyed a delightful visit from Apostle John Henry Smith, W. W. Riker and wife, Bishop Romney, all of Salt Lake, and Bishop Barnes of Kaysville.

JANET.

**GRIZZLY MASTERED THE LION**

The King of Beasts No Match for Shaggy Bruin—In a Mexican Bull Ring the Two Animals Came Together And the Outcome Was a Victory for the Bear—With A Hug He Cracked the Lion's Ribs.

"The relative fighting qualities of the African lion and the grizzly bear of the Rocky mountains has always been a topic of much interest and discussion," said a westerner now in Washington. "Owing to their geographical location and modern civilization, probably no one ever pictured an actual contest as taking place. Yet for the first time in recorded history such a one did take place in recent years on the very border of the United States, and I had the good fortune to be a spectator. I was in Galveston, Tex., at the time when I first learned through the newspapers that a combat between a grizzly bear and Numidian lion would come off in the bull ring at Monterey, Mex., on the Ciencho de Mayo (5th of May). This is the commencement of the Mexican national holiday. It lasts a week and commemorates the birth of the republic. It is a time of great festivities and is much like our Fourth of July."

"I have killed a number of bears and know how formidable they are. It had always been my contention that the grizzly was the superior animal from the standpoint of force, and an opportunity to vindicate my ideas was not to be missed. So overcoming a natural repugnance against such a spectacle I immediately pulled out to witness the outcome. On my arrival at the city I learned the full particulars. Flaming posters everywhere announced that Col. E. Daniel Boone, 'America's greatest showman and animal trainer,' would give an exhibition on the following day in which old Parnell, an African lion, weighing 520 pounds, would be pitted against a 650 pound grizzly bear. The lion, it was stated, had killed two of his trainers during a performance on the midway at San Francisco's midwinter fair."

"Three o'clock the next afternoon found me at the bull ring looking down upon a large circular iron cage in which a lion was already confined. The boisterous Mexican audience—a restless kaleidoscope mass of mostly red, white and greys, which are the national colors—distributed him grudgingly. This was easily seen by his constant nervous tramp around the cage and an occasional snarl and growl. Parnell occupied a smaller and separate cage. He would now and then give a long-drawn but suppressed roar, which plainly indicated that he better understood what was about to take place."

"The details of the scene I shall never forget. The day was hot and oppressive. High mountains surrounded the open wooden inclosure. The sun beat hot upon the sands of the arena and upon the less fortunate of an eager, excited audience not protected by the shade. Everything was in striking contrast. It seemed to me, but brute and humanity. At a signal from Col. Boone the trap door leading from the lion's compartment to the larger cage was

usually begins with the symptoms of a common cold: there is chilliness, sneezing, sore throat, quick pulse, hoarseness and impeded respiration. Give frequent small doses of Ballard's Horehound Syrup (the child will cry for it) and at the first sign of a croupy cough, apply frequently Ballard's Snow Liniment externally to the throat. See at Z. C. M. I. Drug store.

**LIFE OF A PIONEER.**

Autobiography of Capt. James S. Brown, 320 pages, bound in cloth. Price \$2.00. For sale at Deseret News Book Store, Salt Lake City, Utah.
