FRED BENNION'S FOOTBALL GOSSIP

Former Full Back for Utah Makes Forecasts of Today's Games.

NEBRASKA TO BEAT BOULDER.

Carlisle Indians Take Kindly to the New Rules This Season Which Call for More Running.

Special Correspondence.
University of Pennsylvania, Philadelphia, Oct. 23.—Nearly all of the preliminary games have been played and the real strength of the big eleven is now being tested.

Last Saturday saw the beginning of the great struggle for intercollegiate championship. The games played during the last two weeks have opened out the football horizon, showing more clearly the relative power and strength of the different big teams.

One of the biggest surprises of the season came last Saturday when West Point played Yale to a standstill in a scoreless game. That the army had a strong eleven, no one doubted, but that they should be able to tie Yale and place themselves in line for the championship surprised even their most ardent supporters. The secret of Yale's failure to win, lies in the fact that Penn, formerly of Yale is coaching West Point, so that the game was really an exhibition of Yale football against Penn. Every trick play, forward pass, or onside kick was anticipated with such accuracy that a loss to the attempting team was always resulted. On the other hand the impregnable defense of both teams made it impossible to gain by "straight" football.

On my way back from Long Island where I had been with the Penn freshmen to play a game with one of the minor colleges, St. Paul, I had the good fortune, while standing in the lobby of the Imperial hotel in New York, to see and talk with Glen Warner, the veteran coach of the Carlisle Indians. Presuming on the acquaintance I made with him in Salt Lake in 1903 when he passed through with his team, I introduced myself and finding that he was just returning from the West Point-Yale game, asked him what he thought of it.

NOT MODERN FOOTBALL.
He said in part:
"It was certainly one of the hardest fought battles I ever saw, but it wasn't modern football. Only once during the entire game were the new rules taken advantage of. It was merely a good exhibition of old football as it existed before the recent changes. They just plugged away at each other's line, and the result was a void of sensational features except for a forward pass executed by the cadets and the good punting of Coy of Yale."

CHARCOAL KILLS BAD BREATH.

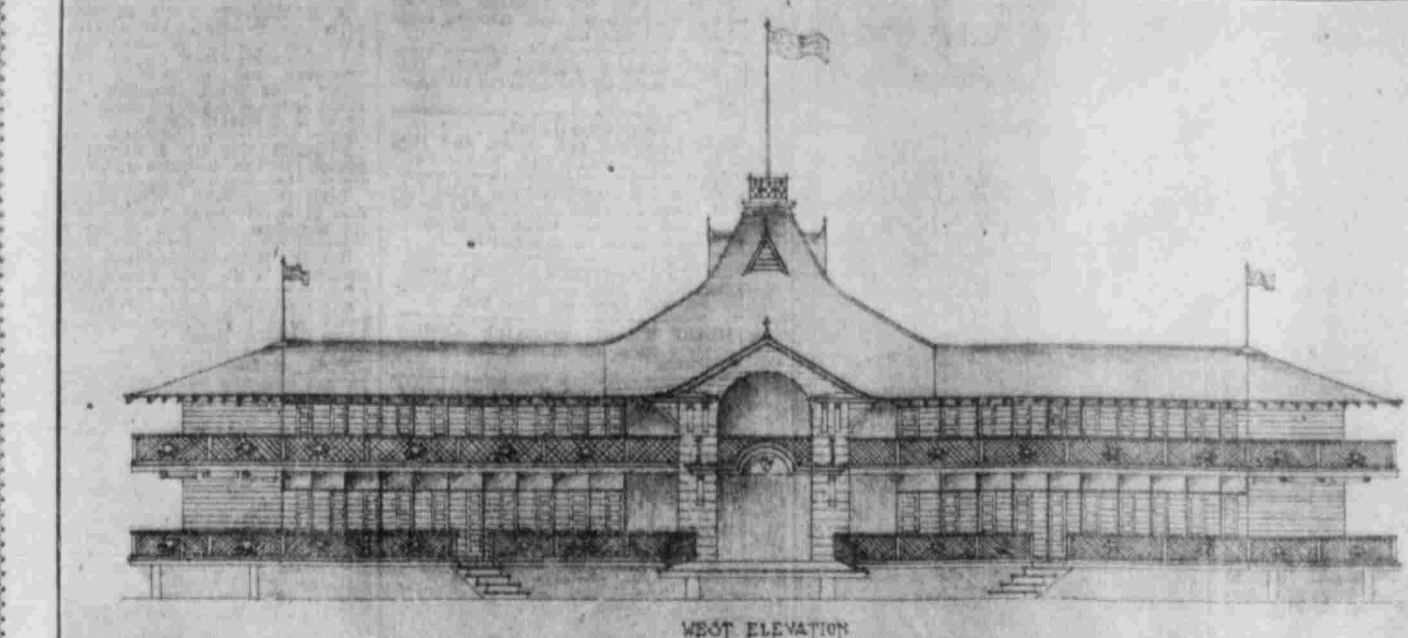

Bad Odor of Indigestion, Smoking, Drinking or Eating Can Be Instantly Stopped.

Simple Package Mailed Free.

Other people notice your bad breath where you would not notice it. It is nauseating to other people to stand before them and while you are talking, give them a whiff or two of your bad breath. It usually comes from fermenting food in the stomach. Sometimes you have it in the morning—that awful sour bilious, bad breath. You can stop that at once by swallowing one or two Stuart's Charcoal Lozenges and the powerful gas and odor absorbers ever prepared.

Sometimes your meals will reveal themselves in your breath. To those who talk with you, you are eating onions, or "You've been eating cabbage," and all of a sudden you belch in the face of your friend. Charcoal is a wonderful absorber of odors, as every one knows. That is why Stuart's Charcoal Lozenges are so quick to stop all gases and odors of indigestion, or gas from indigestion.

Don't use breath perfumes. They never conceal the odor, and never absorb the gas that causes the odor. Besides, the very fact of using them reveals the reason for their use. Stuart's Charcoal Lozenges in the first place stop for good all sour breath and belching of gas, and make your breath pure, fresh and sweet. Just after you've eaten. Then no one will turn his face away from you when you breathe or talk; your breath will be pure and fresh; and besides your food will taste so much better to you at your next meal. Just try it.

PROPOSED BATHING PAVILION AT LAGOON.

The view above is a section of the new fresh water bath house to be erected at Lagoon, at an expense of \$13,000, and to be ready for use at the opening of the coming season. The bath-house is to be located in the lake between the island and the railroad track, with the approach over a gangway from the island. The form is a rectangular center, with four 30-ft. foot extensions branching northwest, northeast, southeast and southwest, four bath-rooms to each extension, the entire surface being two stories, with 20 bath-rooms on each floor, or 80 rooms in all. The 40x40 foot central part, will be devoted to check and suit rooms, toilets, and such other conveniences as may be desired. L. D. Martin is the architect.

NEW DOGS ARRIVE; RACING TODAY

Log Cabin and Turf Exchange Stake Worth \$150 on the Program.

WATERLOO STARTS MONDAY.

This is the Big Coursing Event of the Tournament—Free Admission This Afternoon.

The big coursing tournament is on again this afternoon at the state fair grounds after a day's lay off. A new shipment of rabbits and hounds has been received and the racing should prove to be the best of the meet. Today's event is the Log Cabin and Turf Exchange stake, valued at \$150. It has been changed to all age race so that the dogs received here this week could be entered in the event. The new arrivals were sent here to compete in the Waterloo, which starts on Monday next and is the most important event of the tournament.

There will be no charge for admittance today and a large crowd is expected to be on hand. Following are the entries for today's events:

1—Rear Admiral (James Sweeney, Colma) vs. Something Handsome (Hendy & Williams, Fairbairn, Minn.).

2—Miss Nealon (Geo. Sharrman, Colma) vs. Anna Bell (Hendy & Williams, Fairbairn, Minn.).

3—Mr. War (Hendy & Williams, Fairbairn, Minn.) vs. Russell Lady (S. A. Hassenpflug, Cripple Creek).

4—Crown Point (Blake, T. & S., Butte) vs. Mr. Blue (Blake, T. & S., Butte).

5—Miss McDonald (Cordis & Smith, Butte) vs. Devil's Dream (Cordis & Smith, Butte).

6—Frog Agent (D. K. Carter, Cottonwood Falls, Kan.) vs. Happy Emperor (Frank Rule, Colorado City, Colo.).

7—The Smuggler (T. Knight, Butte) vs. Rusty Lad (George Kent, Butte).

8—Lord Bedford (L. F. Barile, Denver) vs. Chiverton Lad (L. Reese, Anaconda, Mont.).

9—Jimmy McDonald (Bennett Bros., Butte).

MICHIGAN AND OHIO.

Another game which is of considerable importance is that which will be played between Michigan and Ohio today. The former recognizing the dangerous strength of the latter is playing the game which has previously opened the season for Ann Arbor, in mid-season. Whether Michigan will be able to better her score of 6 to 0 made last year, depends entirely upon the new unknown strength of her rival.

Webb, Lafayette has the heaviest team, she has had for years, it is not probable she will defeat the Middle today. Last week Harvard has shown considerable progress lately, was barely able to score on Annapolis, and as Lafayette is not considered in a class with the crimson, it is hardly expected that she will hold her own against the Middle.

Harvard, Yale and Swarthmore will win Saturday's games without difficulty, but the games between Brown and Williams, and between Amherst and Dartmouth promise to be full of exciting incidents as these latter teams are very evenly matched.

NEBRASKA IS PICKED.

Nebraska, on her home grounds, should win easily from Colorado, unless the team from Boulder has by far the strongest aggregation she has ever had.

Last Saturday Minnesota ran up against a tough proposition when she met Nebraska. It was only because she possessed a good drop kicker that she was able to defeat her light rivals by the narrow margin of 3 to 6. While comparative scores are not always to be depended upon as a test of the relative strength of teams, yet Nebraska's good showing against her strong rivals indicates that she ought to win without difficulty from Colorado. The result of this game will, no doubt, be watched with much interest by Utah football enthusiasts, for it is through this game only, Colorado being the only one of Utah's opponents who meets a team of the middle west that the football fans are enabled to see how the U. of U. compares with the big eleven of the middle west.

FRED BENNION.

ALL STAR TEAM LOSES.

Aggies Win But Only After a Real Hard Struggle.

At Logan yesterday afternoon there was a hard-fought football game between the Aggies and an All-Star aggregation, the former winning by a score of 11 to 2.

The All-Star players knew the signals of the Aggies and were therefore able to give them something to do all the time. The Aggies were knocked out of quarterback John Nelson got through the line and made a run of 30 yards for a touchdown. The lineup was as follows:

Aggies. Backs—Hendy, Williams, Fairbairn, Minn. Ends—Hendy, Williams, Fairbairn, Minn. Tackle—Hendy, Williams, Fairbairn, Minn. Guard—Hendy, Williams, Fairbairn, Minn. Center—Hendy, Williams, Fairbairn, Minn. Quarterback—Hendy, Williams, Fairbairn, Minn. Fullback—Hendy, Williams, Fairbairn, Minn. Linebacker—Hendy, Williams, Fairbairn, Minn. Defensive Back—Hendy, Williams, Fairbairn, Minn. Punter—Hendy, Williams, Fairbairn, Minn. Kicker—Hendy, Williams, Fairbairn, Minn.

Game at Ogden Today.
Ogden High School and All Hallows College Teams in Conflict.

At Ogden this afternoon the first inter-high school football game of the series agreed upon is taking place between the Ogden High and All Hallows College teams and promise to be a stubbornly fought contest. The local pluckers chattered with a large crowd of confident and enthusiastic rooters left for the Junction City this morning. This is a great deal of interest in the game both here and in Ogden and both teams are anxious to win. The Ogden team is said to be in splendid form and confident of victory.

Twenty and twenty-five minute halves. Referee, E. Peterson.

PACIFIC COAST LEAGUE.

Los Angeles, Oct. 25.—Los Angeles defeated San Francisco today in an up-hill game by a score of 5 to 4.

Score:
Los Angeles..... 5
San Francisco..... 4
Batteries—Randolph and Kesterly; Jones and Williams.

Umpire—Toman.

EIGHTH NATIONAL AUTOMOBILE SHOW

Opens in Madison Square Garden November 2—Great Variety of Models.

Visitors to the Eighth National Automobile show, which opens in Madison Square Garden, November 2, will find such a great variety of new models for their inspection, it will be almost impossible for them to make any selection of a car, unless they subdivide the exhibition and inspect the cars which appeal to them from the point of price.

Those who wish to pay between \$2,000 and \$4,000 for a new car will find, for example, in a group ranging in price from \$3,300 to \$4,300 more than a score of different models.

In this particular group of cars selling between \$2,000 and \$4,000, the licensed manufacturers, this year, are showing as great a variety as has ever been found in this, or any other country.

Specifications are already announced by these moderate priced licensed cars range from \$2,500 to \$6,000. According to A. L. A. M. rating, the seating capacity ranges from five to seven persons. There will be two or three new six-cylinder cars for less than \$4,600, and also several very handsome limousines in this group.

Specifications are already announced by the different licensed makers and they will all show models at the Garden.

"Kitty" Eats Millions Lost Yearly in Racing.

What Makes Sport of Kings Most Profitable—Track Owners Get Bulk of Money.

Racing days in a season..... 209
Average daily attendance..... 12,000
Estimated attendance for season..... 2,500,000
Number of thoroughbreds in training..... 2,500
Estimated admissions paid..... \$5,000,000
Amount of money wagered daily..... 5,000
Amount of money wagered during season..... 1,500,000
Estimated annual receipts of New York tracks..... 2,500,000
Money paid out in stakes and premiums..... 2,400,000
Cost of thoroughbreds kept in stud..... 700
Winnings of biggest stable (G. R. Hecks)..... 20,000

Millions of dollars are spent each year in racing. The state is enriched by hundreds of thousands through an annual tax of receipts, racing associations, dealers and jockeys reap rich and fabulous rewards and thousands are paid out in salaries to those employed in various capacities. And who contributes the monumental fund which makes the sport so profitable?

don November 2-3. Most of them will be prepared to make immediate deliveries of cars in this group as soon as the show opens.

A VERY WIDE RANGE.

The Packard, this year, will show four models at \$4,200, giving the purchaser a very wide range of selection. They will be a regular five motor with two extension seats and a 30-hp. engine, rated at 30 h. p. French rating. All the parts below the frame will be cream yellow with black and blue accents. The body will be painted in the same color. They will also show a car with the same engine and wheel base, and will be shown for the same price. The Packard will show, also, a touring car with 112-hp. engine, rated at 30 h. p. French rating, with same engine, for \$4,300, done in maroon.

The Franklin company will show 130 all-cooled touring cars, this year, and of them a five-seater of 102 inch wheel base, with a 44x44 inch engine, done in royal blue, for \$2,850. They will show a handbuilt with the same wheel base and the same engine rated at 25 h. p. (A. L. A. M.) rating, seating five persons, done in royal blue, for \$4,000. The 14-hp. all-cooled car, also will be shown in a seven passenger touring car with a wheel base of 127 inches and a six-cylinder engine, 44 bore and a 4 inch stroke, rated at 45 h. p. (A. L. A. M.) rating. This six-cylinder will be painted in royal blue and will carry 36x43 tires in front and 36x43 behind, it has a bevel gear drive with three speeds and reverse.

Other specifications.

The Northern company has issued specifications for a seven passenger car for \$2,500, with a 114 inch wheel base and a 30x35 engine rated at 40 h. p. (A. L. A. M.) rating. This is a shaft driven car with a pneumatic clutch.

The Studebaker company will show four models this year within this price: one touring car for \$4,000 and one limousine for \$4,200 and two for \$5,500, one of which will be a runabout. The \$4,200 limousine has a wheel base of 124 inches, a 44x44 engine, rated at 27 h. p. (A. L. A. M.) rating. The \$5,500 runabout has the same engine and same wheel base. All the Studebaker cars are shaft driven with progressive type of gears.

The Corbin company will show an all-cylinder touring car for \$2,450, with 102 inch wheel base, 44x44 engine, rated at 24 h. p. (A. L. A. M.) rating, carrying five passengers and done in Brewster green.

Standard Vehicle company will show a very handsome limousine for \$4,500; 28 h. p.; 44x44 engine and 112 inch wheel base.

Standard Vehicle company will show two cars in this class—one known as the "Light six" listed at \$3,500. The six-cylinder engine is rated at 35 h. p. 35x35 engine and 114 inch wheel base. They will show also a 4-cylinder limousine with 80 inch wheel base and a 20 h. p. engine with 3 1/2 inch bore, 4 1/2 stroke, is a bevel gear shaft driven car designed to carry 10 persons, particularly adaptable for town use.

Phubius as this seems, it only gives a partial idea of the money accruing to the owners of racing thoroughbreds. The bookmaking end and the betting ring is not by any means the least item on the list. As near as can be gauged, \$2,000 is wagered on the various horses each day of the racing year. Two hundred days at this rate means that about \$2,000,000 are staked in a season by the public outside of admission fees. While this money is a problem. Few of the big bookmakers will own up to being ahead of the game, but they are in a hot day after day holding the bait in the shape of odds. Bill Cowan, Red Lichtenstein, the Holes Brothers, Tom McGrath are certain winners, but a majority of the others confide in depleted bank rolls. Plungers, a certain few are credited with big winnings. John W. Gates was all of \$200,000 ahead when he quit and went to Europe. Books are made in thousands of dollars. Bill, Senator Reynolds, "Big Tim" Sullivan, Pat McGarran, James H. Kene, Arthur Miller, "New Miller," "Beach" Engeman and some others not so prominently identified with the sport are the financial beneficiaries of the industry. This money-making institution known as the race track, they get most of the money from all the expenses and losses. Other, the bookies, and less, if a \$100,000 is won on one horse could be traced or all the story, its progress would finally end in the safe of the racing association, or, as it is known, "the kitty."

BIGGEST MONEY-MAKER.

This year has been the most successful one for the race track. The attendance has surpassed those of any other season, and the popularity of the game has never attained such heights. Baseball is the greatest American pastime, but horse racing is the most profitable. The money-making industry known as the race track, they get most of the money from all the expenses and losses. Other, the bookies, and less, if a \$100,000 is won on one horse could be traced or all the story, its progress would finally end in the safe of the racing association, or, as it is known, "the kitty."

SPORTING EVENTS THE COMING WEEK

Princeton and Cornell Test Conclusions On New York Gridiron.

BIG GAME THIS AFTERNOON.

All in Readiness at New Steeplechase Course Adjoining Belmont Park. Race Tracks—Championships.

New York football enthusiasts have an opportunity to witness a game at home today when Princeton and Cornell test conclusions on a metropolitan gridiron. The New Jersey Tigers will probably be favorites in the betting, but they will have their work cut out for them in defeating the husky squad from Ithaca. Next in point of interest among the games scheduled is that between the Carlisle Indians and Pennsylvania, played in Philadelphia. The redskins have gone to William Penn's town with blood in their eyes and the Quakers will have to play a fast and snappy game to save their scalps.

Little interest attaches to the games to be pulled off at Cambridge and New Haven. The Crimson will likely have little trouble in piling up a big score against Springfield training school, and the Elis will also have a comparatively soft snap in Villa Nova.

The soldiers at West Point will take on an equally easy foe in the contest with the navy in defeating Lafayette at Annapolis.

Among the smaller eastern institutions, the most important games will be between Amherst and Dartmouth at Amherst, Brown and Williams at Providence, Syracuse and Hamilton at Syracuse, Swarthmore and Gettysburg at Swarthmore, Washington and Jefferson at Washington, Dickinson and Dickinson at Dickinson, and Maine at Medford.

In the south, the principal games will be between Georgia and Alabama at Athens, Georgia, and Alabama and Georgia at Athens, Georgia. In the west, the principal games will be between Michigan and Wisconsin at Madison, Wis., and Iowa and Iowa at Iowa.

UNITED HUNTS STEEPLCHASE.

All in readiness at the new steeplechase course, adjoining Belmont park racetrack for the opening of the third annual meeting of the United Hunts Racing association. This course is considered the best of its kind in the country, and is equipped with a handsome grandstand, club house and other buildings. The meeting will be continued on Wednesday, Oct. 30, and Saturday, Nov. 2, Perry Belmont is the president of the association, H. S. Page, the secretary, and John R. Town is vice president, and John R. Town is treasurer. Many other famous owners and riders are among the membership of the association, representing all the states, and a highest in sporting and social affairs.

There will be three steeplechases, two hurdle races and a fast race for gentlemen. These will be followed by the regular military steeplechase, for officers of the regular army and volunteer corps, and the great United Hunts steeplechase, a handicap at the end of the day. The meeting will be the last of the season, and every effort has been made by the association, seconded by the military authorities, to make the meeting a most successful one.

Last year's meeting of the United Hunts association was held at Bonning track, Washington. The new steeplechase course is far superior to any heretofore existing, and will be the most successful ever held by gentlemen riders in the United States.

BIG INDOOR CHAMPIONSHIP.

Madison Square Garden is today decorated with the colors of the Amateur Athletic union, signalling the opening of the indoor season. The meeting will extend through tomorrow. The greatest bunch of sprinters and athletes ever brought together in this country is in attendance at the meet and the meeting for the purpose of trophies offered. In addition to the United States entries, the Montreal Amateur Athletic association has sent a team of four, and the Canadian Amateur Athletic association has sent a team of four.

An innovation at the meet is a one-mile walk, which has been added, not because there are any good walkers, but because the purpose of encouraging American athletes to practice this event with the idea of developing someone who will be able to give a good account of himself abroad.

Chief interest centers in the national championship short dashes the entries include W. D. Eaton of the Boston Athletic association, who won the 100-yard dash at the meet, and Charles Reitz, W. W. Huff of the Chicago A. A. W. J. Keating of the Irish-American A. C., Charles Parsons of the Olympia club of California, and Daniel Kelly of the New York Athletic club. The 40-yard dash in 4-5 seconds, and the battle for the honors will be a royal one.

SUIT THAT HORSES SHY AT.

Terror at the "Zoo."

Mr. W. W. Wetherill, a Philadelphia horseman, has been sued by the city of Philadelphia for the terror of the "Zoo."
